The Genesis Of Capitalism The Origins Of Modernity:

The Genesis of Capitalism and the Origins of Modernity Luciano Pellicani, 1994 **Max Weber: From History to Modernity** Profesor Bryan S Turner, 2002-09-11 This wide ranging and assured book written by one of the leading Weber scholars in the English speaking world shows us the many sides of Max Weber The book provides an authoritative guide to the current burning issues in social theory religion rationalization the body modernization and capitalism It will be essential reading for anyone interested in Weber s claim that the aim of sociology must be to explain what is distinctive about the times in which we live *History, Politics and Theory in the Great Divergence Debate* Olya Murphy, 2023-12-31 World history suffers from a paucity of clearly articulated convincing explanations While the rise of postmodernism and challenges to Eurocentrism did lead to some important correctives the pendulum has swung too far the other direction with a corresponding danger of throwing the baby out with the bathwater We need careful theoretically informed debates about ways of organizing world history What constitutes a good historical explanation What should guide historians to choose relevant facts Which theoretical schools could be made useful and to what ends These questions are especially relevant to the main topic of this book the great divergence between the west and the rest of the world and how this historical rupture is to be explained The book provides extensive critical analyses of some of the key claims in world history analyzing their strengths as well as their major weaknesses too often rooted in insufficient familiarity of historians with theories they discard It also historicizes the field and the debates to partly account for what caused some theories to become more influential and others to fall into oblivion despite the fact that the more influential frameworks are seriously flawed and some of the more marginalized ideas are more coherent and plausible The book offers insights regarding the theoretical and political relevance of older debates about the transition to capitalism and historical materialism Three major schools of thought in world history are critically examined through an in depth theoretical and comparative analysis that has not been undertaken elsewhere the so called California School World Systems Analysis and Marxist theories of history capitalism and the transition from feudalism to capitalism Murphy argues that despite some of the more recent criticisms of older approaches to world history the older theories remain indispensable for the writing of world history and for coming to terms with issues of global poverty inequality and eco catastrophe *Rethinking Modernity* G. Bhambra, 2007-04-11 Arguing for the idea of connected histories Bhambra presents a fundamental reconstruction of the idea of modernity in contemporary sociology She criticizes the abstraction of European modernity from its colonial context and the way non Western others are disregarded It aims to establish a dialogue in which others can speak and be heard *Deleuze and Guattari's Philosophy of History* Jay Lampert, 2006-06-08 Deleuze and Guattari s Philosophy of History constructs problematizes and defends a Deleuzian philosophy of history Drawing on Deleuze s philosophy of time it identifies key ideas and suggestions related to the philosophy of history from Deleuze and Guattari s major writings including the seminal contemporary texts *Anti Oedipus* A
