Speak No Evil The Promotional Heritage Of Nuclear Risk Communication:

Speak No Evil Louis Gwin, 1990-11-09 Are the nuclear industry's efforts to prepare the public during emergency situations adequate? This study critiques risk communication programs and questions whether these programs have convinced residents close to nuclear power plants to follow instructions in an emergency. The government invests the responsibility of nuclear risk communication essentially with the utilities that operate the plants with little supervision by either federal or state officials. The study demonstrates that such programs do not communicate critical safety information that people living near plants will make decisions in an emergency contrary to those recommended and that disparity exists between technical and lay perceptions of risk. A unique investigation of non-governmental public communication, the book analyzes the persuasive efforts of corporate advocacy and risk management. Risk communication is seen as a substitute for the more stringent regulatory measures necessary to protect public health and safety in a technological age. *Speak No Evil* begins with a discussion of issues surrounding risk communication, then describes how the narrative of the promotional history of nuclear power developed and eventually contaminated modern nuclear risk communication messages. Students of organizational communication, rhetoric, political communication, and public relations/issue management will find this book illuminating.

Nuclear Energy And Security In The Former Soviet Union David R. Marples, 2018-02-19 Only several years after the collapse of the Soviet Union, nuclear security issues are again at the forefront of international concern. This timely collection addresses issues of cleanup at Chernobyl and other sites of nuclear disasters, nuclear smuggling, safety concerns in the Ukrainian and Russian nuclear industries, and Ukraine's negotiations with Russia and the West regarding the transference of its nuclear weapons to Russia. Preeminent scholars in their fields, the contributors provide up-to-the-minute information and fresh insights into questions critical to the future of the former Soviet Union and to Russian and Ukrainian relations with the West.

The Rhetorical Rise and Demise of "Democracy" in Russian Political Discourse, Volume 1 David Cratis Williams, Marilyn J. Young, Michael K. Launer, 2021-12-14 The essays in this book examine the arguments and rhetoric used by the United States and the USSR following two catastrophes that impacted both countries as blame is cast and consequences are debated. In this environment, it was perhaps inevitable that conspiracy theories would arise, especially about the downing of Korean Air Lines Flight 007 over the Sea of Japan. Those theories are examined, resulting in at least one method for addressing conspiracy arguments. In the case of Chernobyl, the disaster ruptured the social compact between the Soviet government and the people; efforts to overcome the resulting disillusionment quickly became the focus of state efforts.

Risk and Securitization in Japan Piers R. Williamson,2013-11-26 Since the early 1990s there has been an emphasis in international relations theory on the shift from a Cold War rationality of threat to a post Cold War rationality of risk However in Risk and Securitization in Japan 1945-1960 Piers R Williamson argues that this assumption of a shift in rationality stems from a fundamental failure to distinguish between the concepts of threat and risk By clarifying the concepts of threat and risk this book challenges the prevailing hypothesis of a shift from threat to risk with the end of the Cold War and in doing so presents a new explanatory model of risk that can be applied to Japan and elsewhere In turn it proposes that a full comprehension of the concept of risk can generate new understandings of political processes that would otherwise remain obscured Williamson demonstrates how this can be done proffering a new perspective on Japanese security discourse especially the controversy between on the one hand early Japanese governments prime ministers Diet members and those Japanese who drafted the Japanese proposal for the new constitution and on the other hand intellectuals peace movement activists proponents of unarmed neutrality and the US Japan security treaty Including extensive archival material in the form of speeches public statements and government documents this book will be of huge interest to students and scholars of Japanese politics international relations and history alike Continuity and Change in the Rhetoric of the Moral Majority W David Snowball,1991-03-30 The persuasive strategies employed by the Moral Majority in the early 1980s reassured and calmed a segment of the American population left confused and uncertain by recent national events David Snowball analyzes this powerful movement how its rhetoric energized its supporters the positions it endorsed and causes it championed and its

response to political and media critics By examining the fundamental messages the tactics used and the personalities involved the study reveals that while the basic message of the Moral Majority remained constant its changing popular image and maturing rhetoric which initially added momentum to its rapid rise may also have been at the root of its swift decline by the end of the decade While tracing the movement s origins Snowball investigates in depth the American people s reaction to the influence of the Moral Majority He subsequently reviews its founding tenets and the language typically used to encourage its disciples A look at the specific issues which polarized critics and followers exposes the reasons for the movement s collapse and poses questions regarding its future Although the primary focus of this study is the history of the Moral Majority the analysis also provides valuable insight into the nature of the American political system s response to religiously motivated movements in general

Contemporary Apocalyptic Rhetoric Barry Brummett, 1991-11-30 Intellectuals today cringe when a politician speaks of the Second Coming the millennium or the Antichrist Certain questions naturally arise about those who literally expect the end of the world in our day Why do they think this Why do some people believe them How do their exhortations work to persuade an audience and to move that audience to actions and commitments These are the motivating questions of Contemporary Apocalyptic Rhetoric which describes apocalyptic as a rhetorical genre of discourse Barry Brummett first recasts insights drawn from past scholarly and theological studies to demonstrate their relevance to contemporary apocalyptic then examines a variety of real apocalyptic to illustrate the ways in which these rhetorical discourses actually work The discussion focuses on those strategies arguments and stylistic features that are peculiar to apocalyptic and that support its social and political claims Following an introductory first chapter Chapter Two describes how apocalyptic rhetoric links a psychological context to an esoteric grand order underlying all of time and the cosmos Chapter Three compares premillennial and postmillennial apocalyptic on three dimensions to show the different approaches they take to reach their audiences Chapter Four describes specific rhetorical techniques designed to maintain a mystic persona and urge social and political commitments on audiences The final two chapters apply the author's theories to secular and religious apocalyptic both premillennial Hal Lindsey and Ravi Batra and postmillennial Francis Fukuyama Contemporary Apocalyptic Rhetoric will appeal to readers across many disciplines including communications religion sociology and psychology Presidential Perspectives on Space Exploration Linda Krug, 1991-10-30 In this unique study of space exploration from a metaphorical perspective Krug focuses on presidential rhetoric and the ways in which metaphors influence public understanding and opinion of the American space program **The Cold War as Rhetoric** Lynn B. Windt, 1991-09-30 Rhetoric Lynn Boyd Hinds and Theodore Windt argue is central to shaping both political consciousness and political culture In this important new contribution to Praeger's Series in Political Communication they examine how the rhetoric of the early Cold War years was used to create and develop a national and international reality The pervasive political view of events motives actions and policy was largely created in the years between 1945 and 1950 and grew from a pre existing set of rhetorical beliefs as well as from the political speeches and pronouncements of the time Hinds and Windt focus their study on American rhetoric applied to Soviet American relations centering essentially on Europe They offer a brief outline of the theoretical principles used in their analysis and follow with a look at certain images of the USSR selected for use by American politicians In subsequent chapters the authors trace developments from the end of World War II to Winston Churchill's Iron Curtain speech thoroughly explore the British leader's address and its effect in dividing the world into two warring camps analyze the writing and presentation of the 1947 Truman Doctrine and its suggestion of two ways of life and

detail the Truman Loyalty Program and the 1947 House Committee on Un American Activities hearings in Hollywood The remaining chapters discuss George Marshall s address originating the European Recovery Act George Kennan s Sources of Soviet Conduct contemporary critics and such proofs as the Korean War which showed the rhetoric to be correct This work will be an important reference tool for courses in political communication American history political science and presidential studies and a useful addition to library collections
