**Americans** Gertrude Stein, 1926 **The Making of Americans** Gertrude Stein, 2017-09-26 In *The Making of Americans* Gertrude Stein sets out to tell a history of a family s progress radically reworking the traditional family saga novel to encompass her vision of personality and psychological relationships As the history progresses over three generations Stein also meditates on her own writing on the making of *The Making of Americans* and on America *The Making of Americans* Gertrude Stein, 1966 [The Making of Americans](#) Gertrude Stein, 1925 **Gertrude Stein and the Making of Jewish**

**Modernism** Amy Feinstein, 2022-06-28 Challenging the assumption that modernist writer Gertrude Stein seldom integrated her Jewish identity and heritage into her work this book uncovers Stein s constant and varied writing about Jewish topics throughout her career Amy Feinstein argues that Judaism was central to Stein s ideas about modernity showing how Stein connects the modernist era to the Jewish experience Combing through Stein s scholastic writings drafting notebooks and literary works Feinstein analyzes references to Judaism that have puzzled scholars She reveals the never before discussed influence of Matthew Arnold as well as a hidden Jewish framework in Stein s epic novel *The Making of Americans* In Stein s experimental voices poems Feinstein identifies an explicitly Jewish vocabulary that expresses themes of marriage nationalism and Zionism She also shows how *Wars I Have Seen* written in Vichy France during World War II compares the experience of wartime occupation with the historic persecution of Jews Affirming the importance of Jewish identity and modernist style to Gertrude Stein s legacy as a writer this book radically changes the way we read and appreciate Stein s work **The**

**Slips of the Mind** Jennifer Soong, 2025-04-07 An audacious account of what happens when forgetting becomes a way of writing and writing becomes a way of forgetting In *Slips of the Mind* poet and critic Jennifer Soong turns away from forgetting's long standing associations with suppression privation and error to argue that the absence or failure of memory has often functioned as a generative creative principle Exploring forgetting not as the mere rejection of a literary past or a form of negative poetics Soong puts to the test its very aesthetic meaning What new structures forms of desires styles and long and short feelings do lapses in time allow What is oblivion's relationship to composition And how does the twentieth century poet come to figure as the quintessential embodiment of such questions Soong uncovers forgetting's influence on Gertrude Stein Lyn Hejinian Tan Lin Harryette Mullen Lissa Wolsak and New York School poets John Ashbery James Schuyler Bernadette Mayer and Ted Berrigan among others She reveals that forgetting's shapeshifting produces differences in poetic genre interest and degrees of intentionality and that such malleability is part of forgetting's nature Most provocatively Soong shows how losing track of things leaving them behind or finding them already gone resists overdetermination and causality in the name of surprise as poets leverage forgetting in order to replace identity with style *Slips of the Mind* is the kind of literary criticism that will reward all readers of modern and contemporary poetry *The Letters of Gertrude Stein and Carl Van Vechten, 1913-1946* Gertrude Stein, Carl Van Vechten, 2013 This monumental collection of correspondence between Gertrude Stein and critic novelist and photographer Carl Van Vechten provides crucial insight into Stein's life art and artistic milieu as well as Van Vechten's support of major cultural projects such as the Harlem Renaissance From their first meeting in 1913 Stein and Van Vechten formed a unique and powerful relationship and Van Vechten worked vigorously to publish and promote Stein's work Existing biographies of Stein including her own autobiographical writings omit a great deal about her experiences and thought They lack the ordinary detail of what Stein called daily everyday living the immediate concerns objects people and places that were the grist for her writing These letters not only vividly represent those details but also showcase Stein and Van Vechten's private selves as writers Edward Burns's extensive annotations include detailed cross referencing of source materials

**Women in Search of Literary Space** Gudrun Grabher, Maureen Devine, 1992

**The Work of Difference** Audrey Wasser, 2016-03-01 *The Work of Difference* addresses a fundamental ontological question What is literature And at the heart of this question it argues is the problem of the new How is it that new works or new forms are possible within the rule governed orders of history language use or the social How are new works in turn recognizable to already existing institutions Tracing the relationship between literature and the problem of newness back to a set of concerns

first articulated in early German romanticism this book goes on to mount a critique of romantic tendencies in contemporary criticism in order ultimately to develop an original theory of literary production Along the way it offers new readings of major modernist novels by Samuel Beckett Marcel Proust and Gertrude Stein *Nobody's Business* Brian M. Reed,2013-07-12 Since the turn of the new millennium English language verse has entered a new historical phase but explanations vary as to what has actually happened and why What might constitute a viable avant garde poetics in the aftermath of such momentous developments as 9 11 globalization and the financial crisis Much of this discussion has taken place in ephemeral venues such as blogs e zines public lectures and conferences Nobody s Business is the first book to treat the emergence of Flarf and Conceptual Poetry in a serious way In his engaging account Brian M Reed argues that these movements must be understood in relation to the proliferation of digital communications technologies and their integration into the corporate workplace Writers such as Andrea Brady Craig Dworkin Kenneth Goldsmith Danny Snelson and Rachel Zolf specifically target for criticism the institutions skill sets and values that make possible the smooth functioning of a postindustrial globalized economy Authorship comes in for particular scrutiny how does writing a poem differ in any meaningful way from other forms of content providing While often adept at using new technologies these writers nonetheless choose to explore anachronism ineptitude and error as aesthetic and political strategies The results can appear derivative tedious or vulgar they can also be stirring compelling and even sublime As Reed sees it this new generation of writers is carrying on the Duchampian practice of generating antiart that both challenges prevalent definitions of art and calls into question the legitimacy of the institutions that define it *Literature, Literary History, and Cultural Memory* Herbert Grabes,2005 *Modernism's Other Work* Lisa Siraganian,2015 *Modernism's Other Work* challenges our view of relationships between aesthetic autonomy and the world of daily life a conjuncture that Lisa Siraganian demonstrates has often been misunderstood in critical studies of modernism Connecting poetry to the visual arts and politics the author provides new ways to think about modernist art s relationship

**The Novel, Volume 2** Franco Moretti,2022-04-12 Nearly as global in its ambition and sweep as its subject Franco Moretti s *The Novel* is a watershed event in the understanding of the first truly planetary literary form A translated selection from the epic five volume Italian *Il Romanzo* 2001 2003 *The Novel* s two volumes are a unified multiauthored reference work containing more than one hundred specially commissioned essays by leading contemporary critics from around the world Providing the first international comparative reassessment of the novel these essential volumes reveal the form in unprecedented depth and breadth as a great cultural social and human phenomenon that stretches from the ancient Greeks to today where modernity itself is unimaginable without the genre By viewing the novel as much more than an aesthetic form this landmark collection demonstrates how the genre has transformed human emotions and behavior and the very perception of reality Historical statistical and formal analyses show the novel as a complex literary system in which new forms proliferate in every period and place Volume 2 *Forms and Themes* views the novel primarily from the inside examining its

many formal arrangements and recurrent thematic manifestations and looking at the plurality of the genre and its lineages These books will be essential reading for all students and scholars of literature      **Primary Stein** Janet Boyd, Sharon J.
