Light as Experience and Imagination from Medieval to Modern Times David S.

Herrstrom,2022-11-21 In *Light as Experience and Imagination from Medieval to Modern Times* David S Herrstrom synthesizes and interprets the experience of light as revealed in a wide range of art and literature from medieval to modern times The true subject of the book is making sense of the individual's relationship with light rather than the investigation of light's essential nature while telling the story of light seducing individuals from the Middle Ages to our modern times Consequently it is not concerned with the progress of scientific inquiries into the physical properties and behavior of light optical science but rather with subjective reactions as reflected in art architecture and literature Instead of its evolution this book celebrates the complexity of our relation to light's character No individual experience of light being truer than any other

The Accidental Masterpiece Michael Kimmelman,2006-07-25 A New York Times bestseller a dazzling and inspirational survey of how art can be found and appreciated in everyday life Michael Kimmelman the prominent New York Times writer and a regular contributor to The New York Review of Books is known as a deep and graceful writer across the disciplines of art and music and also as a pianist who understands something about the artist's sensibility from the inside Readers have come to expect him not only to fill in their knowledge about art but also to inspire them to think about connections between art and the larger world which is to say to think more like an artist Kimmelman's many years of contemplating and writing about art have brought him to this wise wide ranging and long awaited book It explores art as life's great passion revealing what we can learn of life through pictures and sculptures and the people who make them It assures us that art points of contact with the exceptional that are linked straight to the heart can be found almost anywhere and everywhere if only our eyes are opened enough to recognize it Kimmelman regards art like all serious human endeavors as a passage through which a larger view of life may come more clearly into focus His book is a kind of adventure or journey It carries the message that many of us may not yet have learned how to recognize the art in our own lives To do so is something of an art itself A few of the characters Kimmelman describes like Bonnard and Chardin are great artists But others are explorers and obscure obsessives paint by numbers enthusiasts amateur shutterbugs and collectors of strange odds and ends Yet others like Charlotte Solomon a girl whom no one considered much of an artist but who secretly created a masterpiece about the world before her death in Auschwitz have reserved spots for themselves in history or not with a single work that encapsulates a whole life Kimmelman reminds us of the Wunderkammer the cabinet of wonders the rage in seventeenth century Europe and a metaphor for the art of life Each drawer of the cabinet promises something curious and exotic instructive and beautiful the cabinet being a kind of ideal self contained universe that makes order out of the chaos of the world The Accidental Masterpiece is a kind of literary Wunderkammer filled with lively surprises and philosophical musings It will inspire readers to imagine their own personal cabinet of wonders

Monochrome Craig Staff,2015-09-17 The monochrome a single colour of paint applied over the entirety of a canvas remains one of the more contentious modernist artistic inventions But whilst the manufacture of these pictures of nothing was ostensibly straightforward their subsequent

theorisation has been anything but More than a history Monochrome Darkness and Light in Contemporary Art is the first account of the monochrome s lively role in contemporary art Liberated from the burden of representation the monochrome first stood for emancipation an ideological and artistic impulse that characterised the avant garde of the early twentieth century Historically the monochrome embodied the most extreme form of abstraction and pure materiality Yet more recently adaptations of the art form have focused on a broader range of cultural and interpretive contexts Provocative innovative and timely this book argues that the latest artistic strategies go beyond stylistic concerns and instead seek to re engage with ideas around authorship process and the conditions of the visible as they are given and understood through both light and darkness Discussing works by artists such as Katie Paterson Hiroshi Sugimoto Tom Friedman Bruno Jakob Sherrie Levine and Ceal Floyer the book shows that the debates around an artwork s form and its possibility for meaning that the monochrome first engendered remain very much alive in contemporary visual culture

