Women and the Informal Economy in Urban Africa Mary Njeri Kinyanjui,2014-06-12 In this highly original work Mary Njeri Kinyanjui explores the trajectory of women s movement from the margins of urbanization into the centres of business activities in Nairobi and its accompanying implications for urban planning While women in much of Africa have struggled to gain urban citizenship and continue to be weighed down by poor education low income and confinement to domestic responsibilities due to patriarchic norms a new form of urban dynamism partly informed by the informal economy is now enabling them to manage poverty create jobs and link to the circuits of capital and labour Relying on social ties reciprocity sharing and collaboration women s informal solidarity entrepreneurialism is taking them away from the margins of business activity and catapulting them into the centre Bringing together key issues of gender economic informality and urban planning in Africa Kinyanjui demonstrates that women have become a critical factor in the making of a postcolonial city

African Markets and the Utu-Ubuntu Business Model Kinyanjui, Mary Njeri,2019-03-06 The persistence of indigenous African markets in the context of a hostile or neglectful business and policy environment makes them worthy of analysis An investigation of Afrocentric business ethics is long overdue Attempting to understand the actions and efforts of informal traders and artisans from their own points of view and analysing how they organise and get by allows for viable

approaches to be identified to integrate them into global urban models and cultures Using the utu ubuntu model to understand the activities of traders and artisans in Nairobi s markets this book explores how despite being consistently excluded and disadvantaged they shape urban spaces in and around the city and contribute to its development as a whole With immense resilience and without discarding their own socio cultural or economic values informal traders and artisans have created a territorial complex that can be described as the African metropolis African Markets and the Utu buntu Business Model sheds light on the ethics and values that underpin the work of traders and artisans in Nairobi as well as their resilience and positive impact on urbanisation This book makes an important contribution to the discourse on urban economics and planning in African cities

International Handbook of Urban Education William T. Pink,George W. Noblit,2008-09-03 It is evident that urban education has become the central focus of educators at the present time In the U S for example almost one third of all school age children attend schools in large urban school districts It is in these urban schools where the diversity of cultures and languages is highest and where student learning is most problematic What has emerged from recent work to improve urban schools is the insight that there is no one size fits all panacea Rather

we have discovered that the local context shapes in critically important ways what will be effective at the school level The universality of the problematics with urban education together with the importance of understanding the local or situated context of improvement interventions brings into sharp focus the importance and timeliness of an undertaking like the International Handbook of Urban Education An important focus of the International Handbook of Urban Education will be the interrogation of both the social and political factors that lead to different problem posing and subsequent solutions within each region An important question to be answered for example is what it takes in terms of resources political will and policy actions to improve urban education

Reconsidering Informality Karen Tranberg Hansen, Mariken Vaa, 2004 This book brings together two bodies of research on urban Africa that have tended to be separate studies of urban land use and housing and studies of work and livelihoods Africa's future will be increasingly urban and the inherited legal institutional and financial arrangements for managing urban development are inadequate Access to employment shelter and services is precarious for most urban residents The result is the phenomenal growth of the informal city Extra legal housing and unregistered economic activities proliferate and basic urban services are increasingly provided informally Recent decades of neo liberal political and economic reforms have increased social inequality across urban space After an introductory chapter by the editors the contributions are grouped into the following sections LOCALITY PLACE AND SPACE ECONOMY WORK AND LIVELIHOODS LAND HOUSING AND PLANNING The case studies are drawn from a diverse set of cities on the African continent A central theme is how practices that from an official standpoint are illegal or extra legal do not only work but are considered legitimate by the actors concerned Another is how the informal city is not exclusively the domain of the poor but also provides shelter and livelihoods for better off segments of the urban population

African Masculinities L. Ouzgane, R. Morrell, 2005-03-15 While masculinity studies enjoys considerable growth in the West there is very little analysis of African masculinities This volume explores what it means for an African to be masculine and how male identity is shaped by cultural forces The editors believe that to tackle the important questions in Africa the many forms of violence wars genocides familial violence and crime and the AIDS pandemic it is necessary to understand how a combination of a colonial past patriarchal cultural structures and a variety of religious and knowledge systems creates masculine identities and sexualities The work done in the book particularly bears in mind how vulnerability and marginalization produce complex forms of male identity The book is interdisciplinary and is the first in depth and comprehensive study of African men as a gendered category

Pan Africanist Working Class Cultural Critical Perspectives Julian Kunnie, 2018-02-23 Is Apartheid Really Dead Pan Africanist Working Class Cultural Critical Perspectives is an engaging and incisive book that radically challenges the widespread view that post apartheid society is a liberated society specifically for the Black working class and rural peasant populations Julian Kunnie s central contention in this book is that the post apartheid government was the product of a serious compromise between the former ruling white led Nationalist Party and the African National Congress resulting in a continuation of the erstwhile system of monopoly capitalism and racial privilege albeit revised by the presence of a burgeoning Black political and economic elite The result of this historic compromise is the persistent subjugation and impoverishment of the Black working class by the designs of global capital as under apartheid this time managed by a Black elite in collaboration with the powerful white capitalist establishment in South Africa Is Apartheid Really Dead engages in a comprehensive analysis of the South African conflict and the negotiated settlement of apartheid rule and explores solutions to the problematic of continued Black oppression and exploitation Rooted in a Black Consciousness philosophical framework unlike most other works on post apartheid South Africa this book provides a carefully delineated history of the South African struggle from the pre colonial era through the present What is additionally distinctive is the author s reference to and discussion of the Pan Africanist

movement in the global struggle for Black liberation highlighting the aftermath of the 1945 Pan African meeting in Manchester The author analyzes the South African struggle within the context of Pan Africanism and the continent wide movement to rid Africa of colonialism s legacy highlighting the neo colonial character of much of Africa s post independence nations arguing that South Africa has followed similar patterns One of the attractive qualities of this book is that it discusses correctives to the perceived situation of neo colonialism in South Africa by delving into issues of gender oppression and the primacy of women s struggle working class exploitation and Black worker mobilization environmental despoliation and indigenous religio cultural responses and educational disenfranchisement and the need for radically new structures and policies in educational transformation Ultimately *Is Apartheid Really Dead* postulates revolutionary change as a solution undergirded with all of the aforementioned ingredients While anticipating and articulating a revolutionary socialist vision for post apartheid South Africa this book is tempered by a realistic appraisal of the dynamics of the global economy and the legacy of colonial oppression and capitalism in South Africa
