The Eclipse of the Western Religious Tradition

JAMES A. HERRICK

Roland Faber

The Making of the New Spirituality James A. Herrick, 2004-12-02 James A Herrick offers an intellectual history of the New Religious Synthesis examining the challenges it poses to Judeo Christian tradition demonstrating its sources and manifestations in contemporary culture and questioning its acceptance in church and society Invoking the Beyond: Paul D. Collins, Phillip D. Collins, 2020-11-22 The Gnostic revival of the Enlightenment witnessed the erection of what could be called the Kantian Rift an epistemological barrier between external reality and the mind of the percipient Arbitrarily proclaimed by German philosopher Immanuel Kant this barrier rendered the world as a terra incognita Suddenly the world out there was deemed imperceptible and unknowable In addition to the outer world the cherished metaphysical certainties of antiquity the soul a transcendent order and God swiftly evaporated The way was paved for a new set of modern mythmakers who would populate the world out there with their own surrogates for the Divine Collectively these surrogates could be referred to as the Beyond because they epistemologically and ontologically overwhelm humanity In recent years the Beyond has been invoked by theoreticians literary figures intelligence circles and deep state operatives who share some variant of a technocratic vision for the world In turn these mythmakers have either directly or indirectly served elitist interests that have been working toward the establishment of a global government and the creation of a New Man Their hegemony has been legitimized through the invocation of a wrathful earth goddess a technological Singularity a superweapon and extraterrestrial gods All of these are merely masks for the same counterfeit divinity the Beyond **Teaching Religion and Violence** Brian K. Pennington, 2012-04-27 Teaching Religion and Violence is designed to help instructors to equip students to think critically about religious violence particularly in the multicultural classroom **Religions of Modernity** Stef Aupers, Dick Houtman, 2010 Religions of Modernity challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book s chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The editors argue in the introductory chapter that the classical theoretical accounts of modernity by Max Weber Emile Durkheim and others already hinted at the future emergence of these religions of modernity Spirit Roland Faber, 2021-03-04 Are we more than stardust Is the appearance of the fragile Earth in the vast universe more than an accident Are we not children of a Spirit that pervades the dust rejuvenates life and embraces the ever evolving universe Is there a cosmic Spirit that wants us to awaken to a consciousness of universal meaning sacred purpose and mutual friendship with all beings This book answers these questions with a spirituality of the numinous in our relation to the elements of the Earth in the matrix of the multiverse by taking you on a journey through nine paths and nineteen meditations

of awakening Not bound by any religion but in deep appreciation of the religious and spiritual heritage of human encounters with the divine depth of existence in our selves and in nature they invite you to become sojourners by engaging the most profound embodiments of the intangible Spirit by which it facilitates its own materialization in the cosmos and our spiritualization of the cosmos Use says this Spirit the stardust that you are to become a spirit faring species in an eternal journey of the cosmos to realize its ultimate motive of existence the attraction of love Poverty, Money, and Ecology as Pillars of Pope Francis' Pontificate (2013-2019) Pablo Alberto Baisotti, 2021-11 This book analyzes the Vatican policies of Francis during the first seven years of his pontificate in relation to some of the most urgent questions concerning humanity migrants and refugees the economy and ecology **The Ocean of God** Roland Faber, 2019-06-29 The Ocean of God conveys the proposition that the future of religions if they will not want to contribute to the destruction of humanity will become transreligious Based on the assumption that the spiritual impulse of humanity cannot simply be eradicated religiosity will persist in transreligious forms as secularizations naturalizations and transhumanist dreams only envision such transformations but fall short in their ability to replace the force of spirituality to further civilized peace of human existence on Earth and its future in evolutionary ecological and cosmological dimensions In relating the contributions of religious pluralism to the concept of the unity of religions which have arisen in this new axial age for overcoming the checkered history of religions in furthering peace the program of a polyphilic pluralism with its transreligious discourse based on the insight of the fundamental relativity of religious truth and the special contributions of process philosophy and theology as well as the Bah universe of thought analyses and projects a new religiosity or spirit enabling religions to overcome their deepest motives of strife and warfare The New Spirituality Gordon Lynch, 2007-04-27 Much attention has been given in recent writings about religion to fundamentalism and the religious right But less attention has been given to their opposite the emergence of a new generation of progressive religious thinkers and organisations on the religious left The New Spirituality is one of the first books to give a comprehensive and authoritative account of this burgeoning progressive religious movement It offers a clear and engaging analysis of the cultural roots key ideas and organisational structures of this new faith assessing its significance in the changing moral and religious landscape of contemporary western society Gordon Lynch argues that we are witnessing the rise of a new religious ideology which reveres the natural world connects religious faith with novel scientific theories and has a forward looking agenda for society s transformation The New Spirituality will be essential reading for students attempting to understand the shape of religious belief in the twenty first century in Religion, Spirituality & Aging James W. Ellor, 2013-10-18 Since the 1971 White House Conference on Aging in the United States the need to move from religiosity into new areas such as Spiritual Assessment and Spirituality has emerged This movement has picked up momentum among scholars particularly in terms of research in the area of Spirituality While spirituality as a term is employed in many new studies this term continues to defy the quest for a single definition and

