The main driving force behind the transition to state societies was the monopolization of legitimate violence but the use of literacy made a difference as well By writing down oral laws and by increasingly resorting to writing in traditionally oral judicial procedures the state gradually gained control of institutionalized social practices with a minimum of legitimate violence Written laws made social norms more precise and easier to change a necessity in an increasingly complex society Writing also strengthened social cohesion by creating common religious rituals procedures and narratives Written accounts made taxation more stable and therefore seem more just and acceptable The basic social transformations of the period cannot be attributed to increasing literacy alone But the written word rendered the reorganization of society in Scandinavia more peaceful and gradual strengthened social conformity and cohesion Catalog of Copyright Entries, Third Series Library of Congress.
