Bunker, 2019-07-23 Plutocratic insurgency represents an emerging form of insurgency not seen since the late 19th century Gilded Age It is being conducted by high net worth globalized elites allowing them to remove themselves from public spaces and obligations including taxation and to maximize their ability to generate profits transnationally It utilizes lawyers lobbyists and corruption rather than armed struggle though mercenaries may be employed to create shadow governance in pursuit of plutocratic policy objectives Ultimately this form of insurgency is representative of the challenge of 21st century predatory and sovereign free capitalism to 20th century state moderated capitalism and its ensuing public welfare programs and middle class social structures It can be viewed as a component of Dark Globalization that along with the emergence of criminal insurgency is now actively threatening the public institutions and citizenry of the Westphalian state form This important and groundbreaking Small Wars Journal book is composed of over thirty readings by fifteen contributors **The Continental Philosophy Reader** Richard Kearney, Mara Rainwater, 1996 The Continental Philosophy Reader is the first complete anthology of classic writings from the major figures in European thought and provides a powerful introduction to one of the 20th century s most influential intellectual movements **Readers Front and Center** Dorothy Barnhouse, 2023-10-10 Every teacher wants and expects his or her students to be reading increasingly complex texts yet sometimes the gap between our expectations and our students abilities seems wide and deep It s tempting to look at that gap and step in to fill it for them but then we d be doing most of the heavy lifting the understanding analysis and interpretation that our students should be learning for themselves So how can teachers reverse this trend and ensure that our students are

fully entering absorbing and experiencing texts How can we make sure they re making complex meaning independently and proficiently as the Common Core State Standards require Readers Front and why we need to put students at the front and center of our teaching

The Reader, the Text, the Poem Louise M. Rosenblatt,1994-09-21 Louise M Rosenblatt s award winning work continues increasingly to be read in a wide range of academic fields literary criticism reading theory aesthetics composition rhetoric speech communication and education Her view of the reading transaction as a unique event involving reader and text at a particular time under particular circumstances rules out the dualistic emphasis of other theories on either the reader or the text as separate and static entities The transactional concept accounts for the importance of factors such as gender ethnicity culture and socioeconomic context Essential reading for the specialist this book is also well suited for courses in criticism critical theory rhetoric and aesthetics Starting from the same nonfoundationalist premises Rosenblatt avoids the extreme relativism of postmodern theories derived mainly from Continental sources A deep understanding of the pragmatism of Dewey James and Peirce and of key issues in the social sciences is the basis for a view of language and the reading process that recognizes the potentialities for alternative interpretations and at the same time provides a rationale for the responsible reading of texts The book has been praised for its lucid explanation of the multidimensional character of the reading process evoking interpreting and evaluating the work The nonliterary efferent and the literary aesthetic are shown not to be opposites but to represent a continuum of reading behaviors The author amply illustrates her theoretical points with interpretations of varied texts The epilogue carries further her critique of rival contemporary theories

Dreams of Fiery Stars Catherine Rainwater,2010-08-03 Selected by Choice magazine as an Outstanding Academic Book for 1999 Since the 1968 publication of N Scott Momaday s *House Made of Dawn* a new generation of Native American storytellers has chosen writing over oral traditions While their works have found an audience by observing many of the conventions of the mainstream novel Native American written narrative has emerged as something distinct from the postmodern novel with which it is often compared In *Dreams of Fiery Stars* Catherine Rainwater examines the novels of writers such as Momaday Linda Hogan Leslie Marmon Silko Gerald Vizenor and Louise Erdrich and contends that the very act of writing narrative imposes constraints upon these authors that are foreign to Native American tradition Their works amount to a break with and a transformation of American Indian storytelling The book focuses on the agenda of social and cultural regeneration encoded in contemporary Native American narrative and addresses key questions about how these works achieve their overtly stated political and revisionary aims Rainwater explores the ways in which the writers create readers who understand the connection between storytelling and personal and social transformation considers how contemporary Native American narrative rewrites Western notions of space and time examines the existence of intertextual connections between Native American works and looks at the vital role of Native American literature in mainstream society today

In/Visible Subjects Gero Guttzeit,2025-10-28 In *Visible Subjects* explores the cultural fascination with invisible characters in literature While the concept of social invisibility is common in contemporary political discourse there exists no comprehensive analysis of the history of the cultural metaphor of invisibility This book addresses this gap by tracing the literary evolution of invisibility in narratives from the eighteenth century to the present The monograph examines literal and

metaphorical invisibility in terms of both content and form offering exemplary readings of literary texts by eighteenth century women novelists Eliza Haywood and Susanna Rowson Romantic poets Anna Letitia Barbauld and John Keats nineteenth century writers of fantasy and science fiction including James Forbes Dalton Fitz James O'Brien and H G Wells early twentieth century authors such as G K Chesterton Virginia Woolf and Ralph Ellison and contemporary writers China Miéville and Jennifer Egan In *Visible Subjects* aims to establish a new literary foundation for the emerging field of invisibility studies It is of interest to scholars in literary and cultural studies working on narrative literary character subjectivity and identity

Illuminating Letters Paul C. Gutfahr, Megan L. Benton, 2001 What do we read when we read a text The author's words of course but is that all The prevailing publishing ethic has insisted that typography the selection and arrangement of type and other visual elements on a page should be an invisible silent and deferential servant to the text it conveys This book contests that conventional point of view Looking at texts ranging from the King James Bible to contemporary comic strips the contributors to *Illuminating Letters* examine the seldom considered but richly revealing relationships between a text's typography and its literary interpretation The essays assume no previous typographic knowledge or expertise instead they invite readers primarily concerned with literary and cultural meanings to turn a more curious eye to the visual and physical forms of a specific text or genre As the contributors show closer inspection of those forms can yield fresh insights into the significance of a text's material presentation leading readers to appreciate better how presentation shapes understandings of the text's meanings and values The case studies included in the volume amplify its two overarching themes one set explores the roles of printers and publishers in manipulating willingly or not the meaning and reception of texts through typographic choices the other group examines the efforts of authors to circumvent or subvert such mediation by directly controlling the typographic presentation of their texts Together these essays demonstrate that choices about type selection and arrangement do indeed help to orchestrate textual meaning In addition to the editors contributors include Sarah A Kelen Beth McCoy Steven R Price Leon Jackson and Gene Kannenberg Jr