method This book is divided into three sections In the first the authors reflect on the philosophical and theological issues presented by these terms from a variety of both cognate and practical methodological approaches The second section offers insights from the major professions of sociology psychology public health nursing and social work The final section offers insight and assistance to researchers and authors on specific religious traditions. This book will be important for anyone working to develop such practical tools as spiritual assessment forms to those who engage in more formal scholarly *Apologetics in Africa* Kevin Muriithi Ndereba,2024-02-01 Divided into four major sections this textbook provides an in depth exploration of the biblical philosophical cultural and practical concerns facing African Christians as they proclaim and defend the gospel in Africa Written by a diverse group of pastors and scholars it provides a much needed interdisciplinary and contextualized approach to apologetics It also seeks to bridge the gap between academic research and ministry practice touching on such topics as hermeneutics biblical criticism church history the nature of evil religious inclusivism Muslim Christian engagement eldership rites domestic violence cults and the digital age Biblically robust contextually relevant ministry oriented and accessible this is a remarkable resource for enriching the life and ministry of Christians in Africa and beyond Dreams, Healing, and Medicine in Greece Steven M. Oberhelman, 2016-05-13 This volume centers on dreams in Greek medicine from the fifth century B C E Hippocratic Regimen down to the modern era Medicine is here defined in a wider sense than just formal medical praxis and includes non formal medical healing methods such as folk pharmacopeia religion magical methods e g amulets exorcisms and spells and home remedies This volume examines how in Greek culture dreams have played an integral part in formal and non formal means of healing The papers are organized into three major diachronic periods The first group focuses on the classical Greek through late Roman Greek periods Topics include dreams in the Hippocratic corpus the cult of the god Asclepius and its healing centers with their incubation and miracle dream cures dreams in the writings of Galen and other medical writers of the Roman Empire and medical dreams in popular oneirocritic texts especially the second century C E dreambook by Artemidorus of Daldis the most noted professional dream interpreter of antiquity The second group of papers looks to the Christian Byzantine era when dream incubation and dream healings were practised at churches and shrines carried out by living and dead saints Also discussed are dreams as a medical tool used by physicians in their hospital praxis and in the practical medical texts iatrosophia that they and laypeople consulted for the healing of disease The final papers deal with dreams and healing in Greece from the Turkish period of Greece down to the current day in the Greek islands The concluding chapter brings the book a full circle by discussing how modern psychotherapists and psychologists use Ascelpian dream rituals on pilgrimages The Other Worldview Peter Jones, 2015-06-24 A must read for every concerned American and especially for to Greece every Christian who weeps at the graveside of his culture R C Sproul A cataclysmic change has occurred as our culture has shifted toward belief in Oneism Every religion and philosophy fits into one of two basic worldviews Oneism asserts that

everything is essentially one while Twoism affirms an irreducible distinction between creation and Creator The Other Worldview exposes the pagan roots of Oneism traces its spread throughout Western culture and demonstrates its inability to save For bodily holiness and transformed thinking we depend entirely on one amazing thing the incredibly powerful message of the Gospel to a sinful world which is the ultimate expression and goal of Twoism The only hope is in Christ alone

