**Tarot** Alex Sanderson, 2023-01-13 Have you always been fascinated by the esoteric and mysterious world of the Tarot? Would you like to delve deeper and learn more about the divinatory art and how to use it to your advantage to catch signs about our future in advance? There are so many psychic people, so many fortune tellers, and a variety of astrologers who try to grasp the future ahead of us using different tools. Are they really all charlatans, or is there some truth to it? In parascientific parlance, the ability to be able to read the future is not an innate gift only of vati soothsayers and clairvoyants, but a power that can be assimilated with the awareness of one's intuitive qualities. You have undoubtedly happened to think you had a sixth sense about something that then occurred soon after. Your presumption that you got it right has always actually implied a genuine free expression of precognition. Don't be influenced by what others think. Give yourself a chance to understand if you perceive something. Beginning with the historical origins of tarot, how it developed, and what task and meaning it takes on today, this book will offer you a complete step-by-step, full-color Guide to interpreting what lies behind each card, from the iconography and allegory of the Major Arcana to the numerology and