Aesthetics of the Margins / The Margins of Aesthetics David Carrier, Joachim Pissarro, 2020-04-17 Wild Art refers to work that exists outside the established rarified world of art galleries and cultural channels It encompasses uncatalogued uncommodified art not often recognized as such from graffiti to performance self adornment and beyond Picking up from their breakthrough book on the subject Wild Art David Carrier and Joachim Pissarro here delve into the ideas driving these forms of art inquire how it came to be marginalized and advocate for a definition of taste one in which each expression is acknowledged as being different while deserving equal merit Arguing that both the art world and wild art have the same capacity to produce aesthetic joy Carrier and Pissarro contend that watching skateboarders perform Christ Air for example produces the same sublime experience in one audience that another enjoys while taking in a ballet therefore both mediums deserve careful reconsideration In making their case the two provide a history of the institutionalization of taste in Western thought point to missed opportunities for its democratization in the past and demonstrate how the recognition and acceptance of wild art in the present will radically transform our understanding of contemporary visual art in the future Provocative and optimistic Aesthetics of the Margins The Margins of Aesthetics rejects the concept of kitsch and the high low art binary ultimately challenging the art world to become a larger and more inclusive place

The Retrieval of the Beautiful Galen A. Johnson, 2010 In this elegant new study Galen Johnson retrieves the concept of the beautiful through the framework of Merleau Ponty's aesthetics Although Merleau Ponty seldom spoke directly of beauty his philosophy is essentially about the beautiful In Johnson's formulation the ontology of Flesh as element and the ontology of the Beautiful as elemental are folded together for Desire Love and Beauty are part of the fabric of the world's element Flesh itself the term at which Merleau Ponty arrived to replace Substance Matter or Life as the name of Being Merleau Ponty's Eye and Mind is at the core of the book so Johnson engages as Merleau Ponty did the writings and visual work of Paul Cézanne Auguste Rodin and Paul Klee as well as Rilke's commentary on Cézanne and Rodin From these widely varying aesthetics emerge the fundamental themes of the retrieval of the beautiful desire repetition difference rhythm and the sublime The third part of Johnson's book takes each of these up in turn bringing Merleau Ponty's aesthetic thinking into dialogue with classical philosophy as well as Sartre Heidegger Nietzsche and Deleuze Johnson concludes his final chapter with a direct dialogue with Kant and Merleau Ponty and also Lyotard on the subject of the beautiful and the sublime As we experience with Rodin's Balzac beauty and the sublime blend into one another when the beautiful grows powerful majestic mysterious and transcendent

Utopia and Dissent in West Germany Mia Lee, 2019-01-22 Just as Chancellor Konrad Adenauer was seeking re election on a campaign of no experiments art avant garde groups in West Germany were reviving the utopian impulse to unite art and society Utopia and Dissent in West Germany examines these groups and their legacy Postwar artists built international as well as intergenerational networks such as Fluxus which was active in D sseldorf Wiesbaden and Cologne and the Situationist International based in Paris These groups were committed to undoing the compartmentalization of everyday life and the isolation of the artist in society And as artists recast politics to address culture and everyday life they helped forge a path for the West German extraparliamentary left Utopia and Dissent in West Germany traces these connections and presents a chronological map of the networks that fed into the extraparliamentary left as well as a geographical map of increasing radicalism as the locus of action shifted to West Berlin These two maps show that in West Germany artists and their interventions in the structures of everyday life were a key starting point for challenging the postwar order

The Making of a Caribbean Avant-Garde Therese Kaspersen Hadchity, 2020-08-15 Focusing on the Anglophone Caribbean The Making of a Caribbean Avant Garde describes the rise and gradual consolidation of the visual arts avant garde which came to local and international attention in the 1990s The book is centered on the critical and aesthetic strategies employed by this avant garde to repudiate the previous generation s commitment to modernism and anti colonialism In three sections it highlights the many converging factors which have pushed this avant garde to the forefront of the region s contemporary scene and places it all in the context of growing dissatisfaction with the post colonial state and its cultural policies This generational transition has manifested itself not only in a departure from traditional in favor of new media i e installation performance and video rather than painting and sculpture but also in the advancement of a postnationalist postmodernism which reaches for diasporic and cosmopolitan frames of reference Section one outlines the features of a preceding Creole modernism and explains the different guises of

postnationalism in the region's contemporary art. In section two its PKM1 momentum is connected to the proliferation of independent art spaces and transnational networks which connect artists across and beyond the region and open up possibilities unavailable to earlier generations. Section three demonstrates the impact of this conceptual and organizational evolution on the selection and exhibition of Caribbean art in the metropole. PKM1 AU clarifies the contemporary art scene.

