The Making Of Tania Hearst:

The Making of Tania David Boulton, 1975 **The Making of Tania Hearst** David Boulton, 1975 The making of Tania Hearst looks beyond the official version of the Patty Hearst affair This is much more than a story of the kidnapping of a rich American girl and her conversion to the cause of her kidnappers though that story alone is sufficiently bizarre to deserve close attention Each member of the SLA has a story that demands understanding not least is that of the police spy who led America's first urban guerilla army until he was shot dead by his former police colleagues the action reported to watching America live on colour television Publisher's description rear jacket flap **The Mind of the Political Terrorist** Richard M. Pearlstein, 1991-07 The Budapest School of Psychoanalysis Arnold WM Rachman, 2016-06-10 The Budapest School of Psychoanalysis brings together a collection of expertly written pieces on the influence of the Budapest Ferenczi conception of analytic theory and practice on the evolution of psychoanalysis It touches on major figures S ndor Ferenczi and Michael Balint whilst concurrently considering topics such as Ferenczi's clinical diary the study of trauma the Confusion of Tongues paradigm and Balint's perspective on supervision Further to this the book highlights Jacques Lacan's teaching of Ferenczi which brings a fresh perspective to a relatively unknown connection between them The book highlights that the Hungarian analysts influenced by Ferenczi through their pioneering work developed a psychoanalytic paradigm which became an alternative to the Freudian tradition That this paradigm has become recognised and admired in its own right underlines the need to clearly outline as this book does the historical context and the output of those who are writing and working in the tradition of the Budapest School The contributions to this volume demonstrate the widespread and enduring influence of the Budapest School on contemporary psychoanalysis The contributors are amongst the foremost in Budapest School scholarship and the insights they offer are at once profound as well as insightful This book is an important read for those practitioners and students of psychoanalysis who wish for an insight into the early and developing years of the Budapest School of Psychoanalysis and its impact on contemporary clinical practice Bound and Determined Christopher Castiglia, 1996-02-15 Christopher Castiglia gives shape to a tradition of American women's captivity narrative that ranges across three centuries from Puritan colonist Mary Rowlandson's abduction by Narragansett Indians to Patty Hearst's kidnapping by the Symbionese Liberation Army Examining more than sixty accounts by women captives as well as novels ranging from Susanna Rowson's eighteenth century *Rueben and Rachel* to today's mass market romances Castiglia investigates paradoxes central to the genre In captivity women often find freedom from stereotypical role attributes of helplessness dependency sexual vulnerability and xenophobia In their condemnations of their non white captors they defy assumptions about race that undergird their own societies Castiglia questions critical conceptions of captivity stories as primarily an appeal to racism and misogyny and instead finds in them imaginative challenges to rigid gender roles and racial ideologies Whether the women of these stories resist or escape captivity endure until they are released or eventually choose to live among their captors they
