science sports the military literature education the media religion and many more Public Vs. Private Robert N. Gross, 2018 Americans choose from a dizzying array of schools loosely categorized as public and private How did these distinctions emerge and what do they tell us about the relationship in the United States between public authority and private enterprise Challenged by the rise of Catholic and other parochial schools in the nineteenth century states sought to protect the public school monopoly through regulation Ultimately however Robert N Gross shows how the public policies that resulted produced a stable educational marketplace where choice flourished **Bait and Switch** Anastasja Abraham, Amílcar Antonio Barreto, 2024-05-20 Exclusionary notions of American national identity have been endemic since the country's founding Since the Culture Wars they have returned with vengeance One of their champions is a new generation of tech savvy activists known as the Alt Right This is a movement that embraces a vision of America that is unapologetically white and Christian supremacist misogynistic and xenophobic Rather than see the Alt Right as an outlier the authors of this book treat it as an integral part of an endemic battler over the articulation of American national identity Critically what distinguishes these cyber warriors from other far right movements is their rhetorical style Their far right counterparts employ muscular rhetoric and demand the right to dominate The Alt Right on the other hand has opted for a weapons of the weak strategy and accuses adversaries of persecuting them Embracing a cult of victimhood this shift in rhetorical tactic is not only a matter of gaslighting its goal is to justify potential acts of violence The Future is Black Carl A. Grant, Ashley N. Woodson, Michael J. Dumas, 2020-07-29 The Future is Black presents Afropessimism as an opportunity to think in provocative and disruptive ways about race racial equality multiculturalism and the pursuit of educational justice The vision is not a coherent delimited conversation but a series of experiences with Afropessimism as a radical analytic situated within critical Black studies Activists educators caregivers kin and all those who love Black children are invited to make sense of the contemporary Black condition including a theorization of Black suffering Black fugitivity and Black futurity These three concepts provide the foundation for the book's inquiry and contribute to the examination of Black educational opportunity experience and outcomes The book not only explores how schooling becomes complicit in and serves as a site of Black material and psychic suffering but also examines the possibilities of education as a site of fugitivity of hope of escape and as a space within which to imagine an emancipation yet to be realized *Ableism: The Causes and Consequences of Disability Prejudice* Michelle R.
