concepts and new ways of cancer immunotherapy and shows that Xu Ze's research group dedicates to cancer immunotherapy. The main contents of this book were written by Dr Xu Ze in China many years ago after he did more than decades of research and oncology clinical practices. This book is full of the innovating ways and concepts how to stop the cancer metastases especially the oncology immunotherapy and describes the metastases mechanism in details. In Chapter 11 and 21 the cancer cell immunotherapy was discussed in great detail. As we know the cancer is also called malignancy tumor which are made up of cells that grow out of control. Cells in these tumours can invade nearby tissues and spread to other parts of the body which damages our normal function. This is known as metastasis or secondary cancer. If we stop the metastases we can control cancer. This book described the cancer characteristics in details such as development of tumor molecular biology many factors which influence the occurrence and metastases of cancer in the body. Dr Xu Ze's immunotherapy methods and medications each metastases step in details the treatment of cancer thrombus the review and prospect of oncology surgery the new understanding of anticancer immunotherapy etc. In brief this book summarized Dr Xu Ze oncology experience and all of his contribution to the oncology immunotherapy. In addition because we finished this book during such shortly several months and this book is full of new concepts and broad knowledge it may have some mistakes which please be forgiven by all of our reader and we also wish you can give us your feedback.
