Disability Studies Quarterly ,1997 *Forthcoming Books* Rose Arny,1997 **Masters of Jazz Saxophone** Tony Bacon,Dave Gelly,2000-12 Book With over 100 color photos and insightful essays written by world class jazz authorities this book illustrates the saxophone s role in jazz from its earliest 1920s roots through today It describes how the sound of jazz has been shaped in the hands of Coleman Hawkins Lester Young Charlie Parker John Coltrane Branford Marsalis Sonny Rollins and many other legendary saxophonists in varying styles It also includes a comprehensive guide to the finest recordings featuring jazz saxophone **Mainstreaming Torture** Rebecca Gordon,2014 The terrorist attacks of September 11 2001 reopened what many Americans had assumed was a settled ethical question Is torture ever morally permissible Rebecca Gordon argues that institutionalized state torture remains as wrong today as it was before those terrible attacks and shows how U S practices during the war on terror are rooted in a history that includes support for torture regimes abroad and for the use of torture in the jails and prisons of this country **Mainstream** ,1997 **Marginal to Mainstream** Mary Ruggie,2004-04-08 Millions of Americans are using complementary and alternative medicine and spending billions of dollars out of pocket for it Why Do the therapies work Are they safe Are any covered by insurance How is the medical profession responding to the growing use of therapies that were only recently thought of as quackery These are some of the many questions asked and answered in this book It describes a transformation in the status of alternative medicine within health care Paving the way toward legitimacy is research currently underway and funded by the National Institutes of Health This research is proving the safety and efficacy of certain therapies and the harm or inefficacy of others While some therapies will remain alternative to conventional medicine others are becoming complementary and still others are busting the boundaries and contributing to a new approach to health and healing called integrative medicine *Unfree Masters* Matt Stahl,2013 In *Unfree Masters* Matt Stahl examines recording artists labor in the music industry as a form of creative work He argues that the widespread perception of singers and musicians as free individuals doing enjoyable and fulfilling work obscures the realities of their occupation **Masters of the Pearl** Michael Quentin Morton,2020-09-03 Qatar is a country of spectacular contrasts from pearl fishing its main industry until the 1930s to gas and oil which generate immense wealth today to famously being at the center of both triumph and controversy in recent years for hosting the 2022 FIFA World Cup Almost a lifetime since he grew up in Qatar Michael Quentin Morton writes about the country s colorful past and its astonishing present The book is filled with stories about the people of this land the tribes and the travelers the seafarers and slaves as much a part of Qatar s history as its rulers and their wealth The opaque Arabian world guards its secrets well but *Masters of the Pearl* penetrates the veil to shed light on a country that until now has defied explanation *Electing Our Masters* Jon Lawrence,2009-03-26 In this engagingly written history of electioneering in Britain from the eighteenth century to the present Jon Lawrence explores the changing relationship between politicians and public Throughout this period he argues

British politics has been characterized by bruising public rituals intended to bestow legitimacy on politicians by obliging them to face an often irreverent public on broadly equal terms Face to face interaction was central both to the disorderly civic rituals of eighteenth century politics and to the Victorian and Edwardian election meeting Perhaps surprisingly it also survived in pretty rude health between the wars despite the emergence of the new mass communication media of radio and cinema But the same cannot be said of the post war era and the rise of television Today most politicians are content merely to offer the semblance of meaningful engagement walkabouts canvassing and meetings are all designed to ensure that most senior politicians come into contact only with the smiling faces of that dwindling band the party faithful Lloyd George and Churchill might have relished the rough and tumble of a tumultuous public meeting but their modern counterparts tend to be more risk averse and not without reason given that the cameras are always present to capture their mishaps But this is not another nostalgic lament for a lost golden age On the contrary Electing Our Masters argues that politicians frequently still crave the kudos to be derived from bruising encounters with an irreverent public hence Tony Blair s so called masochism strategy in the 2005 election campaign with its succession of gruelling sessions before live studio audiences As Lawrence points out the vital question for today is can we persuade our broadcasters that such encounters must form a staple of modern mediated politics

Masters of Light Dennis Schaefer, Larry Salvato, 2013-01-19 Through conversations held with fifteen of the most accomplished contemporary cinematographers the authors explore the working world of the person who controls the visual look and style of a film This reissue includes a new foreword by cinematographer John Bailey and a new preface by the authors which bring this classic guide to cinematography in print for more than twenty five years into the twenty first century
