Sur La Crise De L'histoire:

, *Sur la "crise" de l'histoire* Gérard Noiriel, 2005 Les mutations récentes qu'a connues l'histoire comme discipline tant sur le plan des pratiques que sur le plan du savoir mais aussi l'arrivée sur le devant de la scène d'une nouvelle génération d'historiens soucieux de se démarquer de la précédente nourrissent les interrogations de la profession sur son identité et sur son avenir Gérard Noiriel mesure l'ampleur structurelle de cette crise en la situant dans le prolongement des relations contradictoires que l'histoire entretient avec la philosophie Contestant l'idée que le retour du récit pourrait résoudre les difficultés actuelles l'auteur nous invite à relire le testament de Marc Bloch Apologie pour l'histoire afin d'y puiser les matériaux nécessaires à l'élaboration d'une définition pragmatiste de la discipline La réflexion sur la connaissance historique est conçue ici comme un travail collectif de clarification des pratiques de recherche visant mieux comprendre donc mieux maîtriser les activités de savoir de mémoire et de pouvoir qui entrent dans l'exercice du métier d'historien **Lecture Economique de**

L'Histoire du Japon Philippe Huysveld, 2014-04-29 Cet ouvrage s'adresse aux étudiants suivant un programme d'études en langue ou commerce japonais ou encore au lecteur averti intéressé par l'Histoire et l'Economie du Japon Le Japon de 2014 se trouve à la croisée de nombreux défis de taille qui sont abordés succinctement en fin de livre Trois ans après le tsunami meurtrier de la région de Tohoku on en est au processus de reconstruction Le nucléaire va-t-il être remplacé par les Energies Renouvelables Comment le pays va-t-il faire face aux défis démographiques Le Japon est-il toujours un pays innovateur En préparant un cours l'auteur s'est aperçu qu'il y avait surtout en langue anglaise assez bien de livres sur l'Histoire et l'Economie du Japon en général surtout après 1945 mais très peu de livres récents se concentrant sur une lecture purement économique de l'Histoire entière du Japon Malheureusement il y a encore moins de choix en langue française D'où sans doute la pertinence de cet ouvrage Keywords Japan Japon Economie du Japon Japanese Economy Histoire du Japon Japanese History Lecture Economique Histoire Economique Economic History Commercer avec le Japon Doing Business with Japan Commercer au Japon Doing Business in Japan Faire des Affaires au Japon Emploi vie Life Employment Innovation au Japon les Japonais the Japanese **The Latest Catastrophe** Henry Rousso, 2016-07-06 The writing of recent history tends to be

deeply marked by conflict by personal and collective struggles rooted in horrific traumas and bitter controversies Frequently today's historians can find themselves researching the same events that they themselves lived through This book reflects on the concept and practices of what is called contemporary history a history of the present time and identifies special tensions in the field between knowledge and experience distance and proximity and objectivity and subjectivity Henry Rousso addresses the rise of contemporary history and the relations of present day societies to their past especially their legacies of political violence Focusing on France Germany the United Kingdom and the United States he shows that for contemporary historians the recent past has become a problem to be solved No longer unfolding as a series of traditions to be respected or a set of knowledge to be transmitted and built upon history today is treated as a constant act of mourning or memory and

attempt to atone Historians must also negotiate with strife within this field as older scholars who may have lived through events clash with younger historians who also claim to understand the experiences Ultimately The Latest Catastrophe shows how historians at times against their will have themselves become actors in a history still being made *Storia della storiografia* ,2000 **Studia Phaenomenologica XI / 2011** Christian Ferencz-Flatz,2011-01-01 **Études Critiques Sur L'histoire de Charlemagne** Louis Halphen,1921 **Historical Knowledge, Historical Error** Allan Megill,2007-02 In the past thirty years historians have broadened the scope of their discipline to include many previously neglected topics and perspectives They have chronicled language madness gender and sexuality and have experimented with new forms of presentation They have turned to the histories of non Western peoples and to the troubled relations between the West and the rest Allan Megill welcomes these developments but he also suggests that there is now confusion among historians about what counts as a justified account of the past In Historical Knowledge Historical Error Megill dispels some of the confusion Here he discusses issues of narrative objectivity and memory He attacks what he sees as irresponsible uses of evidence while accepting the art of speculation which incomplete evidence forces upon historians Along the way he offers succinct accounts of the epistemological road historians have traveled from Herodotus and Thucydides through Leopold von Ranke and Alexis de Tocqueville and on to Hayden White Natalie Zemon Davis and Lynn Hunt **Dove Va la Storia Economica?** Francesco Ammannati,2011 **A l'école de la phénoménologie** Paul Ricoeur,2004 Le lecteur trouvera ici rassembles quelques textes qui appartiennent aux années d'apprentissage de leur auteur La plupart sont consacrés exclusivement à celui qui fut un de ses peu nombreux éducateurs à la pensée Edmund Husserl Ils justifient pleinement le titre donné à la collection d'articles A l'école de la phénoménologie étant entendu que le titre de phénoménologie s'identifie ici au nom de son second fondateur après Hegel Si l'introduction aux Idées directrices tome I ainsi que le commentaire accompagnant la traduction de 1950 ne figurent pas dans ce recueil les Idées directrices tome II et surtout les Méditations Cartésiennes sans oublier la Krisis sont largement commentées On a joint deux ou trois essais dans lesquels l'auteur se livre à quelques exercices de caractère plus personnel Mais ils ont tous été composés à l'école de la phénoménologie husserlienne *Alfred Loisy and the Making of History of Religions* Annelies Lannoy,2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F. Cumont, M. Mauss or J. G. Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890

1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions

Empires, Nations and Private Lives Fran ois-Olivier Dorais, Daria Dyakonova, Nari Shelekpavev, 2016-02-22 This book brings together a series of papers presented at a University of Montreal interdisciplinary conference held in March 2014 and devoted to various little known facets of the First World War s cultural and social history The commemorative activities of the war s centennial triggered the conference as this anniversary had precipitated a lively renewal of historical reflections on the causes and consequences of this global conflict If the commemoration was an occasion to foster a more civic minded pedagogical approach regarding the meaning of this major historical event the conference itself strove to engage the rich and substantial body of research about the war that had evolved over the past few decades While taking national and regional approaches into account this book also aligns itself with the recent interest in a global history of the Great War that by not excluding various national traditions strives to re examine the causes and consequences of the conflict from a perspective whose scope extends beyond Europe By engaging in a broader temporal and spatial consideration of the war this standpoint not only calls into question the relevance of using the nation state as a singular political and cultural framework with which to understand the conflict but also and especially strives to more clearly apprehend peripheral geopolitical spaces particularly Africa and the Americas in the conflict and to integrate them more effectively

Africa and France Dominic Richard David Thomas, 2013 This stimulating and insightful book reveals how increased control over immigration has changed cultural and social production in theatre literature and even museum construction Dominic Thomas s analysis unravels the complex cultural and political realities of long standing mobility between Africa and Europe Thomas questions the attempt to place strict limits on what it means to be French or

European and offers a sense of what must happen to bring about a renewed sense of integration and global Frenchness
