The Making Of Modern London 1914 1939:

The making of modern London [braille] gavin weightman,1986 *The Making of Modern London* Gavin Weightman,Joanna Mack,John Taylor,2007 On their original publication the four volumes of THE MAKING OF MODERN LONDON were hailed as innovative and riveting histories of the city combining living memory with diligent historical research Accompanying a popular television series of the same name THE MAKING OF MODERN LONDON was a ground breaking publication and drew upon the extensive knowledge and expertise of leading academics of the day Now skilfully woven into one volume this new publication picks up the story in 1815 when London was the gas lit horse drawn city of Charles Dickens day In the two centuries that followed London has become one of the greatest cities in the world with a history that is endlessly fascinating and enduring especially when it is related in the words of the people who lived and breathed the city from the lightermen on the 19th century River Thames and the debutantes who jitterbugged their way around the dancefloors of the 1930s to the East Enders whose poignant memories of the air raids and bombings of the Second World War stir our emotions even today And this is one of the few histories of the capital that records the excitement of the Coronation in 1953 the Swinging London of the 1960s and the revolution in dress and habits from the 1970s onwards Written with verve sympathy and elan this is the intimate story of London as never told before *The Making of Modern English Society from 1850* Janet Roebuck,2005-08-04 In the second half of the nineteenth century and the first half of the twentieth century a variety of forces emerged which changed society in many profound and subtle ways The Making of Modern English Society from 1850 uses the findings of recent historical and sociological research contemporary literature and a wide range of historical sources to form a clear picture of the main patterns of the social changes which took place in this turbulent period Jane Roebuck shows how in these hundred years the whole fabric of society altered more rapidly and radically than in ant preceding century She gives and account of the dramatic change which occurred in all spheres of national liked She demonstrates how the drift towards socialism which began in the nineteenth century gathered momentum in the twentieth and how massive social chance was on produce of the two world wars In the field of economics the author considers the development of the maturing but still primitive industrial economy of the mid nineteenth century into a modern economy based on mass production and mass consumption She also describes the change in emphasis from desire for world power to concern for domestic prosperity and welfare services ***The Making of the Modern British Home*** Peter Scott,2013-08-29 The Making of the Modern British Home explores the impact of the modern suburban semi detached house on British family life during the 1920s and 1930s focusing primarily on working class households who moved from cramped inner urban accommodation to new suburban council or owner occupied housing estates Migration to suburbia is shown to have initiated a dramatic transformation in lifestyles from a traditional working class mode of living based around long established tightly knit urban communities to a recognisably modern mode centred around the home the nuclear family and

building a better future for the next generation This process had far reaching impacts on family life entailing a change in household priorities to meet the higher costs of suburban living which in turn impacted on many aspects of household behaviour including family size This volume also constitutes a general history of the development of both owner occupied and municipal suburban housing estates in interwar Britain including the evolution of housing policy the housing development process housing and estate design lay outs and architectural features marketing owner occupation and consumer durables to a mass market furnishing the new suburban home making ends meet suburban gardens social filtering and conflict on the new estates and problems of mis selling and Jerry building Peter Scott integrates the social history of the interwar suburbs with their economic business marketing and architectural planning histories demonstrating how these elements interacted to produce a new model of working class lifestyles and respectability which marked a fundamental break with pre 1914 working class urban communities **Routledge Revivals: Metropolis London (1989)** David Feldman,Gareth Stedman

Jones,2016-10-04 First published in 1989 this book seeks to demonstrate the social and political images of late twentieth century London the post big bang city docklands trade union defeats a mounting north south divide do not mark as decisive break with the past as they may appear to It argues that the most striking thing about London s history since 1800 is the continuities and recurrences which punctuate it The essays collected in this book focus on these themes and address important questions about class nationality sexual difference and radical politics They combine the established strengths of social history with more innovative approaches such as the history of representations *The Subterranean Railway*

Christian Wolmar,2012-11-01 Since the Victorian era London s Underground has had played a vital role in the daily life of generations of Londoners Christian Wolmar celebrates the vision and determination of the 19th century pioneers who made the world s first and still the largest underground passenger railway one of the most impressive engineering achievements in history From the early days of steam to electrification via the Underground s contribution to 20th century industrial design and its role during two world wars the story comes right up to the present with its sleek driverless trains and the wrangles over the future of the system This book reveals London s hidden wonder in all its glory and shows how the railway beneath the streets helped create the city we know today The Cambridge Urban History of Britain Peter Clark,David Michael

