Speak Chinese By Singing:

Speak Chinese by Singing Charlie Ling, Betty Ling, 1978 **Teaching English Reading in the Chinese-Speaking World** Clay Williams, 2016-04-07 This book investigates inherent structural differences in the Chinese and English writing systems which predispose learners from childhood to develop specific literacy learning strategies which can impair later efforts at learning foreign language literacy if the foreign language script varies significantly from the native language script. It compares educational practices and philosophies in Chinese and English speaking classrooms and examines the psychological underpinnings of these literacy learning strategies. This book presents psychometric testing of adult reading strategy defaults and examines case study data revealing that Chinese students are susceptible to misapplying Chinese character level processing strategies to English word identification tasks which decreases reading efficiency and ultimately can lead to learning failure. Finally a new educational framework is proposed for teaching beginning language specific word identification and literacy learning skills to learners whose first language script varies significantly from that of the target language.

Singing in Mandarin Katherine Chu, Juliet Petrus, 2020-11-30 Access audio files at https://soundcloud.com/kchu_jpetrus sets singing in mandarin recorded. The success of Chinese artists internationally across many art forms has focused the world's attention on the developing cultural phenomenon in China an emerging stage for the vocal arts. As one of the most widely spoken languages in the world Mandarin is poised to become the next addition to lyric languages. *Singing in Mandarin: A Guide to Chinese Lyric Diction and Vocal Repertoire* is a comprehensive guide to unlocking the mysteries of Chinese contemporary vocal literature. In part one Chu and Petrus focus on diction and language providing detailed descriptions and exercises for creating the sounds of the language. They take a uniquely systematic approach fusing together best practices from international music conservatories for diction study with those for Chinese language learning. Part two outlines the historical context of Chinese vocal literature chronicling the development of the language and its repertoire over the last one hundred years. Audio files narrated by native speakers demonstrating the sounds are also included. *Singing in Mandarin* provides guidance for both novices and those with previous experience singing or speaking Mandarin and is the first book of its kind to help bring the fascinating and previously inaccessible treasure of Chinese vocal music to Western audiences.

Chinese Entertainment Kwok-Bun Chan, 2014-06-11 Scholarly studies of Chinese culture history and society both within and outside of China generally pay little attention to leisure entertainment and amusement though it has long been known that this aspect of life gives a deep understanding of the psyche and soul and the hopes and fears of a person. Leisure is a less coerced upon mandatory human conduct than work certainly leisurely conduct is more voluntary expressive and creative. But when seen as human behaviour leisure and entertainment cannot be separated from history heritage ethnicity the community family and kin rituals and customs thus a collective activity and its constraints on the person. This book examines a variety of genre of Chinese entertainment from singing clubs Cantonese opera and film to Chinese rock and

tourism Though formally voluntary Chinese entertainment when entangled with ethnicity heritage and history is ironically a site of both enjoyment and struggle both pleasure and suffering This book was originally published as a special issue of Visual Anthropology The Singer's Voice Michael S. Benninger, Thomas Murry, 2008-05-01 Each type of performer whether singer voice over artists dancer singers instrumentalist singers brings specific issues to the voice treatment team and requires special individual attention from the various members of the team from laryngologist to speech pathologist singing or voice teacher The Singer's Voice identifies these individuals presents reports on cases with special needs and offers myriad solutions that help to preserve the voice and prevent further damage It is written by a world leading group of dedicated professionals from an array of disciplines related to the care and treatment of individuals who use their voices in professional settings Ranging from current day performers to choral conductors to past rock and roll musicians all contributors have shown a dedication to the care of the singer and performer through their studios academic training their research interests and experience and their clinical and or their performance background The content is thoroughly practical and written to be accessible to a wide range of voice professionals particularly singing and voice teachers instructors in the various performing arts those who provide medical and allied health care and indeed performers and students themselves

Speaking with Tongues George Barton Cutten, 1927 *The True History of Paradise* Margaret Cezair-Thompson, 2010-05-12 It is 1981 Jean Landing secretly plans to flee her beloved Jamaica the only home her family has ever known a place now rife with political turmoil But before she can make her final preparations she receives devastating news Lana her sister is dead The country's state of emergency leaves no time to arrange a proper funeral Even Jean's mother Monica who hadn't spoken to Lana in more than a decade cannot fully embrace her grief The tragedy only underscores Jean's need to leave an island that holds no promise of a future Her harrowing journey to freedom across a battered landscape takes Jean through a terrain of memories of her childhood with a detached mother at odds with an adoring father of her complex bond with Lana and of the friends and lovers who have shaped and shared her days Epic in scope The True History of Paradise poignantly portrays the complexities of family and racial identity in a troubled Eden *Chinese Television and National Identity Construction* Lauren Gorfinkel, 2017-11-03 This book examines music entertainment programmes on China Central Television China's only national level television network as well as on nationally available provincial channels exploring how such programmes project a nuanced image of China's identity and position in the world It shows how the images presented primarily to domestic audiences are in step with China's party state nationalism and at the same time flexible and open to change as China's circumstances change The book contextualises identity construction in the media by examining the development of television in China and the political struggles between provincial and national television stations as well as by foregrounding the historical and contemporary role of musical culture in China's nation building project It discusses the portrayal of the majority Han Chinese and of ethnic minorities and their music which the author argues are

shown as fitting with the party state rhetoric of a unitary multi ethnic state It also outlines how the Chinese of Greater China Hong Kong Taiwan Macao and the overseas Chinese are incorporated into a mainland centred Chinese identity In addition it shows how the performances of foreign personalities on the Chinese television stage emphasise foreigners attraction to China the uniqueness of the Chinese nation and Chinese civilisation and the revitalised role of China in the world Overall the book demonstrates how the variations of Chinese identity fit with prevailing political ideologies in China and with the emerging theme of a China centred world
