The God Who Comes:

The God who Comes Carlo Carretto, 1974 **The God who Comes** Rosemarie Taylor-Perry, 2003 The most widely acclaimed and influential religious cult in the ancient Greek world for almost 2000 years was the Eleusinian Mysteries the Mystery Rites of Dionysos and associated Hellenic deities Drawing participants from Rome Egypt and all around the Mediterranean the Mysteries influenced and inspired many of the greatest minds including Aristotle Homer and Plutarch But initiates were sworn to secrecy and with the advent of Christianity the Roman Empire stamped out this cult How did adherents of Hellene Mystery Deities performed their worship What was the symbolism of the sacred objects and the actions performed The God Who Comes is a meticulously researched exploration of how and why these rites were performed based upon archaeological scholarly and iconographic evidence a refutation of facile New Age inventions Cicero said Athens never created anything nobler than those sublime Mysteries through which we became gentler and have advanced from a barbarous and rustic life to a more civilized one so that we not only live more joyfully but also die with a better hope The author traces how the rituals were related chronologically why it seems that many aspects of ritual action are unclear or appear transposed and why no scholar intent upon probing the hows and wherefores of ancient Mystery rites had ever presented them in any sort of chronologically easily understood manner She examines parallels in diverse civilizations including the use of hallucinogens in religious rites and archetypal deities such as shape changers like the Navajo Coyote The book includes an index Greek to English glossary extensive footnotes and bibliography **The God who comes** Carlo Carretto, 1974 This book is a call to love silence poverty and faith which challenges those who think they can reach God by running faster The author a Little Brother of Charles de Foucauld divides his time between the Order's house in the Sahara and the Umbrian Hills where he lives as a hermit **God's Church-Community** David Emerton, 2020-07-09 David Emerton argues that Dietrich Bonhoeffer's ecclesial thought breaks open a necessary third way in ecclesiological description between the Scylla of ethnographic ecclesiology and the Charybdis of dogmatic ecclesiology Building on a rigorous and provocative discussion of Bonhoeffer's thought Emerton establishes a programmatic theological grammar for any speech about the church Emerton argues that Bonhoeffer understands the church as a pneumatological and eschatological community in space and time and that his understanding is built on eschatological and pneumatological foundations These foundations in turn give rise to a unique methodological approach to ecclesiological description an approach that enables Bonhoeffer to proffer a genuinely theological account of the church in which both divine and human agency are held together through an account of God the Holy Spirit Emerton proposes that this approach is the perfect remedy for an endemic problem in contemporary accounts of the church that of attending either to the human empirical church community ethnographically or to the life of God dogmatically and to each problematically at the expense of the other This book will act as a clarion call towards genuinely theological ecclesiological speech which is allied to real ecclesial action **The God who Comes** Lucien

Legrand,1991 **The Omega Prophecy** David Paul,2020-10-07 David Paul follows in the tradition of spiritual thrillers pioneered by Charles Williams War in Heaven and Frank Peretti This Present Darkness and blends the realm of angels and demons with 21st century bio warfare The action is compelling and the stakes go beyond the world souls hang in a delicate balance between heaven and hell It takes great discipline on the part of the reader to set this book down at night and go to bed As observed by Professor Emeritus Francis C Rossow of Concordia Seminary St Louis MO If you like the novels of Stephen King Frank Peretti J R R Tolkien and C S Lewis then Plague of Terror is the book for you If you like the novels of Stephen King Frank Peretti J R R Tolkien and C S Lewis then Plague of Terror is the book for you Francis C Rossow Professor Emeritus Concordia Seminary St Louis Missouri Plague of Terror is one of those books that grabs you Michael J Chapman author and national lecturer on public education and revisionist history *Eberhard Jüngel* John Webster,1986 The first introduction in any language to the work of leading contemporary Protestant theologian Eberhard J ngel **Gods Priests & Men** Lloyd,2012-11-12 First Published in 1998 This volume brings together for the first time in a single volume the highly significant works on ancient Egyptian religion by Aylward Manley Blackman 1883 1956 Blackman s knowledge of Egyptian religion was unrivalled He was best known for his series of studies on Egyptian religion which have long been regarded as essential reading in the subject and which forms the content of the present collection Unusually Blackman did not publish his writings in book form but preferred to place them in a wide range of publications that are extremely difficult to obtain Blackman s studies on Egyptian religious belief and particularly religious practice focus on areas of fundamental concern and are models of meticulous sympathetic and penetrating scholarship They should remain required reading for all students of Egyptian religion well into the next century All those with an interest in the subject should welcome this volume which makes Blackman s writings accessible in a convenient form A select bibliography provides an update and key to more recent work on topics discussed by Blackman **Revelation 1-11 (ITC)** Peter J. Leithart,2018-02-22 The Book of Revelation is the last book in the canon of the New Testament and its only apocalyptic document though there are short apocalyptic passages in various places in the gospels and the epistles This first of two volumes on Revelation offers systematic and thorough interpretation of the book of Revelation Revelation brings together the worlds of heaven earth and hell in a final confrontation between the forces of good and evil Its characters and images are both real and symbolic spiritual and material and it is frequently difficult to know the difference between them Revelation s cryptic nature has ensured that it would always be a source of controversy This commentary focuses on the theological content gleaning the best from both the classical and modern commentary traditions and showing the doctrinal development of Scriptural truths Scholarship on the book of Revelation has nonetheless not only endured but even captured the imagination of generations of Bible students both professionals and laypeople alike Through its focus on the message of the book through scholarly analysis this International Theological Commentary reconnects to the ecclesial tradition of biblical commentary as an effort in ressourcement though
