The Kabbalah The Religious Philosophy Of The Hebrews:

The Kabbalah Adolphe Franck, 2014-06-02 This is a scholarly study of the origin and evolution of the Kabbalah Originally published in French in 1843 with a second French edition in 1889 this book traces the origins of the philosophical concepts of the Kabbalah to the ancient Zoroastrians Franck goes into fascinating detail about the doctrine of the Kabbalah as expressed in the Sepher Yetzirah and the Zohar He uses internal evidence to trace the origins of these texts many centuries prior to their first known publication in the thirteenth century C E Franck carefully compares the philosophy of the Kabbalah with Greek philosophy the Alexandrians Philo and the Gnostics and concludes that although there are similarities none of them can claim to be the source of the Kabbalah However he does find many more similarities with the ancient Zoroastrian beliefs By this process of elimination he comes to the conclusion that the doctrines of the Kabbalah had their origin during the Babylonian exile circa 500 B C E which was also the time when Zoroaster was active in the same geographical region This thesis is worth considering and potentially adds more weight to the already numerous contributions of Zoroastrianism to world culture

The Kabbalah Adolphe Franck, 1940 *The Kabbalah Or the Religious Philosophy of the Hebrews* Adolphe Franck, 2006-05-20 *The Kabbalah* Adolphe Franck, 2020-03-30 The Kabbalah s history and esoteric qualities are demystified and explained by Adolph Franck a philosopher and scholar of ancient Jewish texts With origins dating back thousands of years the Kabbalistic texts are a cornerstone of Judaist tradition They explain the relationship between God humanity the Earth and the very Creation itself For many centuries Kabbalist scholars employed the lore as a means of explaining difficult passages in the Hebrew Bible and other ancient texts However the Kabbalah itself evolved with time an important component of it is the Zohar a book whose origins are considered by scholars to be potentially as late as the 13th century AD Beginning in the Renaissance elements of the Zohar s doctrine were even adopted by Christian thinkers As Franck explains its influences can be felt in religions and philosophical belief systems elsewhere Frequent reinterpretations and complex philosophical discussions give the Kabbalah aspects of continuous history reflective of the changes in society such as the Renaissance The author devotes entire chapters to the Kabbalist views on the human soul the physically manifest world and the divine nature of God his analysis informed by a wide breadth of sources plus many years of personal researches and scholarship on Judaism

The Kabbalah; Or, the Religious Philosophy of the Hebrews, by Adolph Franck. Rev. and Enl. Translation by I. Sossnitz Adolphe Franck,1926 **Mystifying Kabbalah** Boaz

Huss,2020-09-10 Most scholars of Judaism take the term Jewish mysticism for granted and do not engage in a critical discussion of the essentialist perceptions that underlie it *Mystifying Kabbalah* studies the evolution of the concept of Jewish mysticism It examines the major developments in the academic study of Jewish mysticism and its impact on modern Kabbalistic movements in the contexts of Jewish nationalism and New Age spirituality Boaz Huss argues that Jewish mysticism is a modern discursive construct and that the identification of Kabbalah and Hasidism as forms of mysticism which appeared for the first time in the nineteenth century and has become prevalent since the early twentieth shaped the way in which Kabbalah and Hasidism are perceived and studied today The notion of Jewish mysticism was established when western scholars accepted the modern idea that mysticism is a universal religious phenomenon of a direct experience of a divine or transcendent reality and applied it to Kabbalah and Hasidism Jewish mysticism gradually became the defining category in the modern academic research of these topics This book clarifies the historical cultural and political contexts that led to the identification of Kabbalah and Hasidism as Jewish mysticism exposing the underlying ideological and theological presuppositions and revealing the impact of this mystification on contemporary forms of Kabbalah and Hasidism **The**

Kabbalah Adolphe Franck,1926 **The Secret Doctrine of the Jews** Boaz Huss,2025-10-01 A comprehensive exploration of the Jewish adherents of the Theosophical Society and their impact on modern Jewish culture and the development of modern forms of Kabbalah *The Secret Doctrine of the Jews* offers the first comprehensive study of Jewish followers of the Theosophical Society the highly influential global esoteric movement that was established in New York in 1875 The book presents a detailed examination of the major Jewish followers of the Theosophical Society and the formation of Jewish lodges

and associations within its framework It discusses the endeavors of Jewish theosophists to reconcile their Jewish identity with their theosophical convictions and to create new theosophical inspired interpretations of Kabbalah The book aims to underscore the role of Jewish theosophists within the Theosophical Society and explore their impact on modern Jewish culture particularly their influence on the development of modern perspectives and forms of Kabbalah The monograph makes significant contributions to research in several areas including the global history of the Theosophical Society modern Jewish religious movements and the development and dissemination of modern forms of Kabbalah during the twentieth century

Occult Roots of Religious Studies Yves Mühlematter, Helmut Zander, 2021-06-08 The historiographers of religious studies have written the history of this discipline primarily as a rationalization of ideological most prominently theological and phenomenological ideas first through the establishment of comparative philological and sociological methods and secondly through the demand for intentional neutrality This interpretation caused important roots in occult esoteric traditions to be repressed This process of purification Latour is not to be equated with the origin of the academic studies De facto the elimination of idealistic theories took time and only happened later One example concerning the early entanglement is Tibetology where many researchers and respected chair holders were influenced by theosophical ideas or were even members of the Theosophical Society Similarly the emergence of comparatistics cannot be understood without taking into account perennialist ideas of esoteric provenance which hold that all religions have a common origin In this perspective it is not only the history of religious studies which must be revisited but also the partial shaping of religious studies by these traditions insofar as it saw itself as a counter model to occult ideas
