Imagology Manfred Beller, Joseph Theodoor Leerssen, 2007 How do national stereotypes emerge To which extent are they determined by historical or ideological circumstances or else by cultural literary or discursive conventions This first inclusive critical compendium on national characterizations and national cultural or ethnic stereotypes contains 120 articles by 73 contributors Its three parts offer 1 a number of in depth survey articles on ethnic and national images in European literatures and cultures over many centuries 2 an encyclopedic survey of the stereotypes and characterizations traditionally ascribed to various ethnicities and nationalities and 3 a conspectus of relevant concepts in various cultural fields and scholarly disciplines The volume as a whole as well as each of the articles has extensive bibliographies for further critical reading *Imagology* is intended both for students and for senior scholars facilitating not only a first acquaintance with the historical development typology and poetics of national stereotypes but also a deepening of our understanding and analytical perspective by interdisciplinary and comparative contextualization and extensive cross referencing

The Unknown Europe James R. Payton Jr., 2021-11-03 The fascinating history of Eastern Europe includes highs of soaring cultural achievement and lows of almost unimaginable repression But we in the West don't know much about Eastern Europe or its history this book helps us see why We got interested when the region became a threat during the Cold War but what we learned focused on the Communist period after World War II not Eastern Europe itself or its deep history a history that continues to live in the hearts of its peoples James Payton offers an accessible treatment of the history of the region an opportunity to learn about Eastern Europeans as they are He overviews that story from pre history to the present examining eleven turning points that profoundly shaped Eastern European history His treatment considers the backgrounds to the turning points the events and the long lasting impacts they had for the various Eastern European nations This helps us understand how Eastern Europeans themselves see their history the long haul over the centuries with the influence and impact of events of the sometimes distant past shaping how they see themselves their neighbors and their place in the world

Civil Society, Pluralism, and Universalism Eugeniusz Górski, 2007 Canadian-American Slavic Studies, 1994 A quarterly journal devoted to Russia and East Europe **Euro-orientalism** Ezequiel Adamovsky, 2006 Drawing from a range of critical perspectives in particular postcolonial this book examines the relationship between perceptions of Russia and of Eastern Europe and the making of a Western identity It explores the ways in which the perception of certain characteristics of Russia and Eastern Europe whether real or attributed was shaped by and used for the construction of a liberal narrative of the West which eventually became dominant The focus of this inquiry is French culture from the beginning of the debate about Russia among the philosophes c 1740 to the consolidation of a professional field of Slavic studies c 1880 A wide range of writing literature travel accounts histories political tracts scientific journals and parliamentary debates is examined

through the work of major authors from Montesquieu Diderot and Rousseau to Tocqueville de Maistre and Guizot from Mme de Sta l Hugo and Balzac to Dumas Michelet and Comte as well as that of many less well known figures The book also explores possible continuities between those first academic accounts of Russia and Eastern Europe and present day scholarship in Europe and the USA to show that the liberal ideological accounts constructed in the nineteenth century still to a great extent inform contemporary academic studies

Political Landscapes of Capital Cities Jessica Joyce Christie,Jelena Bogdanovic,Eulogio Guzmán,2016-08-08 Political Landscapes of Capital Cities investigates the processes of transformation of the natural landscape into the culturally constructed and ideologically defined political environments of capital cities In this spatially inclusive socially dynamic interpretation an interdisciplinary group of authors including archaeologists anthropologists and art historians uses the methodology put forth in Adam T Smith s The Political Landscape Constellations of Authority in Early Complex Polities to expose the intimate associations between human made environments and the natural landscape that accommodate the sociopolitical needs of governmental authority Political Landscapes of Capital Cities blends the historical political and cultural narratives of capital cities such as Bangkok Cusco Rome and Tehran with a careful visual analysis hinging on the methodological tools of not only architectural and urban design but also cultural historiographical and anthropological studies The collection provides further ways to conceive of how processes of urbanization monumentalization ritualization naturalization and unification affected capitals differently without losing grasp of local distinctive architectural and spatial features The essays also articulate the many complex political and ideological agendas of a diverse set of sovereign entities that planned constructed displayed and performed their societal ideals in the spaces of their capitals ultimately confirming that political authority is profoundly spatial Contributors Jelena Bogdanovi Jessica Joyce Christie Talinn Grigor Eulogio Guzm n Gregor Kalas Stephanie Pilat Melody Rod ari Anne Toxey Alexei Vranich

The South Slav Conflict Raju G.C Thomas,H. Richard Frim,2021-12-12 First Published in 1996 In identifying the causes of such a national and international failure in conflict management The South Slav Conflict becomes a valuable case study in comparative politics and international relations Edited by Raju G C Thomas and H Richard Frim and is unique among these by virtue of its thoroughly interdisciplinary approach to the causes and consequences of the war The book s great strength begins with its forthright assertion that no serious attempt to explain the current cycle of genocide and revenge among Serbs Croats and Bosnians can avoid the

inherent complexity of the factors that transformed Yugoslavia from one of the most pluralist of European communist states into a theater of human misery

Historical View of the Languages and Literature of the Slavic Nations Talvj, 1850 "Sounds of the Soul" Paul Victor Christiansen, 2002

Historical View of the Languages and Literature of the Slavic Nations Talvj, 2022-05-29

In *Historical View of the Languages and Literature of the Slavic Nations* Talvj offers a comprehensive analysis of the linguistic and literary heritage of the Slavic peoples. With a focus on the evolution of their languages, this work illustrates the deep cultural and historical contexts that have shaped Slavic literature. Talvj's literary style is characterized by meticulous research and an accessible narrative that weaves together complex linguistic theories with illustrative literary examples, situating the Slavic literary tradition within broader European literary movements and historical developments. This scholarly examination contributes significantly to the understanding of the unique identities and shared heritage of the Slavic nations, highlighting their interconnections and distinctiveness in the European context. Talvj, a pioneering figure in Slavic studies, was profoundly influenced by her multilingual upbringing and scholarly pursuits. As a woman in the 19th century, her dedication to the study of Slavic languages and literature was extraordinary, enabling her to bridge cultural divides. Her travels across Slavic regions and her interactions with native speakers provided her with firsthand insights, which are richly reflected in this work. Talvj's passion for these cultures shines through her scholarly rigor and her aim to elevate an often underappreciated literary tradition. I highly recommend *Historical View of the Languages and Literature of the Slavic Nations* to anyone interested in Slavic culture, linguistics, and literature. This book serves not only as an academic reference but also as an invitation to explore the rich tapestry of Slavic literary traditions. It is essential reading for scholars, students, and enthusiasts of world literature who seek a deeper understanding of the Slavic narrative and its impact on the European literary landscape.

Historical View of the Language and Literature of the Slavic Nations Talvj, 1850. The present work is founded on an essay which appeared in the *Biblical Repository* for April and July 1834, then conducted by the undersigned. The essay was received with favour by the public and awakened an interest in many minds as laying open a new field of information hitherto almost inaccessible to the English reader. A few copies were printed separately for private distribution. Some of these were sent to literary men in Europe, and several scholars of high name among those acquainted with Slavic literature expressed their approval of the work. Since that time, and even of late inquiries have repeatedly been made by scholars and by public libraries in Europe for copies of that little treatise, which of course it was impossible to satisfy. These circumstances together with the fact that in these years public attention has been more prominently directed to the character and prospects of the Slavic nations have induced the author to recast the work and to lay it anew before the public, corrected, enlarged, and continued to the present time as a brief contribution to our knowledge of the intellectual character and condition of those nations in the middle of the nineteenth century.
