22.1 Introduction

In the Western World, the man's role regarding pregnancy appeared, some decades ago, rather limited. After conception, the man barely got attention till the birth, and then, he was often portrayed as nervously waiting in the hallway. Nowadays, this has changed, with men participating in antenatal classes and parenting education courses in many Western countries, while this still might be different in other parts of the world. Despite wide variation across different contexts, globally identified barriers to men's involvement in pregnancy and childbirth commonly include beliefs that men's participation is unnecessary or that it's inappropriate for them to participate. Besides, men are systematically not (actively) invited to attend services, consultations, etc.

The Male Experience:

The Male Experience James A. Doyle, 1983 *Masculinities and the Adult Male Prison Experience* Jennifer Anne Sloan, 2016-05-18 This book critically analyses how men in prison act out their masculine identities. It considers how men negotiate their time in prison which can involve being placed into a feminine position relative to other men and particularly looks at the subversion of heteronormative gender positionings through bodies, spaces, time and relationships. Vulnerability is also taken as a key consideration and men are shown to act out their masculinities for the benefit of an audience that matters to them. However, that audience is shown to be subject to change at any point in time. Using extensive ethnographic data drawn from adult male prisoners, the book adopts the viewpoint of the individual prisoner as a frame to consider masculinity. It also advances ethnographic research in criminology by reflecting upon the identity of researchers in prisons, particularly the female researcher's gendered identity in such environments. It will be of great interest to scholars of penology, gender and ethnography.

The Male Survivor Matthew Parynik Mendel, 1995 This landmark study examines the largest clinical sample to date of male survivors of sexual abuse in childhood. Using data from his nationwide North American survey, the author reveals that such abuse is extensive, thus dispelling myths regarding the invulnerability of males. Mendel argues that various societal myths have led to a profound under-recognition of male childhood sexual abuse. He proposes that increased attention to and acknowledgement of male victimization is needed in order to reduce both the stigma and isolation of male survivors and the incidence of abuse. The author also suggests modifications to conceptual frameworks related to the long-term impact of childhood sexual abuse to apply specifically to males.

The Male Heterosexual Larry A. Morris, 1996-12-19 A psychological understanding of the problems associated with male sexuality is urgently needed for this is one of the dimensions of the male code that has fallen the farthest and the fastest. In this volume, Larry A. Morris provides what we most need at this time: a scholarly examination of male heterosexuality in its broadest context. Dr. Morris surveys in turn the biological, developmental, psychological, sociocultural and historical perspectives on male sexuality, then takes up the issues of sexual dysfunctions, sexually transmitted diseases and the modern men's movement and finally offers a new formula for the cultivation of healthy male sexuality. The writing is very clear; the material is presented in an interesting manner and both the author's breadth of knowledge and sense of humor come through delightfully. Dr. Morris in this outstanding volume lights the way for all of us as we attempt to reconstruct gender roles for a new millennium. From the Foreword by Ronald F. Levant: As the traditional code of masculinity erodes, emergence of the new real man brings a unique challenge to the continuum of a male heterosexual development. The move toward more balanced gender roles is viewed as a must for the next millennium, but the process for many men is wrought with the confusion and loss. Timely and clearly written, *The Male Heterosexual* explores biological, developmental, psychological, sociocultural and historical perspectives of male sexuality. Readers are guided by the expertise and warm humor of author Larry A. Morris on a journey into a wide range of issues surrounding male

sexual development Morris skillfully exposes those elements that need to be discarded discusses those needing to be retained and concludes with a new formula for the cultivation of healthy male sexuality The Male Heterosexual is an ideal text for courses in male or gender issues and additionally an informative and fascinating read for academics researchers mental health professionals and any sophisticated lay reader interested in a very contemporary look at this issue **Revealing**

