A Refutation of Positivism in Philosophy of Mind Pieter A.M. Seuren, 2023-05-05 This book argues that positivism though now the dominant paradigm for both the natural and the human sciences is intrinsically unfit for the latter In particular it is unfit for linguistics and cognitive science where it is ultimately self destructive since it fails to account for causality while the mind the primary object of research of the human sciences cannot be understood unless considered to be an autonomous causal force Author Pieter Albertus Maria Seuren who died shortly after this manuscript was finished and after a remarkable career reviews the history of this issue since the seventeenth century He focuses on Descartes Leibniz British Empiricism and Kant arguing that neither cognition nor language can be adequately accounted for unless the mind is given its full due This implies that a distinction must be made following Alexius Meinong but against Russell and Quine between actual and virtual reality The latter is a product of the causally active mind and a necessary ingredient for the setting up of mental models without which neither cognition nor language can function Mental models are coherent sets of propositions and can be wholly or partially true or false Positivism rules out mental models blocking any serious semantics and thereby reducing both language and cognition to caricatures of themselves Seuren presents a causal theory of meaning linking up language with cognition and solving the old question of what meaning actually amounts to Key Features Provides a fundamental reassessment of the methodology of the humanities Makes a distinctive contribution to the conceptual foundations of linguistics and philosophy of mind Explores the philosophical and historical origins of central developments in the human sciences in the past 100 years Offers a new approach to ontology and epistemology in the scientific study of the creative human mind and its products

The National Magazine ,1855 *The Selected Works of George Alfred Henty* George Alfred Henty, You may be told perhaps that there is no good to be obtained from tales of fighting and bloodshed that there is no moral to be drawn from such histories Believe it not War has its lessons as well as Peace You will learn from tales like this that determination and enthusiasm can accomplish marvels that true courage is generally accompanied by magnanimity and gentleness and that if not in itself the very highest of virtues it is the parent of almost all the others since but few of them can be practiced without it The courage of our forefathers has created the greatest empire in the world around a small and in itself insignificant island if this empire is ever lost it will be by the cowardice of their descendants At no period of her history did England stand so high in the eyes of Europe as in the time whose events are recorded in this volume A chivalrous king

and an even more chivalrous prince had infected the whole people with their martial spirit and the result was that their armies were for a time invincible and the most astonishing successes were gained against numbers which would appear overwhelming The victories of Cressy and Poitiers may be to some extent accounted for by superior generalship and discipline on the part of the conquerors but this will not account for the great naval victory over the Spanish fleet off the coast of Sussex a victory even more surprising and won against greater odds than was that gained in the same waters centuries later over the Spanish Armada The historical facts of the story are all drawn from Froissart and other contemporary historians as collated and compared by Mr James in his carefully written history They may therefore be relied upon as accurate in every important particular

Shock Therapy S. Ghose, 2001 Subodh Ghose's stories are marked by a strong vigorous narrative style and a lively universe of people and places drawn from the writer's formidable range of life experiences This collection of translations into English presents a number of his better known stories
