The Jew The Arab A History Of The Enemy Cultural Memory In The Present:

The Jew, the Arab Gil Anidjar, 2003 This book argues that in Christian Europe the question of the enemy has for millennia been structured by the historical relation of Europe to both Arab and Jew It provides a philosophical understanding of the background of the current conflict in the Middle East

The Jew, the Arab Gil Anidjar, 2022 Is there a concept of the enemy To what discursive sphere would it belong Or if there is no concept of the enemy what are the factors that could have prevented its articulation Following the reflections of Carl Schmitt and Jacques Derrida on the theologico political and reading canonical texts from the Western philosophical political and religious traditions the author seeks to account for the absence of a history of the enemy The question of the enemy emerges in this book as contingent on the way Europe has related to both Jew and Arab as concrete enemies Moreover the author provocatively argues that the Jew and the Arab constitute the condition of religion and politics Among the many strengths of the book is the timeliness of its profound study of contemporary actuality the volume provides a basis for a philosophical understanding of the forces at work that produced and kindled current conflicts in Europe the U S and the Middle East

The New Diaspora and the Global Prophetic Susanne Scholz, Santiago Slabodsky, 2021-05-06 For four decades Marc H Ellis has sought to rethink the Jewish tradition in light of the prophetic imperative especially with regard to the need for geopolitical justice in the context of Israel Palestine Here twenty two contributors offer intellectual theological political and journalistic insight into Ellis s work connecting his theological scholarship to the particularities of their own contexts Some contributors reflect specifically on Israel Palestine while others transfer Ellis s theopolitical discussions to other geopolitical cultural or religious concerns Yet all of them rely on Ellis s work to understand the connections of prophetic discourses religious demands social movements and projects of social justice Paying particular attention to global racism sexism ethnocentrism white supremacy and current neocolonial practices the contributors also address minoritized liberation theologies the role of memory exile and forgiveness biblical hermeneutics and political thought In diverse and powerful ways the contributors ground their scholarship with the activist drive to deepen enrich and strengthen intellectual work in meaningful ways

Jews, Liberalism, Antisemitism Abigail Green, Simon Levis Sullam, 2020-12-05 This is a timely contribution to some of the most pressing debates facing scholars of Jewish Studies today It forces us to re think standard approaches to both antisemitism and liberalism Its geographic scope offers a model for how scholars can provincialize Europe and engage in a transnational approach to Jewish history The book crackles with intellectual energy it is truly a pleasure to read Jessica M Marglin University of Southern California USA Green and Levis Sullam have assembled a collection of original and provocative essays that in illuminating the historic relationship between Jews and liberalism transform our understanding of liberalism itself Derek Penslar Harvard University USA This book offers a strikingly new account of Liberalism s relationship to Jews Previous scholarship stressed that Liberalism had to overcome its abivalence in order to achieve a principled stand on granting Jews rights and equality This volume asserts

through multiple examples that Liberalism excluded many groups including Jews so that the exclusion of Jews was indeed integral to Liberalism and constitutive for it This is an important volume with a challenging argument for the present moment David Sorkin Yale University USA The emancipatory promise of liberalism and its exclusionary qualities shaped the fate of Jews in many parts of the world during the age of empire Yet historians have mostly understood the relationship between Jews liberalism and antisemitism as a European story defined by the collapse of liberalism and the Holocaust This volume challenges that perspective by taking a global approach It takes account of recent historical work that explores issues of race discrimination and hybrid identities in colonial and postcolonial settings but which has done so without taking much account of Jews Individual essays explore how liberalism citizenship nationality gender religion race functioned differently in European Jewish heartlands in the Mediterranean peripheries of Spain and the Ottoman empire and in the North American Atlantic world

Reading the Abrahamic Faiths Emma Mason, 2014-12-18 Rethinking religion and literature in a series of chapters by leading international scholars Reading the Abrahamic Faiths opens up a dialogue between Jewish Christian Islamic and Post Secular literary cultures Literary studies has absorbed religion as another interdisciplinary mode of inquiry without always attending to its multifaceted potential to question ideologically neutral readings of culture belief emotion politics and inequality In response Reading the Abrahamic Faiths contributes to a reevaluation of the nexus between religion and literature that is socially affectively and materially determined in its sensitivity to the expression of belief Each section Judaism Christianity Islam and Post Secularism is introduced by a specialist in these respective areas to introduce the critical readings of the texts and discourses that follow

The Daily Lives of Muslims Nilüfer Göle, 2017-04-15 For many in the West Islam has become a byword for terrorism From 9 11 to the Paris attacks our headlines are dominated by images of violence and extremism Now as the Western world struggles to cope with the refugee crisis there is a growing obsession with the issue of Muslim integration Those Muslims who fail to assimilate are branded the enemy within with their communities said to provide a fertile breeding ground for jihadists Such narratives though fail to take into account the actual lives of most Muslims living in the West fixating instead on a minority of violent extremists In The Daily Lives of Muslims Nil fer G le provides an urgently needed corrective to this distorted image of Islam Engaging with Muslim communities in twenty one cities across Europe where controversies over integration have arisen from the banning of the veil in France to debates surrounding sharia law in the UK the book brings the voices of this neglected majority into the debate In doing so G le uncovers a sincere desire among many Muslims to participate in the public sphere a desire which is too often stifled by Western insecurity and attempts to suppress the outward signs of religious difference

