Notably the application of multisensory instruction not only enhances dyslexic students foreign language competencies but also positively impacts their self efficacy. The study underscores the importance of language instruction tailored to the special educational needs of students with dyslexia as well as its potential to foster self efficacy an essential factor for success in foreign language learning.

Primary Language Impact on Second Language and Literacy Learning Kristen L. Pratt, Bogum Yoon, 2022-12-19. *Primary Language Impact on Second Language and Literacy Learning* Linguistically Responsive Strategies for Classroom Teachers provides educators with foundational knowledge on how students native languages influence their learning of English language and literacy. Linguistically diverse students increasingly populate current classrooms and it is important for educators to have general linguistic and cross linguistic knowledge to provide students with equitable access to the language and content of school. By discussing English language learners ELLs primary language norms positive and negative transfer and culturally sustaining resources this book helps educators understand how to support ELLs use of their primary language as an asset when engaging in English language and literacy learning experiences.
