Social Circulation Of The Past English Historical Culture 1500 173:

The Social Circulation of the Past Daniel R. Woolf, 2003 Woolf details here the ways in which English men and women first became seriously aware of and interested in their own and the world's past Previous works have focused exclusively on the writings of a small minority of historians yet through using a variety of manuscript and printed sources this study examines the wider historical culture within which historical and antiquarian studies could emerge **English Historical Drama, 1500-1660** Barbara Ravelhofer, 2007-12-04 Many readers today associate the early modern history play with Shakespeare While not wishing to ignore the influence of Shakespeare this collection of essays explores other historical drama between 1500 and 1660 covering a wide range of different formats An introduction provides a survey of current criticism exploring both early modern and contemporary definitions of the history play Individual essays in chronological order discuss a wide variety of possible sources for historical drama ranging from oral traditions to chronicles They also explore genres outside the canon which think of history in different ways such as shows moralities and closet drama

Early Modern Genres of History Emil Nicklas Johnsen, Ina Louise Stovner, 2024-05-02 Bringing together an international group of literary scholars intellectual historians and cultural historians this book discusses history in its various forms either as texts or images in the early modern period 1500 1800 Early Modern Genres of History explores different genres and representational modes regarded as history before history became a scientific discipline during the nineteenth century It does not seek to show how the modern discipline of history as an academic study developed but rather to examine the ways in which historical texts and images became part of a wider field of early modern knowledge formations This volume demonstrates how history was connected to the developments in the public sphere how antiquarian historians used genres in their work how history evolved and functioned in the visual field and how historical genres travelled across different contexts Overall Early Modern Genres of History reveals how the diversity of historical representations in the early modern period has contributed to the broader foundations of history as it is understood in the twenty first century This volume is of great use to upper level undergraduates postgraduates and scholars interested in early modern Europe and the history of knowledge across both the history and literature disciplines The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons CC BY 4.0 license **Cultural Reformations**

Brian Cummings, James Simpson, 2010-06-24 The deepest periodic division in English literary history has been between the medieval and the early modern Cultural Reformations initiates discussion on many fronts in which both periods look different in dialogue with each other **Imagining Time in the English Chronicle Play** Marissa Nicosia, 2023-09-15 Imagining Time in the English Chronicle Play Historical Futures 1590 1660 argues that dramatic narratives about monarchy and succession codified speculative futures in the early modern English cultural imaginary This book considers chronicle plays plays written for the public stage and play pamphlets composed when the playhouses were closed during the civil wars in

order to examine the formal and material ways that playwrights imagined futures in dramatic works that were purportedly about the past Through close readings of William Shakespeare's 1 2 Henry IV Richard III Shakespeare's and John Fletcher's All is True Samuel Rowley's When You See Me You Know Me John Ford's Perkin Warbeck and the anonymous play pamphlets The Leveller's Levelled 1 2 Craftie Cromwell Charles I and Cromwell's Conspiracy the volume shows that imaginative treatments of history in plays that are usually associated with the past also had purchase on the future While plays about the nation's past retell history these plays are not restricted by their subject matter to merely document what happened Playwrights projected possible futures in their accounts of verifiable historical events **The Material Letter in Early**

Modern England J. Daybell, 2012-04-24 The first major socio cultural study of manuscript letters and letter writing practices in early modern England Daybell examines a crucial period in the development of the English vernacular letter before Charles I's postal reforms in 1635 one that witnessed a significant extension of letter writing skills throughout society

Sociable Knowledge Elizabeth Yale, 2016-02-02 Sociable Knowledge reconstructs the collaborations of seventeenth century naturalists who dispersed across city and country worked through writing conversation and print to convert fragmented knowledge of the hyper local and curious into an understanding and representation of Britain as a unified historical and geographical space **British Travellers and the Encounter with Britain, 1450-1700** John Cramsie, 2015 Encounters with a multicultural Britain in the Tudor and Stuart periods written with an eye to debates about immigration and ethnicity in today's Britain This book recovers the encounter with a multicultural Britain by British travellers in the Tudor and Stuart periods When William Camden writing in the sixteenth century set out to write the history of Britannia he deliberately took to the roads to discover it first hand and those diverse cultures guided and informed his journeys Here John Cramsie offers original perspectives on Camden's multicultural Britain through the study of British travellers and their narratives We meet characters such as the Tudor traveller John Leland who intended to tell the peoples of England and Wales about themselves chronicle how they came to settle the towns villages valleys and mountaintops they called home record the marks they left in the landscape and celebrate the noble histories and cultures they created Dozens eventually hundreds of Britons shared the same passion to meet their island neighbours and relate their experiences The individuals

studied in this book include actual as well as armchair travellers and those who blurred the boundaries between them Their letters diaries journals and histories range from the epic poignant and matter of fact to the exotic preposterous and hateful the sources include actual and imaginative narratives and those which combined both elements Travellers painted Britain with in Leland s words native colours that were rich vibrant and above all complex Their remarkable journeys are the story of how Britons over two centuries met interacted and attempted or not to understand one another Written with an eye to debates about immigration and ethnicity in today s Britain the book emphasizes the long history of making and remaking the island s cultural mosaic The encounter with Britain s native colours has been a burden of history and opportunity formillennia not simply for our own times JOHN CRAMSIE is Associate Professor Department of History Union College NY

Printing the Middle Ages Sian Echard, 2013-09-25 In *Printing the Middle Ages* Si n Echard looks to the postmedieval postmanuscript lives of medieval texts seeking to understand the lasting impact on both the popular and the scholarly imaginations of the physical objects that transmitted the Middle Ages to the English speaking world Beneath and behind the foundational works of recovery that established the canon of medieval literature she argues was a vast terrain of books scholarly or popular grubby or beautiful widely disseminated or privately printed By turning to these we are able to chart the differing reception histories of the literary texts of the British Middle Ages For Echard any reading of a medieval text whether past or present amateur or academic floats on the surface of a complex sea of expectations and desires made up of the books that mediate those readings Each chapter of *Printing the Middle Ages* focuses on a central textual object and tells its story in order to reveal the history of its reception and transmission Moving from the first age of print into the early twenty first century Echard examines the special fonts created in the Elizabethan period to reproduce Old English the hand drawn facsimiles of the nineteenth century and today s experiments with the digital reproduction of medieval objects she explores the illustrations in eighteenth century versions of *Guy of Warwick* and *Bevis of Hampton* she discusses nineteenth century children s versions of the *Canterbury Tales* and the aristocratic transmission history of John Gower s *Confessio Amantis* and she touches on fine press printings of Dante Froissart and Langland
