Maheshwari,2023-03-09

This two-volume set examines the need for a consciousness-based view of leadership which emphasizes universal human flourishing as opposed to a resource-based view which focuses on sustaining a competitive advantage. This approach is built around three main principles: 1. Paradigm: Consciousness is primary, including complementary existence of opposites; 2. Interpersonal: focusing on empathy and compassion; and 3. Individual: experiencing Oneness and expressing creativity. Volume One is divided into three sections. The first section focuses on Consciousness-based approaches to Inclusive Purposeful Quantum and Vedic leadership. The second section focuses on leadership principles from Vedic scriptures such as Ramayana and Vedanta. The third section includes leadership principles from other scriptures such as Buddhism, Confucianism, Daoism, and Thirukural. Aligning leadership practices with the notion of unbounded consciousness, this edited collection will extend the literature on organizational culture, leadership, and sustainability, contributing to solving the grand challenges facing humanity. **The World of Nichiren's Writings, vol. 1** Daisaku Ikeda,2023-01-01

In these insightful discussions, Daisaku Ikeda explores from a variety of angles the life times and teachings of Nichiren Daishonin as described in his writings. We learn how Nichiren's actions, from his vows at an early age to bring happiness to the people through his fearlessness in face of life-threatening persecutions, can become a model for us today. And the humanistic interpretations of key Buddhist concepts bring new clarity to ideas such as attaining Buddhahood in this lifetime and establishing the correct teaching for the peace of the land. More than just history and theory, the inspiration offered here aims to provide a deeper understanding of how to put into daily practice Nichiren's philosophy of hope and victory. **Seikyo Times**, 1996      A Forum for Peace Olivier Urbain, 2014-06-02 Every year since 1983 the Buddhist leader and thinker Daisaku Ikeda has issued a peace proposal that presents solutions to a variety of global problems. While the proposals themselves are both wide-ranging and specific, covering topics as diverse as counter-terrorism, relations, the prohibition of child soldiers, denuclearization of the Arctic, and strategies to prevent global warming, the common denominator at their center is the role and effectiveness of the United Nations in addressing structural challenges and inequality. This substantial volume brings together for the first time in one place excerpts from the most topical and important of Ikeda's peace proposals. Themes like human security, the empowerment of women, nuclear disarmament, and the centrality of dialogue are throughout informed by an unshakeable belief in the potential and promise of the UN's world mission, as well as by Ikeda's own experience of the cruelty of war and his articulation of Buddhism as a practical route to peace. The book makes a timely and vital contribution to ethics, peace studies, and international relations.      **Nichiren** Thomas Ultican, 2025-05-20 Nichiren is a vivid account of the history of Nichiren Daishonin, a thirteenth-century Japanese Buddhist priest and philosopher whose work and dedication to the Lotus Sutra, one of the most venerated Buddhist scriptures, culminated in Nichiren Buddhism, a unique concept of Buddhism based on the oneness of body and mind and the interconnectedness of all existence. Steeped in the rich history of ancient Japanese culture, Nichiren Buddhism is contextualized against the background of spiritual awakening which swept across Southeast Asia in the 1200s. For those dedicated to the study of Buddhism or even those beginning an exploration of the Buddhist precepts and wishing to feel a personal connection with the spiritualism of Nichiren, this book is essential reading.      **The Writings of Nichiren Daishonin** Nichiren, 2003
