Predicaments of Knowledge Suren Pillay,2024-09-01 *Predicaments of Knowledge* explores the difficult questions South African universities face after apartheid Is there a difference between Africanising a university and decolonising a university What about differences between deracialising and decolonising the curricula taught at universities across disciplines Through a range of reflections on race language colonial postcolonial and decolonial knowledge projects from Africa and Latin America this book explores the pitfalls and possibilities that face a post apartheid generation inventing the future of knowledge The distinctions between Africanisation decolonisation and deracialisation are often conflated in the political demands put to universities Suren Pillay emphasises all three as important but distinct imperatives If an intervention is undertaken with the aim of decolonising the university while actually addressing deracialisation it can undermine the effort to decolonise Similarly if an initiative to Africanise the university does not address decolonisation both processes can be undermined Drawing on more than two and a half decades of the author s participation

in these debates these essays aim to intervene in and elucidate questions and predicaments rather than offering blue prints they are dialogical in spirit even when polemical in tone In conversation with existing continental African and Latin American experiences they offer incisive reflections on current South African debates **Labour Disrupted** Malehoko