Male Bodies Nancy Tuana, 2002-05-06 Revealing Male Bodies is the first scholarly collection to directly confront male lived experience There has been an explosion of work in men's studies masculinity issues and male sexuality in addition to a growing literature exploring female embodiment Missing from the current literature however is a sustained analysis of the phenomenology of male gendered bodies Revealing Male Bodies addresses this omission by examining how male bodies are physically and experientially constituted by the economic theoretical and social practices in which men are immersed Contributors include Susan Bordo William Cowling Terry Goldie Maurice Hamington Don Ihde Greg Johnson Björn Krondorfer Alphonso Lingis Patrick McGann Paul McIlvenny Terrance MacMullan Jim Perkinson Steven P Schacht Richard Schmitt Nancy Tuana Craig L Wilkins and John Zuern *Contested Countryside Cultures* Paul Cloke, Jo Little, 2005-08-12 This book examines the other side of the countryside a place also inhabited and visited by women children teenagers the elderly gay men and lesbians black and ethnic minorities the unemployed and the poor These groups have remained largely excluded by both rural policies and the representations of rural culture The book charts the experiences of these marginalised groups and sets this exploration within the context of postmodern poststructuralist postcolonial and late feminist analysis This theoretical framework reveals how notions of the rural have been created to reflect and reinforce divisions amongst those living in the countryside **Nondiscrimination in Insurance Act of 1983** United States. Contemporary Perspectives On Masculinity Ken

Clatterbaugh,2018-10-08 What is social reality for men in modern society What maintains or explains this social reality What condition might we imagine that would be better for men How might we achieve this better condition These are the questions Kenneth Clatterbaugh brings to seven different visions of men in modern society considered in this newly updated edition In clear and insightful language Clatterbaugh surveys not just conservative liberal and radical views of masculinity but also the alternatives offered by the men s rights movement spiritual growth advocates and black and gay rights activists Each of these is explored both as a theoretical perspective and as a social movement and each offers distinctive responses to the questions posed The first edition of this book was the first to survey the range of responses to feminism that men have made as well as the first to put political theory at the center of men s awareness of their own masculinity This new edition adds chapters on recent highly publicized movements such as the Promise Keepers Million Man March and the evolution of gay men s rights Clatterbaugh treats all views with fairness and timeliness as he develops and defends a vision of men and masculinity

How to be a Failure and Still Live Well Beverley Clack,2020-01-23 In consumer economies success has increasingly been defined in terms of material attainment and the achievement of status This model of the good life and its formulas for success ignore the haunting possibility that one may not succeed and as a result be deemed a failure How to be a Failure and Still Live Well explores that often neglected theme of failure not just as the opposite of achievement but also and more importantly how it has been conflated with loss that which haunts all transient mortal human experience Understanding loss as a form of failure affects our ability to cope with the everyday losses that permeate existence as a result of the natural processes of ageing death and decay Engaging with loss and thinking about what it inevitability means for our lives and commitments allows different values to emerge than those connected to success as attainment Relationships spontaneity and generosity are explored as qualities that arise from taking seriously our vulnerability and that form the basis for richer accounts of what it might mean to live well

Men in Feminism (RLE Feminist Theory) Alice Jardine,Paul Smith,2013-05-20

What are men doing in feminist discourse Although many feminists have commented on the relation actual or possible of men to feminist thinking and practice and although some male academics have written about feminism there has so far been little shared discussion Men in Feminism is the first substantial attempt to produce a dialogue between feminists and their male allies This lively book comprised of essays by both men and women is a controversial sally in the current debate over the future of feminist theory Its focus is one seemingly direct and yet surprisingly prickly question the actual and potential relationship of men to the now impressive and widely recognized body of feminist writing Each essay attempts to assess the benefits or damage of male participation in feminism several of

the contributions stand in direct dialogue with others The editors present mediate and reflect upon the agreements and arguments in the book as well as between themselves as editors Their dialogue afterword draws together the questions at the heart of the volume Offering few comfortable answers Men in Feminism will open up discussion of this theoretical and thoroughly political issue

Ageing, Gender, and Illness in Anglophone Literature Heike Hartung, 2015-12-07

This study establishes age as a category of literary history delineating age in its interaction with gender and narrative genre Based on the historical premise that the view of ageing as a burden emerges as a specific narrative in the late eighteenth century the study highlights how the changing experience of ageing is shaped by that of gender By reading the Bildungsroman as a coming of age novel the book asks how the telling of a life in time affects individual age narratives Bringing together the different perspectives of age and disability studies the book argues that illness is already an important issue in the Bildungsroman s narratives of ageing This theoretical stance provides new interpretations of canonical novels visiting authors such as Johann Wolfgang Goethe Frances Burney Maria Edgeworth Jane Austen Charles Dickens George Eliot Samuel Beckett and Jonathan Franzen Drawing on the link between age and illness in the Bildungsroman s age narratives the genre of dementia narrative is presented as one of the directions which the Bildungsroman takes after its classical period Applying these theoretical perspectives to canonical novels of the nineteenth century and to the new genre of dementia narrative the volume also provides new insights into literary and genre history
