

## ***Cosmography via LifeLines: A Traumaturgy of Making Cures***

by JON MCKENZIE, BRYAN REYNOLDS, LEENY SACK, SAVIANA STANESCU

### **Abstract**

Our text rehearses a cosmic Deleuzian event: *LifeLines*, a multimedia performance under development by Transversal Theater. A kind of theory fiction and poetic gesture, *LifeLines* practices and theorizes a “metacosmology” or *cosmography* drawing on Deleuze and Guattari’s Dogon Egg, Guattari’s metamodelizing metamethod of recursive chaosmosis, their schizoanalytic incorporation of black holes and particle physics to theorize desiring-machines. The key move, we feel, begins with stacking Aristotle’s four causes ‘into’ Heidegger’s fourfold *mise en abyme* to crack the Cosmic Egg.

In this text we practice metamodelization as recursive chaosmosis, and thus its format is at odds with academic norms. Its thesis is cursed recursively and shows how self-referential autopoiesis gives way to allo-referential sympoesis, as telepathically sensed from Guatama Buddha to Donna Haraway. It takes too many positions while playing with positing itself. It is a collaborative, allobiographical creation about creativity in dark times: we name ourselves, as we are co-creating an event of cosmography using a schizoanalytic metamethod we call *traumaturgy*. The text and performance contribute to a *making cure* by forming a transversal desiring-machine or shared natality-gadget. We put skin in the game. The text is way too long and has lots of images of this universe and others, images traumaturgically rendered with Rashomon, Borgesian, and AI effects for future performance. It uses transmedia rhetorics to show and tell and move in ways logocentric books and articles actively avoid. It resists the digitality it celebrates. It takes seriously experimental cosmology, ontology, and theory and is thus out of this world, recursive itself, yet breaking off to show —

***THE BOOK OF LIFE & THE FASTING CURE*** Upton Sinclair, 2024-01-17 In *The Book of Life The Fasting Cure* Upton Sinclair details a groundbreaking exploration of health, diet, and self-improvement couched within the framework of early 20th century reformist thought. Sinclair adopts a narrative style that is both engaging and didactic, weaving personal anecdotes with practical advice on fasting and nutrition. The book encapsulates the zeitgeist of the Progressive Era, reflecting the rising interest in holistic health approaches amidst industrialization's threats to personal well-being. Sinclair's fervent advocacy for vegetarianism and fasting aligns with his broader thematic concerns about societal reform and individual empowerment, encouraging readers to reclaim their health from an increasingly mechanized environment. Upton Sinclair, renowned for his fearless critique of capitalism and class disparity, became an influential figure in American literature. His earlier work *The Jungle* exposed the harsh realities of the meatpacking industry, highlighting his lifelong commitment to social justice and public health. Sinclair's exploration of fasting as a remedy for modern ailments stems from his own health struggles and a profound belief in the power of personal agency in the face of societal pressures. This remarkable work is a must-read for anyone interested in health, wellness, and the intertwining of personal choices with societal health. Sinclair's insightful arguments and practical guidance on fasting serve not only as a path to physical well-being but also as a call to consciousness about our lifestyles. Readers seeking both a provocative critique of modern eating habits and a practical guide to personal health will find exquisite value in Sinclair's vision.

***Never Enough: The Story of The Cure*** Jeff Apter, 2009-11-05 The Cure emerged in the post-punk 70s and defied all expectations to launch a marathon career marked by hit records and a string of sell-out arena shows. In 2004, after numerous personnel changes, the band delivered their Greatest Hits album. This biography traces the roots in middle-class Crawley, Sussex, and tracks their gradual rise, revealing how their first major album *Pornography* almost ended the band well before their multi-platinum career began. It also documents Smith's escape into the Siouxsie & the Banshees camp during the Eighties, his experimentation with every drug, bar, and smack. His reluctance to return to The Cure, which would eventually lead to them becoming superstars not only on both sides of the Atlantic but all around the globe. Jeff Apter is an Australian-based music writer who has been reporting on popular culture for the past 15 years. He spent five years as the Music Editor at Australian Rolling Stone. This is his third book, the first two being on The Red Hot Chili Peppers, published by Omnibus Press and Silverchair. Paperback edition.
