The Macedonian Conflict Ethnic Nationalism In A Transnational World:

The Macedonian Conflict Loring M. Danforth, 2020-11-10 Greeks and Macedonians are presently engaged in an often heated dispute involving competing claims to a single identity Each group asserts that they and they alone have the right to identify themselves as Macedonians The Greek government denies the existence of a Macedonian nation and insists that all Macedonians are Greeks while Macedonians vehemently assert their existence as a unique people Here Loring Danforth examines the Macedonian conflict in light of contemporary theoretical work on ethnic nationalism the construction of national identities and cultures the invention of tradition and the role of the state in the process of building a nation The conflict is set in the broader context of Balkan history and in the more narrow context of the recent disintegration of Yugoslavia Danforth focuses on the transnational dimension of the global cultural war taking place between Greeks and Macedonians both in the Balkans and in the diaspora He analyzes two issues in particular the struggle for human rights of the Macedonian minority in northern Greece and the campaign for international recognition of the newly independent Republic of Macedonia The book concludes with a detailed analysis of the construction of identity at an individual level among immigrants from northern Greece who have settled in Australia where multiculturalism is an official policy People from the same villages members of the same families living in the northern suburbs of Melbourne have adopted different national identities

The Necessary Nation Gregory Jusdanis, 2011-06-27 In this controversial look at nationalism Gregory Jusdanis offers a sweeping defense of the nation as a protector of cultural difference and a catalyst for modernization. Since the end of the Cold War the nation state has undergone intense scrutiny among critics in the media and the academy. Many believe that civic nationalism may be fruitful but that cultural nationalism fosters xenophobia and backward thinking. Jusdanis however emphasizes the positive collaboration between nation building and culture. Through a series of critical readings of multicultural, postcolonial and globalization theories the author reveals how nationalism enables people to defend their distinctive ways of life to fight colonial oppression and to build an independent society of citizens. He explains why people over the last two hundred years have politicized their ethnic identities and have sought a union of culture and power within an autonomous nation state. While seeking to defend nationalism Jusdanis also examines its potential to unleash extraordinary violence into the world. He thus proposes federalism as a political solution to the challenges posed by nationalism and globalization. Jusdanis applies the tools of disciplines ranging from anthropology to philosophy as he explores the nation building projects of numerous and diverse countries around the world. What emerges is a fresh perspective on the subjects of national culture, identity, political nations, globalization, postcolonialism and diaspora.

The Fight for Legitimacy Cindy R. Jebb, P. H. Liotta, Thomas Sherlock, Ruth Margolies Beitler, 2006-07-30 Terrorism cannot be treated as a monolithic threat. Moreover as much as we may wish to focus on the terror tactics and terrorist means we cannot overlook the ends. In fact good policy can only be crafted with an understanding of the terrorist strategy that is how terrorists integrate their means to secure their goals given their perception of the security environment. The groups covered in this book change and evolve. While their governments must take aggressive actions to secure their populations against attacks those governments that recognize the real grievances can simultaneously take action that addresses those grievances. This two pronged approach simultaneously bolsters state legitimacy across the ethnic and majority populations while demonstrating state effectiveness regarding insecurity. The authors argue that the best way for states to win legitimacy vis a vis terrorists is by adhering to liberal democratic values, cooperating with other states and applying prudent counterterrorist tactics. Inter state cooperation which affects domestic and foreign policies requires some convergence of political cultures among those cooperating states. This book begins by analyzing five hotspot situations and their regional effects: the Basques in Spain, the ethnic Albanians in Macedonia, the Kurds in Turkey, the Chechens in Russia and the Palestinians in Israel and a future Palestinian state. These cases shed some light on how we should understand, characterize and categorize terrorism and they provide insights into the concepts of political legitimacy, liberal democracy, political culture and political community. As the United States assesses its homeland defense posture it must resist any temptation to weaken its liberal democratic values and as a superpower it must encourage other states to adhere to liberal democratic values as well. Liberal democracy is a security imperative in today's global security.

