

The background of the slide is a painting of a turbulent sea under a heavy, grey sky. Dark, churning waves are visible in the foreground, while the horizon is obscured by mist or rain. A white rectangular banner is superimposed over the lower part of the painting.

The March of Portola and the Discovery of the Bay of San Francisco by Zoeth Skinner Eldredge In the annals of adventure there are no more thrilling narratives of heroic perseverance in the performance of duty than the record of Spanish exploration in America To those of us who have come into possession of the fair land opened up by them the story of their travels and adventures have the most profound interest The account of the expedition of Portol has never been properly presented Many writers have touched on it and H H Bancroft in his History of California gives a brief digest of Crespi s diary Most writers on California history have drawn on Palou s Vida del V P F Junipero Serra and Noticias de la Nueva California and without looking further have accepted the ecclesiastical narrative We have endeavored in this sketch to give in a clear and concise form the conditions which preceded and led up to the occupation of California The importance of California in relation to the control of the Pacific was early recognized by the great European powers some of whom had but small respect for the Bull of Pope Alexander VI dividing the New World between Spain and Portugal England France and Russia sent repeated expeditions into the Pacific In 1646 the British Admiralty sent two ships to look in Hudson s Bay for a northwest passage to the South Sea one of which bore the significant name of California The voyage of Francis Drake 1577 1580 was a private venture but at Drake s Bay he proclaimed the sovereignty of Elizabeth and named the country New Albion Two hundred years later 1792 1793 Captain George Vancouver explored the coast of California down to thirty degrees of north latitude Ensenada de Todos Santos which he says is the southernmost limit of New Albion as discovered by Sir Francis Drake or New California as the Spaniards frequently call it Even after the occupation and settlement by the Spaniards so feeble were their establishments that as Vancouver reports to the Admiralty it would take but a small force to wrest from Spain this most valuable possession But though the growing feebleness of Spain presaged the time when her hold upon America would be loosened the standard of individual heroism was not lowered and the achievements of Portol and of Anza rank with those of De Soto and Coronado The California explorer did not it is true have to fight his way through hordes of fierce natives The California Indians as a rule received the white adventurers gladly and entertained them with such hospitality as they had to offer but the Indians north of the Santa Barbara Channel were but a poor lot In a country abounding in game of all kinds a sea swarming with fish a soil capable of growing every character of foodstuff these miserable natives lived in a chronic state of starvation We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been
