Reality TV June Deery, 2015-02-11 Reality TV has changed television and changed reality even if we are not among the millions who watch Written for a broad audience this accessible overview addresses questions such as How real is reality TV How do its programs represent gender sex class and race How does reality TV relate to politics to consumer society to surveillance What kind of ethics are on display Drawing on current media research and the author's own analysis this study encompasses the history and evolution of reality television its production of reflexive selves and ordinary celebrity its advertising and commercialization and its spearheading of new relations between television and social media To dismiss this programming as trivial is easy Deery demonstrates that reality television merits serious attention and her incisive analysis will interest students in media studies cultural studies politics sociology and anyone who is simply curious about this global phenomenon

Real Deceptions Jennifer Friedlander, 2017-07-31 *Real Deceptions* develops a new theory of realism through close consideration of myriad contemporary art media and cultural practices Rather than focusing on transgressing deceptions which distort reality the book argues that reality lies within the deceptions themselves That is to say realism's political potential emerges not by revealing deception but precisely by staging deceptions particularly deceptions that imperil the very categories of true and false In lieu of perceiving deception as an obstacle to truth it shows how deception functions as the truth's necessary conduit Categories invoked in realist works such as trompe l'oeil illusion hypervirtuality and simulation help to establish how realism can be seen as moving from the creation of mere epistemological uncertainty to radical ontologically based indeterminacy The book cultivates this schema by considering productive connections between insights from Jacques Lacan and Jacques Rancière *Real Deceptions* not only applies these theoretical frameworks to art and media examples but also engages in the reverse move of using the cases to further the theories This dual approach points to the ways in which efforts to produce realist representations often give rise to the destabilizing Real

Reality Television Alison F. Slade, Amber J. Narro, Burton P. Buchanan, 2014-03-06 Reality television remains a pervasive form of television programming within our culture The new mantra is go big or go home be weird or be invisible Here Comes Honey Boo Boo and Duck Dynasty for example are arguably two of the most compelling reality television programs currently airing because of their uniqueness and ability to transcend traditional boundaries in this genre Reality Television Oddities of Culture seeks to