environment The Social Construction of Man, the State and War Franke Wilmer, 2004-04-16 Combining detailed analysis with a close reading of historical narratives documentary evidence and first hand interviews this is the first book on conflict to look seriously at the issue of ethnic identity and what it means for future peace **Macedonia** Jane K. Cowan, 2000-12-20 Macedonia has been contested by its three neighbours Serbia Bulgaria and Greece during and since the demise of the Ottoman Empire But the Macedonian Question extends far beyond the contested borders of Macedonia to immigrant communities in Europe Australia and North America The contributors to this collection explore the contemporary repercussions of the Macedonian Question which has long been at the heart of Balkan politics The volume recognises Macedonia as a global issue and focuses on the politics of identity and difference in both homeland and diaspora The contributors argue that Macedonia as place and as concept is forged within a transnational network of diasporas local communities states and international institutions They examine the increasingly important role of transnational bodies including the European Union and human rights NGOs in regulating relationships between states and minority groups as well as in promoting multiculturalism and civic participation They consider the role of scholarship and the media in defining Macedonia and its inhabitants They also draw attention to the struggles of individuals in constructing negotiating and even transforming their identities in the face of competing nationalisms and memories In the process they re evaluate ethnicity as a conceptual tool for understanding difference in the region and raise questions about the implications of recognising and not recognising difference at the political level *Remembering Migration* Kate Darian-Smith, Paula Hamilton, 2019-08-10 This book provides the first comprehensive study of diverse migrant memories and what they mean for Australia in the twenty first century Drawing on rich case studies it captures the changing political and cultural dimensions of migration memories as they are negotiated and commemorated by individuals communities and the nation Remembering Migration is divided into two sections the first on oral histories and the second examining the complexity of migrant heritage and the sources and genres of memory writing The focused and thematic analysis in the book explores how these histories are re remembered in private and public spaces including museum exhibitions heritage sites and the media Written by leading and emerging scholars the collected essays explore how memories of global migration across generations contribute to the ever changing social and cultural fabric of Australia and its place in the world **Human Rights in Global Perspective** Richard Wilson, Jon P. Mitchell, Richard A. Wilson, 2003-09-02 The aim of this volume is to understand from an anthropological perspective the consequences of the rise of rights discussions and institutions in both local and global politics **African Democracy and Development** Cassandra Rachel Veney, Dick Simpson, 2012-09-28 Various African nations have undergone conflict situations since they gained their independence This book focuses on particular countries that have faced conflict civil wars and genocide and are now in the process of rebuilding their political economic social and educational institutions The countries that are addressed in the book include Rwanda Mozambique Sierra Leone Liberia and the Democratic Republic

of the Congo In addition there is a chapter that addresses the role of the African Diaspora in conflict and post conflict countries that include Eritrea Liberia and Somalia The book includes an examination of the various actors who are involved in post conflict rebuilding and reconstruction that involves internal and external participants For example it is clear that the internal actors involve Africans themselves as ordinary citizens members of local and national governments and members of non governmental organizations This allows the reader to understand the agency and empowerment of Africans in post conflict reconstruction Various institutions are addressed within the context of the roles they play in establishing governance organizations such as the Truth and Reconciliation Commission in Sierra Leone the African Union chiefs in Liberia and non governmental organizations Furthermore the external actors who are involved in post conflict reconstruction are examined such as international non governmental organizations and the African Diaspora They both have their own constituents and agendas and can and do play a positive and negative role in post conflict reconstruction It is obvious that countries that are addressed in the book are in dire need of financial assistance to rebuild much needed infrastructure that was destroyed during the conflict All of the countries covered in the book need schools medical facilities roads bridges airports ports and the government does not have the money to provide these This is where the international non governmental organizations and the African Diaspora play an important role The chapters that address these issues are cognizant of their importance and at the same time the authors realize that sovereignty can be undermined if Africans are not in the forefront of policy and decision making that will determine their future There are chapters that provide a gendered analysis of post conflict when it is appropriate For example it is clear that women men boys and girls experienced conflict in different ways because of their gender They all participated in the conflict in various ways Consequently the efforts at peace building are given a gendered analysis in terms of what has happened to women and girls in the demobilization and rehabilitation period including an excellent analysis of land reform in Rwanda and how that affects women and members of a certain ethnic group that are often overlooked in the examination of the 1994 genocide This book provides a very good contribution to the literature on conflict and post conflict African countries because of its depth and the vast topics it embraces It provides an analysis of the internal and external actors the role of gender in post conflict decision making and it provides the voices of ordinary Africans who were affected by the conflict and who are determined to live productive lives Conflicted Memories Konrad Hugo Jarausch, Thomas Lindenberger, Annelie Ramsbrock, 2007 Despite the interest in general European history the European dimension is surprisingly absent from much of the writing of contemporary history In most countries the historiography on the 20th century is dominated by national perspectives This book focuses on the development of a shared conception of European history
