The Joy of Creating A Gentle Look L. M. Bailey, 2004 This book is a transcription of a 12 tape series entitled The Joy of Creating recorded in 1995 It was imperative that I remain faithful to the recording Therefore words word connotation subject matter and general principles of writing DO NOT APPLY I am the first to admit this is difficult reading especially if you are quick to be emotional and slow to be thoughtful It's not everyday that you are asked to listen through words In this book that is what's required The words were spoken from the subconscious true spirituality cannot separate it is a part of everything This book gives you a look at how being separate in consciousness does not separate you in spirit It seeks to jerk you around and disallow you to assume understanding It's senseless unless you're ready to be something more than what you presently are Its purpose is to bring to the surface the pain that is entrenched in the structural process of constant change You are not here to save the world You are here complete in your individuality to work with other complete individuals to complete another whole You don't have to wait until you die to know

Women of Invention Charlotte Montague,2018-06-05 Hypatia was a Greek mathematician astronomer and philosopher who invented the hydrometer in about 400 AD Described as a charismatic teacher she was seen as an evil symbol of the pagan science of learning and she was eventually murdered by Christian zealots For many women in years gone by the invention process was fraught with danger and difficulty Not only did they face the hardship and obstacles of inventing they also had to contend with the sexism and gender discrimination of a male world that believed women had nothing to contribute Scientific women came to the fore with momentous innovations which were impossible for men to ignore During World War Two Austrian actress Hedy Lamarr became a pioneer in wireless communications developing a Secret Communications System More recently 20 year old Ann Makosinski has invented the ingenious Hollow Flashlight which converts radiant body heat into electricity Meanwhile other women continued inventing in the domestic sphere with Miracle Mops long lasting lipsticks and magic knickers In every walk of twenty first century life women have been challenging

themselves and men to shape the way we live Some of the incredible innovators featured include Myra Juliet Farrell Sally Fox Rosalind Franklin Helen Murray Anna Pavlova Maria Telkes Giuliana Tesoro Halldis Aalvik Thune Ann Tsukamoto Margaret A Wilcox Ada Lovelace and many more The 150 remarkable women in this book show all too clearly that not only can invention no longer be described as a male dominated domain but that a woman's inspiration and ingenuity will probably be driving the life changing ideas of tomorrow's world
