Nature & Science on the Pacific Coast ,1915 **Future and Fantastic Worlds** Sheldon Jaffery,1987-01-01 *Future and Fantastic Worlds* embodies an unusual approach to the field of bibliographic research including over 700 annotations of every DAW book published through mid 1987 with indexes by author artist and title providing a massive guide to modern SF writers and their works with much background data Interspersed throughout the book are numerous wry irreverent and amusing observations offered by the late and highly respected researcher in this extremely valuable genre tool *The Interrogation of Joan of Arc* Karen Sullivan,1999 The transcripts of Joan of Arc s trial

for heresy at Rouen in 1431 and the minutes of her interrogation have long been recognized as our best source of information about the Maid of Orleans. Historians generally view these legal texts as a precise account of Joan's words and by extension her beliefs. Focusing on the minutes recorded by clerics, however, Karen Sullivan challenges the accuracy of the transcript. In *The Interrogation of Joan of Arc*, she reads the record not as a perfect reflection of a historical personality's words but as a literary text resulting from the collaboration between Joan and her interrogators. Sullivan provides an illuminating and innovative account of Joan's trial and interrogation, placing them in historical, social, and religious context. In the fifteenth century, interrogation was a method of truth-gathering identified not with people like Joan who were uneducated but with clerics like those who tried her. When these clerics questioned Joan, they did so as scholastics educated at the University of Paris, as judges and assistants to judges, and as pastors trained in hearing confessions. *The Interrogation of Joan of Arc* traces Joan's conflicts with her interrogators not to differing political allegiances but to fundamental differences between clerical and lay cultures. Sullivan demonstrates that the figure depicted in the transcripts as Joan of Arc is a complex, multifaceted persona that results largely from these cultural differences. Discerning and innovative, this study suggests a powerful new interpretive model and redefines our sense of Joan and her time. **The Unexpected Shaw** Stanley

Weintraub, 1982. *Biografie over de Ierse schrijver 1856-1950*. Global Science Fiction Gary Westfahl, 2025-06-18. Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American, European, African, Arabic, Indian, Japanese, and Chinese science fiction, providing insights about how writers around the world have explored and reinvigorated the genre. Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S. Buckell, Lourenço Mutarelli, Stanisław Lem, Masande Ntshanga, Tawfiq Al Hakim, Anil Menon, and Cixin Liu. The contributing scholars examine how national experiences have shaped these narratives, which often differ strikingly from Anglo-American science fiction. An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to Anglophone readers. An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world. *Joan of Arc, A Saint for All Reasons* Dominique

Goy-Blanquet, 2017-03-02. The interaction of poetry and politics has shaped Joan into a transnational myth dedicated to the most contradictory causes. No other character has inspired a more impressive list of writers, but no other myth possesses the malleability required to serve rival camps. Whatever their distortions of fact for art's sake, these famed authors deployed an extensive knowledge of known records. The quality of the exchanges between the best creative and philosophical minds of preceding centuries, their capacity for reading a range of interests, literary judgment, critical shrewdness, all offer priceless models of investigation for our times. A close inquiry into the makings of the legendary heroine brings to light various false impressions still endorsed today by a number of noteworthy historians and literary critics. This collection of essays, updated

for the English language edition follows Joan of Arc in the Western consciousness throughout the chain of texts fictions comments from the time of her launching into celebrity by Jean Gerson and Christine de Pizan to the most recent stage and film versions D Goy Blanquet investigates the exchanges between England France and Germany down to Joan s nationalisation by Michelet Francoise Michaud Frejaville studies through little known seventeenth century versions a period of decline in the heroine s popularity with Jean Chapelain s much decried Pucelle at its lowest ebb Nadia Margolis picks up the thread from Michelet to explore the background of frenzied political quarrels and personal self identifications for possession of the nineteenth century heroine down to their ultimate appropriation that by the National Front Jacques Darras questions Peguy and the warmongers who used Joan as a firebrand against pacifists like Jean Jaures down to the singular fate of Anouilh s L Alouette and beyond them the nationalistic strains which continue to infect the French political scene An essay composed especially for this
