The Making Of The Creeds Scm Classics:

The Making of the Creeds Young Frances M, 2015-04-21 In lucid and non technical prose Young demonstrates how and why the two most familiar Christian creeds the Apostles Creed and the Nicene Creed came into being She aims to bring the creeds back to life again in the challenging and demanding contexts of contemporary life **Athanasius of Alexandria** Lois Farag, 2020-04-29 Athanasius of Alexandria a famous theologian and historical figure is quoted by many but known by few His famous dictum For he became human that we might be made god theopoi th men is explained within the context of his theology and spirituality The Introduction familiarizes the reader with Athanasius s writings and the historical context of his theology The reader will engage with the Athanasian language and thought that shaped the Christian understanding of the Trinity The reader also takes a journey through Athanasius s understanding of the human person created in the image of God and living the life of renewal The Introduction aims to guide the reader to a Christian theologian who had the courage to oppose emperors and bishops and to endure exiles and other threats because of his unwavering theological convictions

Heythrop Journal , 2003 A select book list appears quarterly **The Cambridge Companion to the Gospels** Stephen C. Barton, 2006-11-23 An introduction covering historical theological and ethical aspects of the gospels through the ages

The Story of Creeds and Confessions Donald Fairbairn, Ryan M. Reeves, 2019-10-01 Creeds and confessions throughout Christian history provide a unique vantage point from which to study the Christian faith To this end Donald Fairbairn and Ryan Reeves construct a story that captures both the central importance of creeds and confessions over the centuries and their unrealized potential to introduce readers to the overall sweep of church history The book features texts of classic creeds and confessions as well as informational sidebars **The Early Christian World** Philip F. Esler, 2002-09-11 Early Christian World presents an exhaustive erudite and lavishly illustrated treatment of how the small movement which formed around Jesus in Galilee became the pre eminent religion of the ancient world The work begins by firmly situating early Christianity within its Mediterranean social political and religious contexts before charting the history of the first Christian centuries The creation and perpetuation of Christian communities through various means including mission and monasticism is explored as is the everyday experience of early Christians through discussion of gender and sexuality religious practice communication and social structures The intellectual particularly theological and artistic heritage of the period is fully considered and a vivid picture painted of the internal and external challenges faced by early Christianity The book concludes with profiles of the most notable figures of the age Comprehensive and accessible Early Christian World provides up to date coverage of the most important topics in the study of early Christianity together with an invaluable collection of visual material It will be an indispensable resource for anyone studying this period *Shaped by God's Story: Making Sense of the Bible* Alan Le Grys, 2010-07-12 Study of the Bible in contemporary British society The Bible is often seen by Christians and non churchgoers as a handbook for Christian living Christian theology however also suggests that Bible reading is

transformative it changes people This study explores some empirical research to test this idea *The Leeds Liturgy* Raymond Creed, 2010 The Leeds Liturgy encourages Christians to worship God in spirit and in truth John 4:24 It does this by proclaiming scripture teaching in a unique and interactive manner An attempt is made to address the question How can we honour God in our worship It helps rebuild Christianity by providing a practical worship aid and a more thorough engagement with Bible doctrine By acting as a focus of unity this resource could also sustain Christians during what could be very difficult times of persecution and mass deception Specific sections are geared to helping Christians to discern the will of God by receiving and checking any guidance from the Holy Spirit Objective tests are provided in order to help in the assessment of spiritual occurrences Two articles at the end argue that bible based liturgies and creeds can be legitimate means of encountering God The British National Bibliography Arthur James Wells, 2003 *The Rule of Faith* Everett Ferguson, 2015-07-28 The rule of faith was a summary of apostolic preaching and teaching made by writers of the early Christian centuries As such it carries great importance for what the early church considered basic to its being and identity It was not a fixed text like a creed but varied in wording and content according to circumstances Yet despite this flexibility and diversity there is a clear Christ centered Trinitarian core at the heart of the rule shared by the early apostolic churches In this short guide Everett Ferguson introduces readers to the primary sources of our knowledge of the rule the variety of ways in which ancient Christian authors spoke of the rule and different scholarly attempts to interpret this ancient evidence Ferguson argues that statements of the rule of faith were used to instruct new or potential converts to combat false teachings and to provide a framework for interpreting the Scriptures He maintains that the rule retains considerable importance for churches of the twenty first century **The Making of the Creeds** Frances Margaret Young, 1991 This account of how classical Christian theology was formed has been put together in response to an invitation to provide a successor to Alan Richardson's *Creeds in the Making* It was felt that valuable though that book remains scholarship must have moved on since he wrote thirties It is true that new evidence and new ways of looking at old evidence have modified the story somewhat Yet the fundamental story and the main characters in it remain much the same What has changed is the perspective and shape of the book **Melodies of a New Monasticism** Craig Gardiner, 2018-03-09 The New Monastic Movement is a vibrant source of renewal for the church's life and mission Many involved in this movement have quoted Dietrich Bonhoeffer's conviction that the church must recover ancient spiritual disciplines if it is to effectively engage the powers that be *Melodies of a New Monasticism* adopts a musical metaphor of polyphony the combination of two or more lines of music to articulate the way that these early Christian virtues can be woven together in community Creatively using this imagery this book draws on the theological vision of Bonhoeffer and the contemporary witness of George MacLeod and the Iona Community to explore the interplay between discipleship doctrine and ethics A recurring theme is the idea of Christ as the cantus firmus the fixed song around which people perform the diverse harmonies of God in church and world including

