Here's how the book works: on the left page, it shows how you did a particular task back in Mac OS 9, and on the right page, it shows you exactly how it's now done in Mac OS X Panther. It couldn't be easier. The whole book, every page, is in crisp full color with clear, concise, plain English descriptions that let you start using Mac OS X today immediately without having to learn the whole operating system first. It's like having a friend nearby with all the answers when you get stuck and wonder how to do that in Mac OS X. Just turn to that task, and there it is: the left page shows the old way, the right page shows the new way. If you're one of those people who believe like we do that the best ideas are the simple ones, you'll absolutely love this book. If you want to start using Mac OS X today, if you want to unlock its power, stability, features, and fun, today this is the book that will do it. There are no in-depth explanations about networking, no UNIX commands, or how to hack the system, and no detailed descriptions of how it all works and why. In short, it's not a "tell me all about it" book; it's a "here's how to do it" book, and that's why it works so amazingly well. Plus, if you look up how to do a particular task, and Mac OS X offers new features, new shortcuts, or new options that weren't available in Mac OS 8/9, and there are plenty in Panther, Scott includes those too, using the same right to the point, conversational writing style that made his Mac OS X Killer Tips book a smash bestseller. We can't imagine an easier, faster, or more fun way to convert to Mac OS X and really start using it today. *Mac OS X Panther Timesaving Techniques For Dummies* Larry Ullman, Marc Liyanage, 2004-03-22 The Mac OS X Panther is incredibly full-featured. Chances are you don't fully appreciate all the shortcuts and timesaving options you have right at your fingertips. Mac OS X Panther Timesaving Techniques For Dummies gets you up to speed fast with over 60 timesaving techniques. While it includes keyboard shortcuts to expedite basic tasks, it goes further and shows you how to customize your Mac so it works faster for the way you work and the types of things you work on. Step-by-step instructions help you perfect your keyboard and mouse navigation techniques so you can get where you want to go faster. Use keyboard shortcuts and create shortcuts of your own. Customize the Finder, Windows, and the Dock. Handle files, aliases, favorites, and icons so you always know what's what and what's where. Get proficient and efficient with Safari and Internet Explorer. Web browsers, searches, e-mail, and more. Mac OS X Panther Timesaving Techniques For Dummies was written by Larry Ullman and Marc Liyanage.