Palliser,Martin J. Daunt,2000 The process of urbanisation and suburbanisation in Britain from the Victorian period to the twentieth century **Working Class Cultures in Britain, 1890-1960** Prof Joanna Bourke,Joanna Bourke,2008-01-28

Integrating a variety of historical approaches and methods Joanna Bourke looks at the construction of class within the intimate contexts of the body the home the marketplace the locality and the nation to assess how the subjective identity of the working class in Britain has been maintained through seventy years of radical social cultural and economic change She argues that class identity is essentially a social and cultural rather than an institutional or political phenomenon and therefore cannot be understood without constant reference to gender and ethnicity Each self contained chapter consists of an

essay of historical analysis introducing students to the ways historians use evidence to understand change as well as useful chronologies statistics and tables suggested topics for discussion and selective further reading

The Making of Modern London Weightman,Humph,2008-06-01 In this magnificent introduction to the last 200 years of London's momentous history the authors skillfully combine living memory with diligent historical research to record the city of London from Dickens's time to the present day

The experience of suburban modernity Michael John Law,2014-12-01 The experience of suburban modernity looks at the history of the London suburbs in the interwar years It shows that contrary to those accounts that portray suburbia as static and boring these suburbs were in fact at the heart of the adoption of private transport and new mobilities Wealthier middle class suburbanites enjoyed driving at speed on new arterial roads visiting roadhouses for a transgressive night out taking five shilling flights from the local airport and joining cycling and motorcycle clubs All this fun came at a price for some in the form of thousands of deaths in road accidents plane crashes on suburban housing and in the despoiling of the countryside through road development This book will be welcomed by academics and students working in suburban studies historical geography and interwar British history and can also be enjoyed by anyone interested in the history of London

The Geography of Interwar Britain Stephen V. Ward,2025-09-01 As the first geographical study of interwar Britain The Geography of Interwar Britain originally published in 1988 and now with a new preface by the author breaks new ground incorporating original research and new interpretations of the work of historians and others within a geographical frame of reference The central argument of the book is that the state in interwar Britain intensified uneven capitalist development State actions in many important fields including macro economic policy defence industrial rationalisation labour and unemployment policy local government and regional policy are analysed in detail These studies show that until the later 1930s state policies worked to the disadvantage of depressed outer Britain and favoured the more prosperous south and midlands However shifts in state policies were apparent as rearmament and changes in macro economic policies necessitated new approaches Significantly the first stages in the creation of what became the post 1945 political consensus were evident at this time particularly in regional and industrial location policy The book will be of interest to geographers economic and social historians political scientists sociologists and planners

The Worlds of Victor Sassoon Rosemary Wakeman,2024-07-12 An interpretative history of global urbanity in the 1920s and 1930s from the vantage point of Bombay London and Shanghai that follows the life of business tycoon Victor Sassoon In this book historian Rosemary Wakeman brings to life the frenzied crowded streets markets ports and banks of Bombay London and Shanghai In the early twentieth century these cities were at the forefront of the sweeping changes taking the world by storm as it entered an era of globalized commerce and the unprecedented circulation of goods people and ideas Wakeman explores these cities and the world they helped transform through the life of Victor Sassoon who in 1924 gained control of his powerful family's trading and banking empire She tracks his movements between these three cities as he grows his family's fortune and

