The Irish Administrative System:

The Irish Administrative System T. J. Barrington, 1980 The Irish Administration R. B. McDowell, 2024-10-01 The developments and achievements of the Irish administration overshadowed by the more spectacular aspects of Irish history have received comparatively little attention But Irish conditions in the 19th Century encouraged and compelled the state to exert itself on a more extensive front than in contemporary England and a number of government departments played a very active and often creative part in Irish social and economic life In this work originally published in 1964 and based on a wide range of printed and manuscript sources the author shows how the administrative structure was drastically rationalised and modernised The author is also interested both in the work the administration performed and the men who staffed it The Irish administration during the century came into contact with many different aspects of Irish society The Government and Politics of Ireland Basil Chubb, 2014-06-17 The third edition of Government and Politics in Ireland has been updated to take account of the political developments that have taken place in Ireland between 1981 and 1991 Amongst the topics covered are political parties pressure groups the government and the Dail and local government Public Administration and Public Policy in Ireland Maura Adshead, Michelle Millar, 2003-09-02 A comprehensive introduction to public policy and administration in Ireland It covers all the main theories and methods associated with public administration and public policy and illustrates these with a wide variety of case studies Managing the Euro Crisis Sabrina Ragone, 2017-11-22 The financial crisis posed new challenges for the administrations of Eurozone countries including how to respect EU obligations when the economy is under stress How to improve the overall implementation of EU policies and domestic reforms How to negotiate effectively with the Troika and then quickly and efficiently fulfil the requirements of the Memoranda of Understanding This volume offers the first analysis of EU coordination by national executives in the light of the legal and political consequences of the crisis using case studies of five severely affected Member States Cyprus Greece Ireland Italy and Portugal It examines from an interdisciplinary perspective how they have adapted their coordination systems since the outbreak of the crisis shedding light on the adjustments undertaken by domestic administrations The comparison reveals that in this process Prime Ministers and Ministers of Finance were empowered in a common shift towards the centralization of EU coordination *Ireland, 1912-1985* Joseph Lee, 1989 About the history of Ireland from 1912 to 1985 focusing on political social and revolutionary events **Multi-Level Regulation in the Telecommunications Sector** D. Aubin, K. Verhoest, 2016-04-30 Through a comparison of the telecommunications sectors in four small EU countries an outstanding cast of contributors explore how regulatory authorities at international EU national and regional level within and between sectors coordinate their regulatory decisions in order to provide coherent regulation of markets **Public Management in Times of Austerity** Eva Moll Sørensen, Hanne Foss Hansen, Mads Bøge Kristiansen, 2017-06-26 Since 2008 the world has experienced an enormous decrease of wealth By many measures the impact of the crisis was severe The fall in GDP the

collapse of world trade the rise in unemployment and the credit slump reached bigger proportions than in any other crisis since World War II Although the economic figures seem to improve in some countries the crisis continues being a challenging issue and is said to be one of the most important problems governments face today The crisis has put public finances under ever increasing pressure and governments have responded through austerity measures such as new fiscal rules and budgeting procedures and cutbacks of public spending Public Management in Times of Austerity seeks to explore the austerity policies adopted by European governments and their consequences to public management It asks how governments have implemented new rules leading to more stringency in public budgeting and financial management and how they have cut back public expenditure These questions are examined comparatively through case studies in different parts of Europe and variations across countries are discussed and explained Throughout the volume the consequences of the crisis and austerity policies for public management are discussed What is the relationship between crisis and decision making in the public sector and how does austerity affect public sector organisation As the previous crisis in the 1970s resulted in a major reform movement which was later referred to as New Public Management Public Management in Times of Austerity look to understand whether the current crisis also leads to a wave of public management reform and if so what is the content of this

Local Government in Liberal Democracies J. A. Chandler, 2013-01-11 The quality and nature of local government varies widely between countries This introductory text looks at the workings of local government in England and Wales Germany France Ireland Italy Sweden Canada and the USA The chapters have a similar format so the student has a framework for systematic comparisons of the different case studies and a comprehensive conclusion summarises major differences and relationships between the structures studied Europeanisation and new patterns of governance in Ireland Nicholas Rees, Bríd Quinn, Bernadette Connaughton, 2013-07-19 To what extent did Europeanisation contribute to Ireland's transformation from poor relation to peer idol This book examines how Europeanisation affected Irish policy making and implementation and how Ireland maximised the policy opportunities arising from membership of the EU while preserving embedded patterns of political behaviour It focuses on the complex interplay of European domestic and global factors as the explanation for the changing character of the Celtic Tiger The authors demonstrate that although Europeanisation spurred significant institutional and policy change domestic forces filtered those consequences while global factors induced further adaptation By identifying and assessing the adaptational pressures in a range of policy areas the book establishes that in tandem with the European dimension domestic features and global developments were key determinants of change and harbingers of new patterns of governance
