Vedanta appears among explicit doctrines as one of the most direct formulations possible of what makes the very essence of our spiritual reality. The work in hand can be read as a book length unpacking of that accurate description. Reliable from beginning to end it is distinctive among the innumerable renditions of the Vedanta in two ways. First because its author is an accomplished wordsmith he makes the Vedanta's profundities which delve as deep as those of any philosophical theology read like an open book and second because he has worked for thirty years to shape his life by those profundities his vivid accounts of what he experienced along the way make his words jump off the page into the reader's heart. The book is inspiring. Huston Smith author of *Why Religion Matters*, *The World's Religions* etc.
