Writers Directory NA NA, 2016-03-05 **Possessed Women, Haunted States** Christopher J. Olson, CarrieLynn D. Reinhard, 2016-11-02 Since the release of *The Exorcist* in 1973 there has been a surge of movies depicting young women becoming possessed by a demonic force that only male religious figures can exorcise thereby saving the women from eventual damnation This book considers this history of exorcism cinema by analyzing how the traditional exorcism narrative established in *The Exorcist* recurs across the exorcism subgenre to represent the effects of demonic possession and ritual exorcism This traditional exorcism narrative often functions as the central plot of the exorcism film with only the rare film deviating from this structure The analysis presented in this book considers how exorcism films reflect reinforce or challenge this traditional exorcism narrative Using various cultural and critical theories this book examines how representations of possession and exorcism reflect reinforce or challenge prevailing social cultural and historical views of women minorities and homosexuals In particular exorcism films appear to explore tensions or fears regarding empowered and sexually active women and frequently reinforce the belief that such individuals need to be subjugated and disempowered so that they no longer pose a threat to those around them Even more recent films produced after the emergence of third wave feminism

typically reflect this concern about women. Very rarely do exorcism films present empowered women and feminine sexuality as non-threatening. In examining this subgenre of horror films, this book looks at films that have not received much critical scrutiny regarding the messages they contain and how they relate to and comment upon the historical periods in which they were produced and initially received. Given the results of this analysis, this book concludes on the necessity to examine how possession and exorcism are portrayed in popular culture.

The war that won't die David Archibald, 2021-06-15

The war that won't die charts the changing nature of cinematic depictions of the Spanish Civil War. In 1936, a significant number of artists, filmmakers, and writers, from George Orwell and Pablo Picasso to Joris Ivens and Joan Mir, rallied to support the country's democratically elected Republican government. The arts have played an important role in shaping popular understandings of the Spanish Civil War, and this book examines the specific role cinema has played in this process. The book's focus is on fictional feature films produced within Spain and beyond its borders between the 1940s and the early years of the twenty-first century, including Hollywood blockbusters, East European films, the work of the avant-garde in Paris, and films produced under Franco's censorial dictatorship. The book will appeal to scholars and students of Film, Media, and Hispanic Studies, but also to historians and indeed anyone interested in why the Spanish Civil War remains such a contested political topic.
