Wisconsin Library Bulletin ,1923 **Catalog: Catalog of books.-v.3-6.Special indexing file** Denver Public Library. Conservation Library,1974 "An Insect View of Its Plain" Rosemary Scanlon McTier,2013-02-01 During the nineteenth century insects became a very fashionable subject of study and the writing of the day reflected this popularity However despite an increased contemporary interest in ecocriticism and cultural entomology scholars have largely ignored the presence of insects in nineteenth century literature This volume addresses that critical gap by exploring the cultural and literary position of insects in the work of Henry David Thoreau Emily Dickinson and John Muir It examines the beliefs these authors share about the nature of our connection to insects and what insects have to teach about creation and our place in it

An important contribution to both ecocriticism and literary entomology this work contributes much to the understanding of Thoreau Dickinson and Muir as nature writers natural scientists entomologists and botanists and their intimate and highly spiritual relationships with nature **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office,1974 **John Muir's Last Journey** John Muir,2013-04-10 I am now writing up some notes but when they will be ready for publication I do not know It will be a long time before anything is arranged in book form These words of John Muir written in June 1912 to a friend proved prophetic The journals and notes to which the great naturalist and environmental figure was referring have languished unpublished and virtually untouched for nearly a century Until now Here edited and published for the first time John Muir s travel journals from 1911 12 along with his associated correspondence finally allow us to read in his own words the remarkable story of John Muir s last great journey Leaving from Brooklyn New York in August 1911 John Muir at the age of seventy three and traveling alone embarked on an eight month 40 000 mile voyage to South America and Africa The 1911 12 journals and correspondence reproduced in this volume allow us to travel with him up the great Amazon into the jungles of southern Brazil to snowline in the Andes through southern and central Africa to the headwaters of the Nile and across six oceans and seas in order to reach the rare forests he had so long wished to study Although this epic journey has received almost no attention from the many commentators on Muir s work Muir himself considered it among the most important of his life and the fulfillment of a decades long dream John Muir s Last Journey provides a rare glimpse of a Muir whose interests as a naturalist traveler and conservationist extended well beyond the mountains of California It also helps us to see John Muir as a different kind of hero one whose endurance and intellectual curiosity carried him into far fields of adventure even as he aged and as a private person and family man with genuine affections ambitions and fears not just an iconic representative of American wilderness With an introduction that sets Muir s trip in the context of his life and work along with chapter introductions and a wealth of explanatory notes the book adds important dimensions to our appreciation of one of America s greatest environmentalists John Muir s Last Journey is a must reading for students and scholars of environmental history American literature natural history and related fields as well as for naturalists and armchair travelers everywhere **The National Union Catalog, Pre-1956 Imprints** ,1980
