The Internet Church:

The Internet Church Walter P. Wilson, 2000 With rapid technological advances and the increasing impact of the internet the world is literally at our fingertips Yet many churches have yet to discover how to tap into this powerful resource The Internet Church shows church leaders how to start from square one in creating an interactive website that can greatly expand the ministry potential of a church Walter Wilson an internet expert and committed Christian describes how technology can enhance evangelism outreach and challenges leaders to take advantage of unprecedented opportunities in the new digital age

God, Internet Church and You Davo Roberts, 2015-01-03 A question to begin with If you are at home how can you go and do Church with others You can't But Church can come to you As the Church continues through the twenty first century technology as ever marches inexorably onwards Into this the way Church interacts with God and with each other has been formed This is a Church that does not meet in a specific location but gathers in what is called the internet or as it is also known as Digital Space Some questions we will seek to answer in this book are What is the Internet Can God really interact within an Internet Environment What is an Internet Church How does an Internet Church function What are the virtues and liabilities of an Internet Church Can a Digital Space Church be considered part of the historical Church How can this technology be used so that Christians can be disciplined effectively in the twenty first century and beyond

Expanding God's Kingdom Online Erin K. Flewelling, 2011 In the last quarter century research demonstrates a sharp decline in church attendance in Western nations posing a distinct challenge to evangelical Christian faiths who believe Jesus Christ calls them into the world to expand his kingdom and make disciples During this same time frame global culture has become increasingly dependent on computer mediated communication CMC for education dissemination of information and the creation or extension of social connections The use of websites email and social networks has become commonplace and touches all areas of life including religion In fact the expansion of CMC has made new technologies available for Christians to expand the kingdom of God and to reach people around the world who have access to the Internet One might expect churches to utilize the Internet as an information source but an increasing number are establishing actual Internet congregations to create sacred space on the Internet expand the kingdom of God and form spiritual communities These Internet churches function rhetorically as participants are persuaded to consider new realities about God and about humanity This thesis examines the websites of three Internet churches St Pixels Church of the Internet Potential Church and LifeChurch tv in order to evaluate the goals of each church and the oral textual visual and technological strategies used by these churches to achieve those goals I will review the history of the Internet church movement as well as some of the implications of this trend Next I ask how it is that these churches establish construct a sense of trustworthiness an essential element in persuasion Finally I explore the role of sensory elements such as sound and images combined with textual elements in constructing a sense of space for Internet church participants in order to examine the way this

construction of space communicates the values of these Internet Mediating Religion Jolyon P. Mitchell, Sophia Marriage, 2003-06-01 This is the first book to bring together many aspects of the interplay between religion media and culture from around the world in a single comprehensive study Leading international scholars provide the most up to date findings in their fields and in a readable and accessible way Some of the topics covered include religion in the media age popular broadcasting communication theology popular piety film and religion myth and ritual in cyberspace music and religion communication ethics and the nature of truth in media saturated cultures The result is not only a wide ranging resource for scholars and students but also a unique introduction to this increasingly important phenomenon of modern life

2020 Digital Church Strategy Alicia Wyman, 2020-03-27 Churches should be using the Internet to help accomplish their missions Now more than ever both Christians the unchurched are seeking online church experiences They want to learn about why Jesus is king They want to build and develop an intimate relationship with Jesus And they want to be able to achieve this all online prior to committing to a new and intimidating physical church experience Acts 1 21b reminds us that Jesus went in and out among us so it isn't antithetical to scripture to venture out and adapt for those who do not and cannot attend your church service Our Lord repeatedly set the example of prioritizing meeting others where THEY are It's time to extend your reach and implement a digital strategy for your church Let's glorify God with technology **Digital Church**
