The Works of William Ernest Henley: Essays William Ernest Henley, 1921 R. S. Thomas Daniel

Westover, 2011-09-15 R S Thomas 1913-2000 is the most recognizable literary figure in twentieth century Wales. His controversial politics and public personality made him a cultural icon during his life and the merits of his poetry have continued to be debated in the years after his death. Yet these debates have too often circled familiar ground: returning to the assumed personality of the poet or to the received narrative of his experience. Even the best studies have focused almost exclusively on ideas and themes. As a result, the poetry itself has frequently been marginalized. This book argues that Thomas's reputation must be grounded in poetry, not personality. Unlike traditional literary biography, which combines historical facts with the conventions of narrative in an attempt to understand the life of a literary figure, this stylistic biography focuses on the essential relationship between the maker and the made object, giving priority to the latter. R S Thomas began his career by writing sugary derivative lyrics inspired by Palgrave's *Golden Treasury*; yet he ended it as a form-seeking experimentalist. This study guides the reader through that journey, tracing Thomas's stylistic evolution over six decades. In so doing, it asserts a priority not to look at poetry as many have as a way of affirming existing notions about an iconic R S Thomas, but to come to terms with the tensions within him as they reveal themselves in the tensions, rhythmic, linguistic, structural of the poetry itself.

Isaac Rosenberg Vivien Noakes, 2008-11-07 The first volume to be published in the new 21st Century Oxford Authors series presents all of the surviving writings of Isaac Rosenberg: 1890-1918 poetry, plays, prose works, and letters. The book also provides a commentary giving details of the composition and publication of the poems and plays and throws light on the people, places, and incidents described in both these and the letters. An introduction places the collection in context and a chronological table describes the main events of his life. There are also examples of his paintings and drawings. Although best known as a war poet, most of Rosenberg's work pre-dates the war. The son of Jewish immigrants from Lithuania, he grew up in London's East End. Financially impoverished, he nevertheless lived in a society that valued artistic creativity among his

friends were Mark Gertler and David Bomberg He was a painter as well as a poet and studied at the Slade School of Art He knew many of the leading poets of the day and his letters in particular those to Edward Marsh and Gordon Bottomley throw fascinating light on his own poetic creativitiy and the response to his work of those around him In both his letters and prose works we find an insightful commentator on both poetry and painting Though never a member of any movement he was aware of the issues that preoccupied the artistic circles of his day His artistic independence gives both power and insight to his work
