What Your Second Grader Needs to Know E.D. Hirsch, Jr.,2009-07-29 From the Introduction What kind of knowledge and skills can your child be expected to learn in second grade at school How can you help your child at home These are questions that we try to answer in this book It presents the sort of knowledge and skills in literature reading and writing history and geography visual arts music mathematics and science that should be at the core of a challenging second grade education Because children and localities differ greatly across this big diverse country so do second grade classrooms But all communities including classrooms require some common ground for communication and learning In this book we present the specific shared knowledge that hundreds of parents and teachers across the nation have agreed upon for American second graders This core is not a comprehensive prescription for everything that every second grader needs to know Such a

complete prescription would be rigid and undesirable But the book does offer a solid common ground that will enable young students to become active successful learners in their classroom community and later in the larger communities we live in town state nation and world **BONUS** This edition includes an excerpt from What Your Third Grader Needs to Know **The Ballets of Ludwig Minkus** Robert Ignatius Letellier, 2008-10-01 The composer Ludwig Minkus represents one of music's biggest mysteries Who was he Hardly anything is known about him and yet he occupied an influential position in the theatres of the Imperial ballet in late nineteenth century Russia He has been recognised as a predecessor of Tchaikovsky but as a musician is commonly held to have been so feeble as to be beneath contempt Yet despite the scorn heaped on him and his consequent obscurity Minkus is far from being forgotten Since the early 1960s his name has slowly begun to re surface Two works Don Quixote 1869 and La Bayad re 1877 have been presented in their entirety for the first time to new audiences all over the world The musical and dramatic power of both ballets has taken people by surprise The stories have a very real human appeal the choreography attracts the admiration of balletomanes and the music with its rhythm verve and beauty of melody holds attention and engages the heart wherever it is heard This introduction seeks to discover something more behind the blank facade of Minkus's life and work What do we actually know about him as a man and as an artist Are we able to apprehend his oeuvre as a whole and how much can we establish from the available material What is the nature of the music he created for those few works that have survived the years and that have come to the fore again recently to delight those who have ears to hear This study includes iconography from the life and times of the composer many musical examples from his works and a comprehensive bibliography and discography **Bringing Out Their Best** Norma J. Livo, 2003-04-30 Here are more than 60 tales that exemplify support and promote the strong values and character traits that we wish to instill in our youth today They also support the character education that is being mandated in state after state throughout the country Grouped into 12 sections based on specific values such as love perseverance fairness and cooperation with a separate chapter on dealing with bullies these tales have been passed down through the ages in diverse cultures and traditions from all over the world from Japan and India to Greece Scotland Africa and the Americas There are folktales fables Zen Buddhist tales stories from the Judeo Christian Bible even true historic tales At the end of each section educator and storyteller Norma Livo offers activity ideas and suggestions for discussions pertinent to specific stories and values In addition there is an appendix of general activity ideas that can be used in character education World of Children Victor Margolin, 1970 Through film we can visit an experimental classroom share the anguish of a child going to a hospital or observe an innovative day care center in operation There are many possibilities in the film medium and these possibilities are sensed by children who more and more are being drawn to film as a means of expressing their feelings about the world around them In various parts of the country film classes have sprung up in schools and workshops where some young filmmakers are no more than 5 years old We now have films produced all over the world for children which along with the

story books their parents have traditionally read to them open up a world of wonder At The 1970 White House Conference on Children we have brought together many outstanding films about the problems of children films which children have made themselves and an international selection of short entertainment films We hope that the films will not only open new doors of interest and excitement for the Conference participants but also point out new avenues of care and concern for the children of the seventies