Theosis Michael Paul Gama, 2017-02-20 Evangelicalism is reaching an inflection point The exodus of millennials from Evangelical churches and the growth of those self identifying as Nones as in None of the Above for their church affiliation is concerning for the movement s future Evangelical leaders offer mixed responses to this challenge from circling the wagons to an enthusiastic Everything must change posture Theosis takes a different approach Seeking to understand Evangelicalism and its origins this book suggests that Evangelicalism is best understood as the sibling of western Enlightenment Modernity which served it well until the modern cultural ethos began to shift dramatically toward post modernity In this shift young Evangelicals principally postmoderns themselves are abandoning their father s Evangelicalism and its perceived linearity hyper rationalism either or exclusivity and faith expression too often perceived as stripped of mystery and wonder Theosis proposes that to move forward Evangelicalism must go back to the future to re engage with the patristic understanding of salvation as theosis deification or union with God This radical return and broadening of the doctrine of salvation has begun to gain traction in Western Christendom slowly being considered as it has always in the Christian East as mere Christianity

Pagan Family Values S. Zohreh Kermani, 2013-07-29 An intriguing important and often entertaining look at an under studied aspect of new religions Highly recommended Douglas E Cowan author of Cyberhenge Modern Pagans on the Internet For most of its history contemporary Paganism has been a religion of converts Yet as it enters its fifth decade it is incorporating growing numbers of second generation Pagans for whom Paganism is a family tradition not a religious worldview arrived at via a spiritual quest In Pagan Family Values S Zohreh Kermaniexplores the ways in which North American Pagan families pass on their beliefs to their children and how the effort to socialize children influences this new religious movement The first ethnographic study of the everyday lives of contemporary Pagan families this volume brings their experiences into conversation with contemporary issues in American religion Through formal interviews with Pagan families participant observation at various pagan events and data collected via online surveys Kermani traces the ways in which Pagan parents transmit their religious values to their children Rather than seeking to pass along specific religious beliefs Pagan parents tend to seek to instill values such as religious tolerance and spiritual independence which will remain with their children throughout their lives regardless of these children's ultimate religious identifications S Zohreh Kermani teaches Religious Studies part time at Youngstown State University In the New and Alternative Religions series The World's Religions Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form It explores the religions of the world not

only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements **Echoes of a Voice** James W. Sire, 2014-04-21 Early evening a young boy alone on his pony on the rim in every continent of the Nebraska Sandhills Three darkening thunderclouds rising higher and higher on the horizon An electric atmosphere a quickening light cooling breeze A slight shiver and the boy wonders Am I being pursued by the Father the Son and the Holy Ghost These sudden unbidden unexpected strange experiences We all have them What are they Mere plucking on the emotional strings of our material selves Or do they have a deeper meaning Do they signal the Presence of something other maybe some Other maybe some one Other some thing or some one above below beyond our normal waking consciousness James W Sire has studied a massive number of these accounts He pairs them with his own experiences and turns to scientists philosophers and theologians for explanation These experiences he concludes are signals of transcendence or what N T Wright calls echoes of a voice the voice of Jesus calling us to follow him into God's new world. This book is an account of the author s journey to this conclusion Psychedelic Humanities Erika Dyck, Tehseen Noorani, Nicolas Langlitz, Alex Dymock, Anne Katrin Schlag ,Oliver Davis, 2024-06-19 Psychedelics are part of a resurgence of interest in consciousness studies especially as altered states of consciousness are being re examined in the context of psychedelic assisted therapies To date discussions about psychedelics in modern medicine have been dominated by studies in biomedicine However given that cultural factors play a significant role in the subjective effects of psychedelics psychedelics can be considered a uniquely powerful point of convergence between the cultural and biomedical Writers and artists alongside psychiatrists and pharmacologists have participated in shaping the psychedelic experience by drawing on a rich set of approaches that blend narrative arts and humanities concepts to explain and interpret psychedelic experiences and explore consciousness for creative purposes Psychedelic studies past and present emphasize the importance of set and setting or the context of psychedelic consumption and its paramount importance in shaping psychedelic experiences. These non pharmacological factors rely on a different set of methods and interpretations that necessarily rely on studies conducted outside of the biomedical sciences The Divine Embrace Robert E. Webber, 2006-10 What is true Christian spirituality Rediscover spirituality s biblical roots and how you can live out your response to God s story today The Da Vinci Hoax Carl E. Olson, Sandra Miesel, 2004-01-01 The Da Vinci Code Dan Brown's best selling novel purports to be more than fiction it claims to be based on fact and scholarly research Brown wants his readers to believe that he is revealing the long concealed truth about Jesus Mary Magdalene and early Christianity a truth that he says has been suppressed by the malevolent and conspiratorial forces of the Catholic Church The novel alleges that there has been throughout history a secret group of true
