

Plant Magic!

Plant Propagating Activity

What is 'Propagation'?

Propagation is the process of creating new plants out of existing plants, just like magic! You can take part of an existing plant, like its stem or leaves for example and use them to grow an entirely new plant.

How to Propagate

Different plant varieties may be propagated in different ways, most commonly propagation is done by cutting away part of the stem and placing it in water until it grows its own roots and can be planted in soil.

Other ways to propagate are by splitting plants at the roots, or waiting until they grow 'pups'. Pups are smaller offshoots that some plants make naturally, that can be separated and grown into their own plants!

Some of the easiest plants to propagate are:

Peperomia
Tradescantia
Umbrella Plant
African Violets
Pothos
Philodendron

1

Firstly, select your plant and find a part of the stem, leaf or a leafy branch and insert it into a glass of water. It may take a couple of days for the roots to start growing, but you should see some growth.

2

Once you've selected the part of your plant, you need to propagate it. Cut the stem or leafy branch and place it in the water.

3

Now place your cutting in a glass of water and leave it in the water for a few days.

4

Once you've waited for a few days, you should see some growth. If you see some growth, you can plant it in soil.

5

Now you can see your plant has grown its own roots and can be planted in soil.

The Magic Plant:

The Magic Plant Book Jack Kramer, 1978 The Magic Plant Carl Henry Grabo, 1936 This biography describes Shelley's life in thought. It dispels the popular conception of him as a vague dreamer and reveals a radical thinker passionately concerned with practical questions of politics, social abuses, and the underlying questions of good and evil, free will, and determinism. The Shelley so revealed is a poet of greater range, insight, and power than has hitherto been acknowledged. Originally published in 1936. A UNC Press Enduring Edition. UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print.
