Special Challenges In Career Management Counselor Perspectives:

Special Challenges in Career Management Alan J. Pickman, 1997 Topics include outplacement counselor job loss and organizational change psychological perspectives psychological aspects of career counseling counseling older adults scientists minority clients special challenges in leading groups new models for career centers *Special Challenges in Career Management* Alan J. Pickman, 2013-02-01 As the practice of outplacement counseling continues to evolve outplacement professionals are increasingly called upon to respond effectively to a rapidly changing set of counseling and business developments One of the major trends is that the skills and expertise of outplacement practitioners are of value to individuals still employed within corporate organizations as well as to those who have already lost their jobs Practitioners are designing programs and delivering services in the areas of executive coaching organization development internal career management and more Another trend is that career management professionals are challenged to provide effective services to an increasingly diverse group of candidates to ensure that they are maintaining the highest professional standards in their service delivery And more attention is being given to innovative applications of technology to career management services As a result of these evolving trends the need has never been greater for career management professionals to think clearly about the services they deliver to enhance their own professional development on an ongoing basis and to respond effectively to changes in the labor market One of the best ways to accomplish this growth is to fully tap the knowledge and experience of authorities in the field The contributors to this volume are established industry leaders with demonstrated expertise in their areas of special interest This volume is a valuable resource to all those interested in the fields of outplacement and career management especially current and would be practitioners Its contents will benefit candidates receiving career management services and human resources professionals whose organizations provide such services It is also of interest to those from a variety of academic backgrounds including counseling psychology organization development and industrial organizational psychology For all of these audiences this volume assembles practical state of the art information about important career development topics from a broad range of distinguished practitioners *Special Challenges in Career Management* Alan J. Pickman, 1996

Current Topics in Management Robert Golembiewski, 2018-02-06 This annual series presents research on the theory and practice of management Volume 9 includes papers presented at the 2003 joint conference of the International Conference on Advances in Management ICAM and Korean Association of Public Administration This volume exemplifies ICAM's comparative orientation in its broad scope of management perspectives in its diverse locations of its research as well as its application and in its comparisons of findings methodologies and operational definitions Part 1 Organization Theory Change and Effectiveness discusses the relationship between ethical orientation and crisis management before and after the World Trade Center attacks and high success rates of organizational development and modern Hindu work ethics Part 2 Behavior and Attitudes in Organizations offers a nuanced perspective on organization's behavior academic wisdom versus practical realities in organization and regulatory focus as a determinant of occupational status Part 3 Business and Society Ethics and Values looks at crises in corporations and government due to corruption and unethical behavior Part 4 International and Cross Cultural Management looks at studies on leader power and how it is associated with subordinates conflict management strategies and propensity to leave a job in four countries the role of commitment to change as it is associated with reaction to organizational change in India and effective management of interdepartmental conflict in Greece Part 5 looks at the number of levels in multi level organizational research This volume will be of particular interest to corporate executives economists and labor studies specialists

Consultation for Organizational Change Anthony F. Buono, David W. Jamieson, 2010-09-01 This volume is a joint publication in the Research in Management Consulting and Contemporary Trends in Organizational Change and Development series This dual focus reflects the reality that consulting for organizational change is a special type of management consultation a complex field of endeavor that requires a broad range of skills and competencies To be truly effective change related consulting requires a unique client consultant relationship a special set of consulting skills an expertise in human and organizational systems and significant personal qualities It is in high demand in a world full of change Yet we still know relatively little theoretically about this type of consulting and have relatively little empirical evidence about what actually works and why As the contributors amply illustrate the Organization Development OD field has a well developed set of frameworks technologies and models of change

Still we need to focus on and learn more about the role of the OD consultant as a special kind of change agent A goal of this joint volume is to increase that specific body of knowledge and provide an illustration of much needed collaboration in bringing all possible resources to bear on our understanding of an increasingly critical and essential form of consulting

Executive Coaching Christina A. Douglas, William H. Morley, 2000 What does a typical coaching process look like What are the steps that lead through that process This book examines these questions and others in a review of the current literature about executive coaching The authors continue the discussion with a look at the themes revealed through their review and lay the groundwork for thinking about executive coaching as a process and relationship rather than just a brief fix it intervention

The European Social Model Adrift Serena Romano, Gabriella Punziano, 2016-03-09 This volume presents a new perspective for discussing the European social contract and its main challenges bringing together single nation and comparative studies from across Europe Presenting both theoretical discussions and empirical case studies it explores various aspects of social cohesion including social protection the labour market social movements healthcare social inequalities and poverty With particular attention to the effects of the international economic and financial crisis on social cohesion particularly in the light of the implementation of so called austerity measures authors engage with questions surrounding the possible fragmentation of the European model of social cohesion and the transformation of forms of social protection asking whether social cohesion continues to represent if it ever did a common feature of European countries Breaking new ground in understanding the future of Social Europe and its main dynamics of change *The European Social Model Adrift* will appeal to scholars of sociology social policy and politics with interests in social cohesion the effects of financial crisis and the European social model