Spoiled Distinctions Hannah Freed-Thall, 2015. *Spoiled Distinctions* charts twentieth-century experiments in the aesthetics of the ordinary, arguing that Proust and his literary and philosophical successors Francis Ponge, Nathalie Sarraute, Yasmina Reza, Pierre Bourdieu, and Roland Barthes, among others, multiply strategies for reading and valuing the everyday.

From Head to Hand David Levi Strauss, 2010-02-11. In his third book, Strauss delves into the mysterious process whereby an idea is born in the mind and materialized through the hand in the expression of an artwork. How exactly does this happen? It's a question so basic, an act so fundamental to art making that it has rarely received attention. It makes an ideal topic for Strauss, a writer with an exceptional ability to animate art's philosophical dimensions in a clear, persuasive manner. During this time when craft and the direct manipulation of materials by the artist appear to be in eclipse, Strauss comes to their defense in a spirited *cri de coeur*. Featuring over 35 illustrations, the book examines a wide variety of media and individual examples. It explores the works of sculptors Martin Puryear, Ursula von Rydingsvard, and Donald Lipski; painters Leon Golub and Ron Gorchov; and writers Robert Duncan, Robert Kelly, Guy Davenport, John Berger, and Leo Steinberg. In addition, there are essays on Joseph Beuys's 7000 Oaks in Ireland, contemporary Haida carvers Reg Davidson and Jim Hart, Cecilia Vicuña's memory of the fingers, and the influence of curators Harald Szeemann and Walter Hopps on the staging of contemporary art exhibitions. Known primarily for his writings on photography and politics, Strauss here focuses on the least mediated arts: painting, sculpture, and writing. His claims are supported by a series of close readings which succeed in recovering the immediacy of the hand and revitalizing contemporary art's connection to the past.

Animated Landscapes Chris Pallant, 2017-02-23. The first comprehensive study of animated landscapes across media. *Robert Ryman* Suzanne P. Hudson, 2024-02-06. This first book-length study of Robert Ryman argues that his work is a continuous experiment in the possibilities of painting. In this first book-length study of Robert Ryman, Suzanne Hudson traces the artist's production from his first paintings in the early 1950s, many of which have never been exhibited or reproduced, to his recent gallery shows. Ryman's largely white-on-white paintings represent his careful working over of painting's conventions at their most radically reduced. Through close readings of the work, Hudson casts Ryman as a painter for whom painting was conducted as a continuous personal investigation. Ryman's method, an act of learning by doing, as well as his conception of painting as used paint, sets him apart from second-generation abstract expressionists, minimalists, or conceptualists. Ryman, born in 1930, is a self-taught artist who began to paint in earnest while working as a guard at the Museum of Modern Art in New York in the 1950s. Hudson argues that Ryman's approach to painting developed from quotidian contact with the story of modern painting.

as assembled by MoMA director and curator Alfred Barr and rendered widely accessible by director of the education department Victor D Amico and colleagues Ryman's introduction to artistic practice within the white walls of MoMA Hudson contends was shaped by an institutional ethos of experiential learning Others who worked at the MoMA during these years include Lucy Lippard who married Ryman in 1961 Dan Flavin another guard and Sol LeWitt a desk assistant Hudson's chapters Primer Paint Support Edge and Wall named after the most basic elements of the artist's work eloquently explore Ryman's ongoing experiment in what makes a painting a painting Ryman's work she writes tests the medium's material and conceptual possibilities It signals neither the end of painting nor guarantees its continued longevity but keeps the prospect of painting an open question answerable only through the production of new paintings Nothing Matters Ronald Green, 2011-08-26 Is nothing everything As strange as that question looks at first sight it will definitely make sense after reading NOTHING MATTERS Provocative and accessible free of jargon NOTHING MATTERS shows that there is more to nothing than meets the eye History the arts philosophy politics religion cosmology all are touched by nothing Who for example could have believed that nothing held back progress for 600 years all because of mistaken translation or that nothing is a way to tackle and answer the perennial question what is art
