Irrigation Ditches and Their Operation ,2003      **Preliminary Investigation of an Irrigation Ditch in the Lower Valley, El Paso County** Sreedhar Veerapaneni,1995 A preliminary investigation was conducted to observe the affect of irrigation and the affect of rainfall on the water flowing in an irrigation ditch The ditch selected for this purpose is located near Las Pampas Road in the Lower valley area of El Paso county The water quality parameters like pH Electric Conductivity Hardness Chlorides BOD and COD were measured before and during irrigation Differences in these parameters would serve as an indication that the irrigation was having an affect on the water quality Depending on specific changes and the trends exhibited by certain parameters would help evaluate the extent of contamination if any Also the coliform counts were measured before and after rainfall to detect the contributions of rainfall runoff to the contamination of the ditch water if any Some of the data was compared to data from the Rio Grande river to obtain a broader picture about the level of contamination in the ditch if any The data obtained during the investigation has been analysed and certain conclusions were made with regard to the quality of water in the ditch      **How to Build Small Irrigation Ditches** Clarence Thomas Johnston,Jay D. House,1911      Sugar Water Carol Wilcox,1997-10-01 Hawaii s sugar industry enjoyed great success for most of the 20th century and its influence was felt across a broad spectrum economics politics the environment and society This success was made possible in part through the liberal use of Hawaii s natural resources Chief among these was water which was needed in enormous quantities to grow and process sugarcane Between 1856 and 1920 sugar planters built miles of ditches diverting water from almost every watershed in Hawaii Ditch is a humble term for these great waterways By 1920 ditches tunnels and flumes were diverting over 800 million gallons a day from streams and mountains to the canefields and their mills Sugar Water chronicles the building of Hawaii s ditches the men who conceived engineered and constructed them and the sugar plantations and water companies that ran them It explains how traditional Hawaiian water rights and practices were affected by Western ways and how sugar economics transformed Hawaii from an insular agrarian and debt ridden society into one of the most cosmopolitan and prosperous in the Pacific      Irrigation Ditch on the Island of Hawaii..
