## **The Invention Of Paradise:**

**The Franciscan Invention of the New World** Julia McClure, 2016-11-30 This book examines the story of the discovery of America through the prism of the history of the Franciscans a socio religious movement with a unique doctrine of voluntary poverty The Franciscans rapidly developed global dimensions but their often paradoxical relationships with poverty and power offer an alternate account of global history Through this lens Julia McClure offers a deeper history of colonialism not only by extending its chronology but also by exploring the powerful role of ambivalence in the emergence of colonial regimes Other topics discussed include the legal history of property the complexity and politics of global knowledge networks the early and neglected history of the Near Atlantic and the transatlantic inquisition mysticism apocalypticism and religious imaginations of place The History of the World Sir Walter Raleigh, 1677 **Twelve Inventions Which Changed**

**America** Gerhard Falk, 2013-02-13 This book describes twelve inventions that transformed the United States from a rural and small town community to an industrial country of unprecedented power These inventions demonstrate that no one person is ever responsible for technological advances and that the culture produces a number of people who work together to create each new invention The book also shows the influences of technology on society and examines the beliefs and attitudes of those who partake in technological advances The book is both a sociological analysis and a history of technology in the United States in the past two hundred years **Chaucer and the Invention of Biblical Narrative** Chad

Schrock, 2024-10-17 Demonstrating how Chaucer uses the Bible in The Canterbury Tales as an authoritative literary source and model for his own literary production this book explores the ways in which the Bible was a key tool for Chaucer's self definition and innovation as an author Chad Schrock unravels Chaucer's Tales in the light of topics important to biblical reception in 14th century England authority textuality interpretation translation rephrasing and marginalia When the Canterbury Tales are summed up in this way they show the great extent to which Chaucer was drawing upon the Bible as a meta poetical resource for his own poetry its fictional tale tellers and characters its quotations allusions and images its plots its imaginative engagement with an audience of listeners and readers and its hidden intentions Schrock demonstrates that the Bible is a uniquely potent literary source for Chaucer because it combines infinite authority and plenitude with unprecedented freedom of interpretive invention As a world making text the Bible's authority includes the literary as subcategory but surpasses and contextualizes it which gives Chaucer's deferential biblical invention a different kind of freedom and safety Within Chaucer's tales a biblical image is often where a given narrative peaks and its plot comes clear but a biblical world also and without strain contains his biblical fictioneers and whatever they make from the Bible whether orthodoxy or heresy whether sin or worship The Invention of Race in the European Middle Ages Geraldine

Heng, 2018-03-08 This book challenges the common belief that race and racism are phenomena that began only in the modern era The History of the World, in Five Books Sir Walter Raleigh, 1687 Church Dogmatics The Doctrine of