Contesting Islam, Constructing Race and Sexuality Sunera Thobani, 2020-12-10 The current political standoffs of the War on Terror illustrate that the interaction within and between the so called Western and Middle Eastern civilizations is constantly in flux A recurring theme however is how Islam and Muslims signify the Enemy in the Western socio cultural imagination and have become the Other

against which the West identifies itself In a unique and insightful blend of critical race feminist and post colonial theory Sunera Thobani examines how Islam is foundational to the formation of Western identity at critical points in its history including the Crusades the Reconquista and the colonial period More specifically she explores how masculinity and femininity are formed at such pivotal junctures and what role feminism has played in the wars against radical Islam Exposing these symbiotic relationships Thobani explores how the return of religion is reworking the racial gender and sexual politics by which Western society defines itself and more specifically defines itself against Islam Contesting Islam Constructing Race and Sexuality unpacks conventional as well as unconventional orthodoxies to open up new spaces in how we think about sexual and racial identity in the West and the crucial role that Islam has had and continues to have in its development

From Something to Nothing Harry Fox, Daniel Maoz, Tirzah Meacham, 2019-05-24 Jewish mysticism approaches God as no thing or nothing reflecting Judaism's traditional identification of God as incorporeal Whereas technical philosophical language often employed to discuss Jewish mysticism has a tendency to ward off otherwise interested readers this study sufficiently breaks down the technical language of Jewish mysticism in its various expressions to allow a beginner to benefit from what may otherwise be indescribable and only approached by consideration of what is not rather than what is Integral to the title From Something to Nothing is the concept that God cannot be something because that would be restricting so God is simply no thing Ironically the conventional religious expression for the biblical notion of creation is something from nothing whereas the title of this volume is its precise opposite which may at first seem to be illogical creation in reverse However in a volume dedicated to various deliberations on magic and mysticism the ultimate reality may receive expression as nothingness that is no thingness no quality associated with things What adds to our difficulty today is that nothingness is inextricably linked with silence Is silence also an element or indication of an ultimate reality or its absence Or is it merely the reflection of nothing whatsoever This is at the heart of modern debates between atheists and believers Believers feel that even this silence speaks to this ultimate reality whereas atheists claim that if you cannot show it then you do not know it In other words believers are victims of their own wishful thinking From Something to Nothing memorializes Canadian mystic and scholar Zalman Schachter Shalomi's engaging in particular aspects that he addressed at some phase of his colourful and erudite life providing the reader with a broad spectrum of both phenomenological and intellectual topics

Rain of Ash Ari Joskowicz, 2023-03-14 A major new history of the genocide of Roma and Jews during World War II and their entangled quest for historical justice Jews and Roma died side by side in the Holocaust yet the world did not recognize their destruction equally In the years and decades following the war the Jewish experience of genocide increasingly occupied the attention of legal experts scholars educators curators and politicians while the genocide of Europe's Roma went largely ignored Rain of Ash is the untold story of how Roma turned to Jewish institutions funding sources and professional networks as they sought to gain recognition and compensation for their wartime suffering Ari Joskowicz vividly describes the

experiences of Hitler's forgotten victims and charts the evolving postwar relationship between Roma and Jews over the course of nearly a century. During the Nazi era, Jews and Roma shared little in common besides their simultaneous persecution. Yet the decades of entwined struggles for recognition have deepened Romani Jewish relations, which now center not only on commemorations of past genocides but also on contemporary debates about antiracism and Zionism. Unforgettably moving and sweeping in scope, *Rain of Ash* is a revelatory account of the unequal yet necessary entanglement of Jewish and Romani quests for historical justice and self-representation that challenges us to radically rethink the way we remember the Holocaust.

A Landscape of War Munira Khayyat, 2022-11-22

What worlds take root in war? In this book, anthropologist Munira Khayyat describes life along the southern border of Lebanon, where resistant ecologies thrive amid a terrain of perennial war. *A Landscape of War* takes us to frontline villages where armed invasions, indiscriminate bombings, and scattered land mines have become the environment where everyday life is waged. This book dwells with multispecies partnerships such as tobacco farming and goatherding that carry life through seasons of destruction. Neither green-tinged utopia nor total devastation, these ecologies make life possible in an insistently deadly region. Sourcing an anthropology of war from where it is lived, this book decolonizes distant theories of war and brings to light creative practices forged in the midst of ongoing devastation. In lyrical prose that resonates with imperiled conditions across the Global South, Khayyat paints a portrait of war as a place where life must go on.
