The whole book every page is in crisp full color with clear concise plain English descriptions that let you start using Mac OS X today immediately without having to learn the whole operating system first. It's like having a friend nearby with all the answers when you get stuck and wonder how to do that in Mac OS X just turn to that task and there it is the left page shows the old way the right page shows the new way. If you want to start using Mac OS X today if you want to unlock its power stability features and fun today this is the book that will do it. There are no in-depth explanations about networking no UNIX commands or how to hack the system and no detailed descriptions of how it all works and why. In short it's not a tell me all about it book it's a here's how to do it book and that's why it works so amazingly well. Plus if you look up how to do a particular task and Mac OS X offers new features new shortcuts or new options that weren't available in Mac OS 8.9 and there are plenty in Panther Scott includes those too using the same right to the point conversational writing style that made his Mac OS X Killer Tips book a smash bestseller.
