Surgical Teaching Practice Makes Perfect:

Surgical Teaching Neal Whitman, Peter Lawrence, 1991-01-01 **Te Linde's Operative Gynecology** Howard W. Jones, John A. Rock, 2015-07-10 Te Linde's Operative Gynecology has been the premier text in the field of gynecologic surgery for more than 60 years. This text covers all of the aspects of gynecologic surgery from the most general topics of surgical ethics to instruction on detailed surgical procedures. General background pathology for surgical problems is covered as are patient treatment selection, step by step surgical techniques and post-operative concerns. **Improving the Chain of Recovery for Acute Stroke in Your Community** National Institute of Neurological Disorders and Stroke (U.S.). Symposium, 2003 *Fundamentals and Frontiers of Medical Education and Decision-Making* Jordan Richard Scheenherr, Meghan McConnell, 2024-07-22 Fundamentals and Frontiers of Medical Education and Decision Making brings together international experts to consider the theoretical, practical and sociocultural foundations of health professions education. In this volume, the authors review the foundational theories that have informed the early transition to competency-based education. Moving beyond these monolithic models, the authors draw from learning and psychological sciences to provide a means to operationalize competencies. The chapters cover fundamental topics including the transition from novices to experts, the development of psychomotor skills in surgery, the role of emotion and metacognition in decision making, and how practitioners and laypeople represent and communicate health information. Each section provides chapters that integrate and advance our understanding of health professions education and decision making. Grounded in psychological science, this book highlights the fundamental issues faced by healthcare professionals and the frontiers of learning and decision making. It is important reading for a wide audience of healthcare professionals, healthcare administrators, as well as researchers in judgment and decision making. *Te Linde's Operative Gynecology, South Asian Edition* Dr. Sharmila Arun Babu, 2021-11-01 The First South Asian Edition of Te Linde's Operative Gynecology has been thoroughly edited to suit the needs of students and practitioners in South Asian countries, keeping in mind the rapidly changing concepts in Operative Gynecology. This globally acclaimed textbook guides the reader through the well-illustrated techniques of gynecological surgeries. Salient Features of the South Asian Edition: Keeping the essence of the text, all the chapters have been updated and revised to adapt to local practices and conditions in South Asian countries. Features like Stepwise approach to perform gynecologic operations and Best surgical practices that are important components of each chapter have been retained and updated wherever necessary. Data from recent trials, latest staging and classifications of cancers have been included in oncology chapters. Indian data pertaining to common gynecological conditions and cancers have been incorporated. Medico-legal laws in India which have a bearing on day-to-day practice of Obstetrics and Gynecology have been included in relevant chapters. In the chapter Tubal Sterilization, detailed preoperative evaluation, selection criteria and statistics from Indian perspective have been incorporated. Government of India guidelines for postpartum sterilization are also included.

Recent advances in Robotic surgery in India and a note on Robotic Assisted Laparoscopic Hysterectomy have been included Content has been thoroughly peer reviewed by subject experts of national repute *Training in Minimal Access Surgery* Nader Francis,Abe Fingerhut,Roberto Bergamaschi,Roger Motson,2015-08-11 This book provides a broad overview on training in Minimal Access Surgery with expert opinions from leaders in the field clarifying the definitions and terminology related to competence and accreditation It also provides expert advice on how to set up a training unit and explores the role and impact of all types of simulations on training including virtual reality simulation How to design a competency based training curriculum in advanced laparoscopic surgery is also explored along with in depth examination of the role of assessment and competency based accreditation Training in Minimal Access Surgery is a valuable resource for all health care professionals who are involved in training and education in Minimal Access Surgery including trainers and supervisors There is well established and robust evidence to support the benefits of laparoscopic surgery in terms of better pain control fewer complications and shorter length of stay with an earlier return to work Hence there is now widespread adoption of laparoscopic techniques in many surgical specialties including colorectal and morbid obesity surgery across the world

Make It Stick Peter C. Brown, Henry L. Roediger III, Mark A. McDaniel, 2014-04-14 To most of us learning something the hard way implies wasted time and effort Good teaching we believe should be creatively tailored to the different learning styles of students and should use strategies that make learning easier Make It Stick turns fashionable ideas like these on their head Drawing on recent discoveries in cognitive psychology and other disciplines the authors offer concrete techniques for becoming more productive learners Memory plays a central role in our ability to carry out complex cognitive tasks such as applying knowledge to problems never before encountered and drawing inferences from facts already known New insights into how memory is encoded consolidated and later retrieved have led to a better understanding of how we learn Grappling with the impediments that make learning challenging leads both to more complex mastery and better retention of what was

learned Many common study habits and practice routines turn out to be counterproductive Underlining and highlighting rereading cramming and single minded repetition of new skills create the illusion of mastery but gains fade quickly More complex and durable learning come from self testing introducing certain difficulties in practice waiting to re study new material until a little forgetting has set in and interleaving the practice of one skill or topic with another Speaking most urgently to students teachers trainers and athletes Make It Stick will appeal to all those interested in the challenge of lifelong learning and self improvement
