Mathew Joseph C.

The Kashmir Question Retrospect And Prospect:

The Kashmir Question Sumit Ganguly, 2003 Few bilateral conflicts have proven as resistant to resolution as the Kashmir dispute between India and Pakistan. What explains the tenacity of this dispute? The answer is complex and goes to the very basis of state construction in South Asia. India, which had been created as a civic polity, initially sought to hold on to this Muslim majority state to demonstrate its secular credentials. 1. Pakistan in turn had laid claim to Kashmir because it had been created as the homeland for the Muslims of South Asia. 2. After the break up of Pakistan in 1971, the Pakistani irredentist claim to Kashmir lost substantial ground. If Pakistan could not cohere on the basis of religion alone, it had few moral claims on its co-religionists in Kashmir. Similarly, in the 1980s, as the practice of Indian secularism was eroded, India's claim to Kashmir on the grounds of secularism largely came apart. Today, their respective claims to Kashmir are mostly on the basis of statecraft. This title provides a comprehensive assessment of a number of different facets of the on-going dispute over Kashmir between India and Pakistan. Among other matters, it examines the respective endgames of both states, the evolution of American policy toward the dispute, the dangers of nuclear escalation in the region, and the state of the insurgency in the Indian-controlled portion of the disputed state.

Fragile Frontiers Saroj Kumar Rath, 2015-06-03 Critical questions remain unanswered on the events of the cold-blooded and devastating terror attacks in Mumbai on 26 November 2008. Investigative and introspective, this book offers a lucid and graphic account of the ill-fated day and traces the changing dynamics of terror in South Asia. Using new insights, it explores South Asia's regional dynamics of antagonism, the ever-present challenge to the frontiers of India, Pakistan, and the terrorism question, the strife in Afghanistan, and the self-serving selective US war on terror. This will be an engaging read for those interested in defence, security, and strategic studies, politics, international relations, peace and conflict studies, and South Asian studies, as well as the general reader.

Understanding Pakistan Mathew Joseph C., 2016-09-13 This book is the outcome of a national seminar for research scholars on Pakistan organized by the Centre for Pakistan Studies at the MMAJ Academy of International Studies, Jamia Millia Islamia, New Delhi. The aim of the seminar was to explore how young minds in India view Pakistan, the quintessential enemy country. The range of topics included issues related to Pakistan's politics, economy, popular culture, education, environment, sectarian divide, minorities, policy towards Jammu, Kashmir, and foreign relations. Please note: Taylor Francis does not sell or distribute the Hardback in India, Pakistan, Nepal, Bhutan, Bangladesh, and Sri Lanka.

Military Industry and Regional Defense Policy Timothy D. Hoyt, 2017-07-05 Military Industry and Regional Defense Policy re-examines military industrialization in the developing world, focusing on policy making in producer states and the impact of security perceptions on such policy making.

Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective

Politics and Religion in India Narender Kumar,2019-09-12 This volume examines how religion is intrinsically related to politics in India Based on studies from states across the length and breadth of India it looks at political formations that inform political discourse on the national level and maps the trajectory of religion in politics The chapters in this volume discuss contemporary trends in Indian politics including Hindutva citizenship bills and mob violence draw on fieldwork conducted across states and regions in India on critical themes including the role of religion in electoral process political campaigns and voting behaviour political and ideological mobilization and state politics vis vis religion among minorities focus on the emerging politics of the 21st century The book will be a key reference text for scholars and researchers of politics religion sociology media and culture studies and South Asian studies

South Asian Regionalism Chakma, Bhumitra,2020-07-22 Leading South Asia expert Bhumitra Chakma explains the politics of regionalism in South Asia and traces the origins and evolution of the South Asian Association for Regional Cooperation SAARC from its inception to the present day He takes an International Relations perspective and engages three major IR theoretical approaches neorealism institutionalism and constructivism to explain the complex dynamics of South Asian regionalism Using comparative perspectives based on the experiences of similar regional organizations the author provides an in depth analysis of the challenges of cooperation in the region and explores how progress might be made in the future

The Shakespearean International Yearbook Alexa Alice Joubin,Natalia Khomenko,2025-06-30 In the modern world references to Shakespeare frequently mark moments of catastrophe and of the accompanying longing for restoring social order remedying injuries and building strong communities Shakespeare s moral authority has often been invoked to support artistic projects that claimed social justice as their goal on the assumption that drama has the power to manipulate perceptual reality Drawing on cases from around the world this book interrogates the idea that performing or reading Shakespeare has socially reparative value It also acknowledges Shakespeare as a potential source of social well being practices in the arts The global framework shows that it is problematic to view Shakespeare as an impartial moral center This book proposes that reparative creativity or remedial uses of the canon can give artists and

audiences more agency Having a map of canonical texts hidden ideologies can help readers artists and playgoers navigate its landscape which is in itself a reparative act

The Politics of Counterterrorism in India Prem Mahadevan,2011-12-18 In the wake of the Mumbai terrorist attacks in November 2008 terrorism and counterterrorism in India became the focus of international regional and national attention Here Prem Mahadevan by using three case studies of Sikh separatist Kashmiri separatist and pan Islamist groups focuses on the efforts of India s decision makers and intelligence agencies to create coherent and effective counterterrorism policies and actions Questioning why Sikh separatist groups have been effectively contained and yet pan Islamists have not Mahadevan draws the conclusion that due to a gap between the expectations of decision makers and the capabilities of strategic intelligence agencies India s ability to prevent terrorist attacks has been undermined In addition the role played by Pakistan s intelligence agencies in the border regions is given extensive analytical treatment Combining a theoretical approach with empirical analysis of India s counterterrorist activities this book holds valuable information for those examining strategy making and counterterrorism practitioners as well as researchers in addition to those interested in the politics of India
