Love, Sexuality, and Matriarchy Erich Fromm, 2024-02-27 A fascinating collection of essays on the complicated relations between men and women from the New York Times bestselling author of *The Art of Loving* The New York Times Book Review The renowned social psychologist delves deep into the fraught relationship between genders drawing upon the influential insights of Bachofen Freud Marx and Briffault Not primarily interested in the existence of anatomical and biological differences between the sexes Fromm instead analyzes how these differences have been made use of throughout human history Drawing from Bachofen's *Mother Right* Fromm expounds on how matriarchal and patriarchal social structures determine relations between the sexes in essential ways and how they are shaped by the dominant orientation of the social character at any given time He posits that the most important question concerning gender relations is which characterological orientation determines human relationships love or hate love of life or fascination with force Thus it will not be gender conflict that will determine humanity's future but whether we opt for love of life or love of death As these essays show Fromm was a wide ranging thinker whose writings sometimes manifested brilliant insights or practical wisdom Kirkus Reviews
