Snow Walkers Companion:

Snow Walker's Companion Garrett Conover, Alexandra Conover, 1994 In these last wildlands of North America the nomadic indigenous people have perfected ways of living and traveling in winter using elegant and sophisticated snowshoes toboggans and sleds that make it possible for trekkers to carry heavy weights wood stoves wall tents and real food with far less effort than with the ultralight backpacking equipment more often associated with the winter camper This important book brings the skills and philosophy of the snow walkers of the north woods to a new generation of outdoorspeople and shows today's wilderness traveler how to adopt these Native American techniques and enjoy winter in a comfort nothing short of extraordinary

Public Vision, Private Lives Mark Sydney Cladis, 2007 Mark S Cladis pinpoints the origins of contemporary notions of the public and private and their relationship to religion in the work of Jean Jacques Rousseau His thesis cuts across many fields and issues philosophy of religion women's

studies democratic theory modern European history American culture social justice privacy laws and notions of solitude and community and wholly reconsiders the political cultural and legal nature of modernity in relation to religion Turning to Rousseau's *Garden of the Solitaires* and the question of restoration and redemption that preoccupied much of Rousseau's thought Cladis examines how Rousseau addressed the tension between the joys and moral obligations of social engagement and the desire for solitude He was caught between two possibilities active involvement in the creation of an enlightened and humane society or extrication from social entanglements in favor of cultivating a spiritual interior life Yet Rousseau did not view this conflict as a desperate division Rather for him it was a moral struggle to be endured by those who had fallen from the Garden For this edition Cladis has added a substantive introduction that discusses the role of religion in contemporary democratic societies particularly in American public life Cladis proposes four models of thinking about religion in public and champions what he calls spiritual democracy a dynamic culturally specific and progressive democracy Cladis argues that spiritual democracy refers not only to a society's legal codes and principles but also to its democratic culture and symbols and its daily practices and institutions It encompasses the nation's character diverse identities and a distinctive exchange between the nation's public vision and citizens' complex private lives *Sasquatch Unleashed* Brian