worship ecumenism healing peace justice and ecology **Pregnancy and Birth** Karen O'Donnell, 2024-08-30 Pregnancy is a period of time that institutes great change in the lives of those who are pregnant Regardless of whether a pregnancy concludes with the birth of a live child or not there are experiences that are common for many people who are pregnant Yet as a site of theological reflection pregnancy is underrepresented This landmark book seeks to begin the conversation within theology about pregnancy the positive and negative experiences and the potential for pregnancy to be understood theologically Chapters consider a number of avenues in this exploration from early pregnancy loss to trauma in labour from adoption to the end of reproductive years at the onset of menopause Throughout this book seeks to understand the resources that theology brings to the experiences of pregnancy as well as the situations of oppression and underrepresentation that currently exist Allowing for intersections of race parenting childlessness and disability this book approaches pregnancy from different theological perspectives in order to complexify the theological response and engagement as well as produce constructive resources for both the academy and the church Contributors include Chine McDonald Julie Gittoes Margaret Kamitsuka and Rachel Muers *Alexander or Jesus?* William Broad, 2015-03-09 To many people the four Gospels are seen as biographies of Jesus of Nazareth who was declared by God to be his Son To many more these Gospels are works of theology incorporating the myths stories and legends surrounding a then little known young Jew who lived two thousand years ago This book explores the reasons why such a comparatively obscure person should be called Son of God soon after his death William Broad sets stories of Jesus against the backdrop of the religions of the time and shows how St Paul in Greece chose the mythical title son of a god for Jesus as being one that would attract the attention of his Gentile hearers and reveal his great significance However Broad notes that Jesus was not the first historical person to have been called a son of god Alexander the Great had been so titled 350 years before Alexander or Jesus explores stories of this remarkable king and shows that these tales significantly affected the way the Gospels declared the Divine Sonship of Jesus It further reveals that Jesus birth and his epiphany are not the unique events that many believe **Ways of Reading Scripture** Frances Young, 2018-05-03 This volume consists of previously published articles by Frances Young a scholar of early Christianity well known for her work Biblical Exegesis and the Formation of Christian Culture together with a few newly composed additions The studies collected here are concerned with the New Testament but their approach is often not in the modern historico critical mode Rather they bring new insight through being informed by the author's patristic specialism by methodological enquiries by her interest in doctrinal and theological reading and by exploration of the very nature and function of sacred scriptures The significance of this volume lies in the way it exemplifies the extraordinarily interesting changes which have taken place in biblical hermeneutics during the last 50 60 years Many of the essays could be useful not only to research specialists but to advanced undergraduates as well as clergy and preachers *Scripture, the Genesis of Doctrine* Frances M. Young, 2023-10-19 How did we get from Scripture to creed Historical criticism has revealed a gap between Scripture and

the mainstream doctrines that define Christianity today Not the least of these are the Trinity and two natures of Christ widely accepted since the fifth century but unfounded in historical readings of Scripture How did these dogmas become so integral to the faith in the first place Frances M Young tackles this monumental question in a culmination of decades of biblical and patristic research The first of two volumes exploring the emergence of doctrine in the early church Scripture the Genesis of Doctrine reframes the relationship between Scripture and doctrine according to the intellectual context of the first few centuries CE Young situates the early Christians biblical hermeneutic within the context of Greco Roman learning without espousing historical relativism Ultimately Young argues that the scriptural canon and the rule of faith emerged concurrently in the early Church and both were received as apostolic The perceived gap between the two may in fact be the product of our modern assumptions rather than an ancient reality Nuanced and ecumenical Scripture the Genesis of Doctrine explores early Christians biblical hermeneutic with an eye toward how we interpret the Bible today Young s magisterial study holds

widespread implications for not only patristics but also exegesis and systematic theology **Person and Work of Christ: Understanding Jesus** A T B McGowan, 2012-07-01 An exciting and challenging reflection on the person and work of Christ through the history of the doctrine with application to today s Christians in today s world This book is a fresh and exciting exercise in historical theology McGowan examines the gradual development over centuries of the church s understanding of the person and work of Jesus Christ assessed in the light of what the Scriptures have to say on the subject The book highlights the developing understanding together with the mistakes and heresies that forced the church into defining the truth about Christ more clearly The great debates are examined with unique insight and sensitivity and the debate is brought right up to the present day with application for the contemporary church *How to Read the Church Fathers* Adalbert Hamman, 1993 This latest addition to the How to Read series provides a basic introduction to the faith life and thought of the great theological pioneers from the first centuries of the church Ignatius of Antioch Irenaeus of Lyons Origen Gregory of Nyssa Hilary of Poitiers Augustine of Hippo and many others Like its companion volumes it contains texts maps chronological charts and illustrations and is a highly attractive introduction to an important and often neglected subject Adalbert Hamman is a Franciscan a patristic specialist who teaches in Rome and has pioneered in setting up groups all over France to study the church fathers *This Monastic Moment* John W. de Gruchy, 2021-07-28 Kairos refers to moments in chronological time when all hell is breaking loose and we are called to change our ways before we are dragged into the abyss Kairos is apocalyptic time and it is here and now Such is the time in which we need to listen again to St Benedict of Nursia Far too many of us Christians have either been seduced by the false values of the age and the spirit of Christian triumphalism or else have been attracted to gnostic forms of spirituality that provide a means of escape from reality and responsibility Any delay in responding to this kairos moment increases the danger that we fail to change our ways and grasp the opportunity God gives us to receive the coming kingdom in greater fullness now So St Benedict fifteen hundred years after he wrote his Rule

continues to tell us to listen wake up and run while there is still light This is a time for both contemplation and action prayer and doing justice a time for mystics and prophets to join hands and hearts for the sake of the world From the Prologue