transforms its holdings into a global juggernaut Using his life as its point of entry *The Worlds of Victor Sassoon* paints a broad portrait not just of wealth cosmopolitanism and leisure but also of the discrimination exploitation and violence wreaked by a world increasingly driven by the demands of capital Cataclysm David Stevenson,2009-03-25 David Stevenson s widely acclaimed history of World War I changes forever our understanding of that pivotal conflict Countering the commonplace assumption that politicians lost control of events and that the war once it began quickly became an unstoppable machine Stevenson contends that politicians deliberately took risks that led to war in July 1914 Far from being overwhelmed by the unprecedented scale and brutality of the bloodshed political leaders on both sides remained very much in control of events throughout According to Stevenson the disturbing reality is that the course of the war was the result of conscious choices including the continued acceptance of astronomical casualties In fluid prose Stevenson has written a definitive history of the man made catastrophe that left lasting scars on the twentieth century *Cataclysm* is a truly international history incorporating new research on previously undisclosed records from governments in Europe and across the world From the complex network of secret treaties and alliances that eventually drew all of Europe into the war through the bloodbaths of Gallipoli and the Somme to the arrival of American forces and the massive political economic and cultural shifts the conflict left in its wake *Cataclysm* is a major revision of World War I history London Bridget Cherry,Nikolaus Pevsner,2002-01-01 This volume on London architecture covers the boroughs of Barnet Camden Enfield Hackney Haringey and Islington It gives a view of London s expansion northward from formal Georgian squares to the hill towns of Hampstead and Highgate *London in the Twentieth Century* Jerry White,2009-11-10 Jerry White s *London in the Twentieth Century* Winner of the Wolfson Prize is a masterful account of the city s most tumultuous century by its leading expert In 1901 no other city matched London in size wealth and grandeur Yet it was also a city where poverty and disease were rife For its inhabitants such contradictions and diversity were the defining experience of the next century of dazzling change In the worlds of work and popular culture politics and crime through war immigration and sexual revolution Jerry White s richly detailed and captivating history shows how the city shaped their lives and how it in turn was shaped by them **Nights Out** Judith Walkowitz,2012-05-15 London s Soho district underwent a spectacular transformation between the late Victorian era and the end of the Second World War its old buildings and dark streets infamous for sex crime political disloyalty and ethnic diversity became a center of culinary and cultural tourism servicing patrons of nearby shops and theaters Indulgences for the privileged and the upwardly mobile edged a dangerous transgressive space imagined to be outside the nation Treating Soho as exceptional but also representative of London s urban transformation Judith Walkowitz shows how the area s foreignness and porousness were key to the explosion of culture and development of modernity in the first half of the twentieth century She draws on a vast and unusual range of sources to stitch together a rich patchwork quilt of vivid stories and unforgettable characters revealing how Soho became a showcase for a new cosmopolitan identity History of Modern Design Third

Edition David Raizman, 2023-08-31 This unparalleled and wide ranging book surveys the history of applied arts and industrial design from the eighteenth century to the present day exploring the dynamic relationship between design and manufacturing and the technological social and commercial contexts in which this relationship has developed In this extensively revised and expanded third edition David Raizman addresses international questions more fully with the addition of six Global Inspiration sections that examine the contributions of non Western traditions rendering the very notion of a national design debatable The text also pays closer attention to issues of gender race and climate change and their impact on design With over 580 illustrations mostly in colour History of Modern Design is an inclusive well balanced introduction to a field of increasing scholarly and interdisciplinary research and provides students in design with historical perspectives of their chosen fields of study

The Market Makers Peter Scott, 2017-09-15 During the twentieth century affluence both at the level of the individual household and that of society as a whole became intimately linked with access to a range of prestige consumer durables The Market Makers charts the inter war origins of a process that would eventually transform these features of modern life from being luxuries to necessities for most British families Peter Scott examines how producers and retailers succeeded in creating mass though not universal market for new suites of furniture radios modern housing and some electrical and gas appliances while also exploring why some other goods such as refrigerators telephones and automobiles failed to reach the mass market in Britain before the 1950s Creating mass markets presented a formidable challenge for manufacturers and retailers Consumer durables required large markets Most involved significant research and development costs Some such as the telephone radio and car were dependent on complementary investments in infrastructure All required intensive marketing usually including expensive advertising in national newspapers and magazines while some also needed mass production methods and output volumes to make them affordable to a mass market This study charts the pioneering efforts of entrepreneurs many of whom though once household names are now largely forgotten to provide consumer durables at a price affordable to a mass market and to persuade a sometimes reluctant public to embrace the new products and the consumer credit that their purchase required In doing so Scott shows that contrary to much received wisdom there was a consumer durables revolution in inter war Britain at least for certain highly prioritised goods

Labour in the Suburbs Michael Tichelar, 2023-05-04 This book is the first comprehensive economic social and political study of the London suburb of Croydon from 1900 up to the present day One of the largest London boroughs Croydon has always been a mixed residential suburb mainly private but with some municipal housing which has strongly influenced the nature of its political representation It was never just an affluent middle class suburb or bourgeoisie utopia as suggested by traditional definitions of suburbia and in popular imagination In economic terms

it was also an industrial suburb after 1918 It was then transformed into a vibrant post industrial service economy following rapid deindustrialisation and remarkable commercial and office redevelopment after 1960 In this respect Croydon is also an ex industrial suburb similar to many other outer London areas and other peripheral metropolitan areas Croydon s civic identity as a previously independent town on the outskirts of London remains unresolved to this day even as its political representatives seek to redefine the borough as a more independent Edge City Author Michael Tichelar examines this suburb by looking at the suburban development of London the changing politics of Croydon and policy issues during the twentieth century Labour in the Suburbs will be of interest to the general reader as well as students of modern British history with special interests in electoral sociology political representation and suburbanisation It provides a template against which to measure the process of suburbanisation in the UK and internationally