Development Through Life Barbara M. Newman,Philip R. Newman,1999 A general introduction to the study of human development from conception through very old age Treats physical intellectual social and emotional growth in each of eleven stages emphasizing that development results from the interdependence of these areas at every stage

Career Development and Systems Theory Wendy Patton,Mary McMahon,2006 The Systems Theory Framework was developed to produce a metatheoretical framework through which the contribution of all theories to our understanding of career behaviour could be recognised In

addition it emphasises the individual as the site for the integration of theory and practice Its utility has become more broadly acknowledged through its application to a range of cultural groups and settings qualitative assessment processes career counselling and multicultural career counselling For these reasons the STF is a very valuable addition to the field of career theory In viewing the field of career theory as a system open to changes and developments from within itself and through constantly interrelating with other systems the STF and this book are adding to the pattern of knowledge and relationships within the career field The contents of this book will be integrated within the field as representative of a shift in understanding existing relationships within and between theories In the same way each reader will integrate the contents of the book within their existing views about the current state of career theory and within their current theory practice relationship Back cover ed

Vocational Psychological and Organisational Perspectives on Career, 2009-01-01 It has long been lamented that although several disciplines contribute to career scholarship they work in isolation from one another thus denying career theory research and practice the benefits that multidisciplinary collaboration would bring This constitutes a lost opportunity at a time when new understandings and approaches are needed in order to respond effectively to global changes in society and work This book takes a major step towards remedying this situation by bringing together two key perspectives on career the vocational psychological and the organisational interpreted broadly to include organisation behaviour and human resource management Written by international experts the book opens by identifying some of the tributaries that flow into the great delta of careers scholarship and noting the need to link what are at present separate islands of scholarship It is structured to allow comparison between the ways in which the two perspectives address career development and career management theory research and interventions It concludes by pointing to the possibilities for dialogue and even collaboration between these perspectives and suggesting ways in which these could be brought about The book will be essential reading for career scholars because with its potential to stimulate new thinking and developments in theory and research and also importantly in practice with beneficial spin offs for policy makers this dialogue could open a new phase in career scholarship With its overviews of the history theory research and practice of both perspectives the book will also be a valuable resource for students of both perspectives

Handbook of Innovative Career Counselling

Jacobus G. Maree, 2019-07-20 This book examines a topic widely regarded as the most pressing in career counselling today i.e. how to ensure that everyone receives career counselling and that all workers have the opportunity to engage in sustainable decent work The author holds that career counselling should not only advance workers self and career construction helping them design successful career lives and make social contributions and live purposeful lives it should also expound new theoretical approaches and interventions Furthermore the book criticizes global society for overlooking the basic needs of many workers especially the most vulnerable and disadvantaged An important feature of the book is its emphasis on promoting a creative and innovative approach to career counselling so as to better answer contemporary career related

questions It offers guidance on how to advance entrepreneurship and help workers develop critical thinking curiosity creativity collaboration and communication skills In this way the book promotes innovation in career counselling and maps the way forward in a theoretical and practical manner that helps clients flourish rather than merely survive in turbulent times impacted by the fourth wave in psychology career counselling the economy as well as the 4th industrial revolution

Work 4 0 *Emotionally Intelligent School Counseling* John Pellitteri, Robin Stern, Claudia Shelton, Barbara Muller-Ackerman, 2006-04-21 The concept of emotional intelligence EI which has steadily gained acceptance in psychology seems particularly well suited to the work of school counselors and school psychologists who must constantly deal with troubled and underperforming students To date however no book has systematically explained the theoretical and scientific foundations of emotional intelligence and integrated this information into the roles and functions of school counselors and other school personnel In addition to illustrating how social emotional learning is important to both individual students and to school climate the book also shows school counselors how to expand their own emotional awareness and resiliency Key features of this outstanding new book include ASCA Guidelines The book integrates the latest findings from the field of social emotional learning with the new ASCA guidelines for school counselors Real life Cases The book moves quickly from an overview of basic definitions theories and guidelines to stories of real counselors administrators teachers and parents Author Expertise John Pellitteri is Professor and Director of the Graduate Program in School Counseling Queens College CUNY A former school counselor he is a leading researcher in the area of emotional intelligence Barbara Ackerman is a K 5 school counselor and retiring Vice President of the American School Counseling Association ASCA Elementary School Division Claudia Shelton has been a school counselor in grades 6 12 and currently heads a firm specializing in professional development for schools Robin Stern is an adjunct associate professor and researcher at Columbia Teachers College and a specialist in social emotional learning for the New York City Board of Education This book is appropriate as a supplementary text in school counseling courses and as a professional reference work for practicing school counselors counselor educators counseling psychologists school psychologists and school administrators
